New York, Saturday, January 4, 1873.

Railroad Bridge over the Niagara at Lewiston.

Measures are on foot for the construction of a railroad bridge across the Niagara river at Lewiston. The plan is pushed forward under the auspices of the Lake Ontario Shore Railroad, now being constructed from Oswego to Lewiston. The object is to bring the Lake Ontario Shore road into connection with the Canadian system, and ultimately to form a northern line from the seaboard to the great west. From the Buffalo *Courier* we learn that this object is to be secured from the three great points: New York, Boston, and Portland—from the first via the Midland; from the second via the Hoosac tunnel, and from Portland via the northern line through New Hampshire, Vermont and across Northern New York to Oswego. These routes combining at the last named place will proceed thence westward by the Lake Ontario Shore road to Lewiston, where they will connect with the Great Western of Canada, and possibly with the Canada Southern. For that purpose it is in contemplation to construct a first class suspension bridge at Lewiston, upon the site of the old carriage bridge which was so nearly destroyed a few years ago. A meeting of parties interested in this enterprise was recently held at Clifton, Ca., and a committee appointed to procure plans and estimates for the new bridge.

To Investors.

To those who wish to REINVEST JANUARY COUPONS OR DIVIDENDS, and those who wish to INCREASE THEIR INCOME from means already invested in other less profitable securities, we recommend the Seven-Thirty Gold Bonds of the Northern Pacific Railroad Company as well secured and unusually productive.

The bonds are always convertible at Ten per cent. premium (**1.10**) into the Company's Lands at Market Prices. The rate of interest (seven and three-tenths per cent. gold) is equal now to about 8¼ currency—yielding an income more than one-third greater than U. S. **5-20s**. Gold Checks for the semi-annual interest on the Registered Bonds are mailed to the Post-Office address of the owner. All marketable stocks and bonds are received in exchange for Northern Pacifics ON MOST FAVORABLE TERMS.

JAY COOKE & CO.

New York, Philadelphia and Washington,

Financial Agents N. P. R. R. Co.

Baltimore and Potomac Railroad Completed.

We are gratified to say, says the Marlboro' *Gazette*, that the Baltimore and Potomac Railroad is finished to the river, and that in a very short time it will be fully equipped the entire distance to Pope's creek on the Potomac river. On Thursday last Vice President DuBarry and several other officers of the road passed over it from Baltimore to Pope' creek, the southern terminus, with a view of examining the work below Marlboro'. They were accompanied by Mr. Seabrooke, the general contractor. It is understood that the road will be formally handed over to the company by Mr. Seabrooke on the first of January—"finished." The president of the road, Hon. Oden Bowie, was prevented by previous engagements from accompanying the party. This was a source of regret, as his friends in Charles county were anxious to thank him in person for his constant and laborious efforts in behalf of the road.

The New Line Through West Virginia.

A correspondent of the Baltimore *Gazette*, writing from the National Capital, says:

A trip from Charleston, the capital of West Virginia, on the Kanawha, to the east, over the Chesapeake and Ohio Railroad, will ere long be an everyday occurence, and hence will lose much of its novelty. Anticipating that rapidly approaching day, permit me to give you a rapid sketch of the trip. Leaving Charleston at 12 M., on Saturday, the 22d, by a special car, furnished a portion of the members of the Legislature of West Virginia by the officers of the Chesapeake and Ohio Railroad Company, we reached the Falls of Kanawha about 2 P. M., where, by the care of Capt. Parsons, director of said road, we were transferred to coaches, which carried us safely to Bowyer's Ferry, twenty miles from Kanawha Falls. Upon reaching the ferry we were at once taken charge of by Gen. Wickham, vice-president of the road, and Major H. D. Whitcomb, chief engineer. From the General we learned that there were but fifteen miles of unfinished road, and that most of that was ready for the rail. By 2 P. M. we started for Gordonsville; and he who would see the wildest, grandest scenery of this country should visit the canon, New river.

The character of the road with which I propose to deal principally is really worthy of those who have planned and built it. From one end to the other it has stamped upon it the impress of first-class workmen, and every bridge is built for a double track. Every part has the appearance of durability, and its very appearance indicates its assured importance among the railroads of this country. The location of the road bespeaks for it all the business its capacity will admit of from the first day of its opening, which will be about the middle of January. The country it traverses is rich in all the ores necessary to a manufacturing district. Iron and coal find their rarest association here, being so arranged as to furnish loaded cars each way to or from a furnace. Timber of the best quality stands in unbroken forests of hundreds of thousands of acres. Once through the New river canon you approach the mountain scenery of Virginia, which Scribner's correspondent for December and January numbers has so graphically described. The C. and O. R. R. Co. has everything to attract the tourist, the capitalist, the worker of wood or iron,

The Montclair Railroad.

The occasion of the completion of the Montclair branch of the New York and Oswego Railway, which was consummated on Saturday last, suggests a few facts in regard to the manner and nature of the enterprise, which is of no mean importance to the county and the state. The road is about forty miles long, commencing at Jersey City, passing through Kearney, North Newark, Bloomfield, Montclair, Little Falls and Pompton to Greenwood Lake, where it will connect with the Short Line of the New York and Oswego Midland Railroad and become the eastern or New Jersey section of that great route. The Montclair Railway has two branches now building, one leading to Orange, the other to Morristown. The Orange branch will be running about the 1st of March and possibly earlier. The Morristown branch is in course of construction, the tunnel through the mountain at Montclair having been already driven about five hundred of the two thousand feet necessary.

The chief advantages to the community are the opening up of a large section hitherto dormant, and the infusion of a new life along its entire line by connecting all that region closely with the city of New York. The connections westerly will increase the supply and lessen the cost of all the great staples of consumption. The actual increase in value of property along the line may be understood by a comparison of prices at the time of beginning with prices now prevailing at the time of completion of the road.

The prices affixed are the average prices, and are generally based on bona-fide sales:

Localities.	Acres.	Av. price in 1869.	Av. price 1872.	Inc. in value.
Kearney	2,500	$700	$2,000	$1,250,000
Bellville & Woodside.	1,280	2,000	3,500	1,920,000
Montgomery	1,000	600	1,200	600,000
Bloomfi'ld,outside vil'e	2,000	1,000	2,500	3,000,000
Montclair n. of village.	4,000	500	1,500	4,000,000
Little Falls	3,500	150	350	700,000
Wayne	3,000	100	250	450,000
Pequannock	2,000	75	200	250,000
Pompton Plains	2,500	100	300	500,000
Pompton (imp'd land)	5,000	150	250	500,000
Do. (mountain land)	15,000	25	75	750,000
Total	41,780			$15,920,000

Length, 32 miles. Average advance, 123 per cent.

To produce this great increase of wealth along its route the company have expended nearly four millions of dollars, of which nearly half a million were required for the great cut at Kearney.

The Montclair Railway has been built in the interest of the New York and Oswego Midland Railway Company, under a contract by which the latter company acquires the perpetual use of the road from the time of completion, and by virtue of that contract it is now surrendered and will be hereafter operated by the New York Midland Company, of which Mr. Littlejohn is president. Mr. Pratt, the president of the Montclair Company, will, at his own request, be relieved from farther active duties in the management, and will devote himself to private business as soon as the interests of the company may permit.

About three months since the president of the company sent circulars to the citizens at the different points on the line, inviting them to subscribe to the stock of the company such amounts as seemed desirable, for handsome depots at the various stations; but of about twenty communities thus solicited only one at the present time has responded.—*Newark* (N. J.) *Daily Advertiser.*

☞ The time allowed for the foreclosure of the first mortgage on the Boston, Hartford and Erie Railroad, on account of the failure of the payment of interest on the bonds, will expire on the 18th of March. Notice will then be given to the holders of bonds to meet at the expiration of thirty days for the purpose of organizing a new company. The stock and floating debt will by this means be wiped out, and the bondholders will receive stock in the new company at the rate of ten shares for every one-thousand dollar bond.

Railroads of the United States.

The following tabulation exhibits an approximate survey of the total length and cost of railroads in the United States at the opening of the year 1873, and of the distribution thereof to the several geographical division, States and Territories, which in the aggregate compose the Union:

Sections, States and Territories.	Length in Miles. Total.	Complete.	Cost of Road & equipm't.
Maine	1,017.50	906.50	$37,914,406
New Hampshire	1,144.38	922.78	27,573,705
Vermont	859.30	761.30	40,992,280
Massachusetts	1,816.49	1,625.02	88,335,768
Rhode Island	133.16	133.16	7,079,088
Connecticut	986.44	898.26	45,377,013
	5,957.27	5,146.97	$247,272,210
New York	6,635.35	4,884.95	$320,971,068
New Jersey	1,559.99	1,343.69	107,518,499
Pennsylvania	7,484.85	5,782.55	342,158,593
Delaware	280.69	222.69	7,269,867
Maryland	1,206.53	865.48	51,271,426

The progress of railroad construction in the United States since 1827, in which year the Granite Railroad at Quincy, Mass., was inaugurated, to the present time is shown in the following table:

Year.	Miles open.	Yearly Increase.	Year.	Miles open.	Yearly Increase.
1827	3		1850	7,475	1,125
1828	3		1851	8,589	1,114
1829	28	25	1852	11,027	2,438
1830	41	13	1853	13,497	2,470
1831	54	13	1854	15,672	2,175
1832	131	77	1855	17,398	1,726
1833	576	445	1856	19,251	1,853
1834	762	186	1857	22,625	3,374
1835	918	156	1858	25,090	2,465
1836	1,102	184	1859	26,755	1,665
1837	1,431	329	1860	28,771	2,016
1838	1,843	412	1861	30,593	1,822
1839	2,220	477	1862	31,769	1,176
1840	2,797	577	1863	32,471	702
1841	3,319	522	1864	33,860	1,389
1842	3,877	558	1865	34,442	582
1843	4,174	297	1866	35,351	909
1844	4,311	137	1867	36,896	1,545
1845	4,522	211	1868	38,822	1,926
1846	4,870	348	1869	42,272	3,450
1847	5,336	466	1870	48,860	6,588
1848	5,682	346	1871	55,535	6,675
1849	6,350	668	1872	62,647	7,112
1873 - - -	**69,158**		**Increase - -**	**6,511**	

The year 1872 terminates with an increase of 6,511 miles of railroad in the whole breadth and length of the land; and the cost of railroads has increased during the same year in the amount of $423,180,313. The rate of increase in mileage has been 10.4 per cent, and in cost 14.1 per cent.

The mileage increased in the five years ended December 31, 1872, from 38,822 to 69,158, or 30,336 miles, being 81.1 per cent. In the same term of years, the cost increased from $1,660,460,809 to $3,436,638,749, or $1,776,177,944—the rate of increase being 106.9 per cent.

In the year ending with December 1867, the average cost per mile of railroads in the United States was $42,770, and at the close of 1872, $49,592, showing an increase of 16.2 per cent.

These figures and deductions clearly demark a rapid and important enhancement in the costliness of railroads and their equipments in this country. It is by no means a fictitious enhancement; but on the contrary, the value of money has also been constantly enhancing from the commencement to the close of the term of years embraced in the exhibits as above.

Peculation and knavery have incessantly levied heavy booty on capital used in construction in its transit from a floating to a permanent condition, and that this roguery has contributed largely to swell the cost there can be no possible doubt. But still the main conclusion educed from our figures must be that the character of construction and of locomotive and carrying ma-

chinery has been essentially changed and improved at a large moeity of the enhanced cost.

Taking the Boston and Albany Railroad as an instance of increased cost, we find that while at the close of 1867 this was only $17,692,861, it had risen by the close of 1872 to $24,301,751, an increase of $6,609,390, or 35 per cent, no additional length of road having in the meanwhile been made. An explanation of the change exhibited is found by reference to the reports of the company for the years named, which show that in the interim there have been added to the second track and sidings about 70 miles; that a large amount of rail has been changed from iron to steel; that nearly all the bridges have been rebuilt with stone and iron; that scarcely an old structure remains; and that the equipment has been enlarged by the addition of about 60 locomotives and 2,000 cars. In fact an almost new road has been built and equipped at the cost represented by the increased amount.

There are, however, many instances in which the increased cost in chiefly nominal, and the result of financial manipulation. The more prominent of the concerns thus indicated are of too notorious a character to need special notice.

It will be perceived that in the year 1872, as compared with the previous year, the increase in mileage is less by about 600 miles. This is a less retardation in the annual increase than might have been anticipated. The year has been a remarkable one. Mainly throughout, money has been "tight," both here and in Europe; and American Railroad bonds have not been readily negotiated in foreign markets in which heretofore large amounts have found easy "placing." The enormous rise in the price of iron and steel have also contributed largely to hinder progress; and that we have accomplished so much as the result shows is probably due mainly to the fact that the builders had the advantage of contracts entered upon before the rise in prices alluded to. Of late prices have become more favorable to buyers, but the general complaint of undue cost is heard, and the indications are that, for the present, but few new enterprises in the railroad line will be undertaken. That the great lines already in progress (though they must cost immensely beyond the original estimates) will be carried to completion and usefulness there can be no doubt. The Northern and the Southern Pacific Railroads, and others in the western half of the country, are of too great importance to the Union at large to permit of their abandonment, or of any delay in their construction and final completion.

The financial results of operating existing railroads, as indicated by the monthly returns of earnings on the great thoroughfares during the year 1872, have been favorable; and in almost every instance an increased income is shown. The country is evidently prospering under the stimulous of an improving system of roads. Every line as it is opened to commerce finds ready work for all the machinery that our shops can turn out. It appears, indeed, that the business of the country keeps ahead of the means of transportation, and even on the distant wilds towards the setting sun, where but a few years ago civilization had no resting place, the car of commerce finds a loading.

And so it will be to the end. The impetus steam power has already given to progress can never be broken. It is the lever of a mighty present and future commerce, and its adjunct industries.

Massachusetts Railroads.

The Boston *Advertiser* extracts the the following information from the report of the Massachusetts Railroad Commissioner:

The twenty-four railroads reported are, with perhaps one or two unimportant exceptions, all that are operated by the companies owning them. The total length of main line operated by them is 1,863 miles. Those not reported have main lines aggregating about 450 miles, but fully one-half of this mileage is operated by roads included in our returns. There are, we believe, but three branch lines in the State that are not reported. We may, therefore, give a view full enough for all practical purposes of the condition of Massachusetts railroads.

On a general examination of the returns as a whole we at once notice the healthy growth of business and of profits. During the year twenty railroads, operating 1,763 miles, exclusive of leased lines, carried 33,395,615 passengers against 30,514,236 in 1871, being a gain of 2,881,379 passengers and of 9.4 per cent. The freight returns for the Fitchburg road were not included in the last report, and we can, therefore, report but nineteen, the five excluded roads being the Boston, Barre and Gardner, the Mansfield and Framingham, the Framingham and Lowell, the Fitchburg, and the Massachusetts Central. The other nineteen roads carried 9,490,323 tons of freight against 7,864, 398 tons the previous year—an increase of 1,525,930 tons, and of 19.2 per cent. The gross earnings of twenty-one roads amounted to $28,385,058 this year, against $25,367,910 62 last year—a gain of $2,967.147 38, and of 11.7 per cent.; while the net income of the past year was for the same roads, $7,823,696 49, against $7,113,722 18 in 1871—an increase of $709,974 31, or 9.98 per cent. The increase of net income as above amounts to more than one per cent. on the entire capital of the roads reported—a result which surely reflects great credit upon the management which has achieved it. It is not, however, to be taken for granted that the shareholders in these railroads are to receive an additional dividend. The companies have during the year added little to their capital stock, but quite materially to the total of debt. The aggregate indebtedness of all the railroads reported was $52,026,317 63, against $20,155,777 20, as reported last year. But the debt of the Hartford and Erie road, though not reported in 1871, has not been increased within the year. As a matter of fact, the figures for 1872 being $52,026,000, those for 1871 should be $42,655,000, showing an increase in the year of $9,600,000. The increased revenue, is therefore, just about equal to the payment of seven per cent interest on the increase of debt.

On the 1,789 miles of railroad reported there are 1,834 crossings of highways at grade, and 1,473 of these crossings are unguarded by either gates or flagmen. There are but three roads in the whole list that have as high as forty per cent of their crossings so guarded—the Providence road, which has but nine unprotected crossings out of forty-seven; the New Bedford and Taunton, with thirteen out of forty-three, and the Eastern, with sixty-four out of one hundred and twenty-one. Some of the roads have apparently not a crossing-gate on their lines, nor a flagman in their employment. It is satisfactory to find the railroads adopting safety appliances, and the list of companies using train brakes, on which we commented some time ago, will be a valuable item in future reports. The companies have added largely to their rolling stock during the year. We make the following comparison for twenty-one railroads:

	1872.	1871.
Locomotives	753	644
Passenger cars	946	780
Mail and baggage cars	289	254
Freight cars	13,880	6,607

We think it very probable that the extraordinary increase in freight cars reported will be found exaggerated, though we cannot discover the error unless it be that the freight cars are not "reduced" to eight wheels. If the figures are correct they show a very gratifying movement on the part of railway managers. The total passenger mileage of the year on twenty roads reached the enormous figure of 504,279,375, against 466,099, 613 in 1871. Dividing this mileage by the whole number of passengers carried, we find that the average railroad journey, which was 15.27 miles in 1871, becomes 15.10 miles in 1872, showing that the universal tendency of additional facilities is to increase the number but to shorten the average length of trips. The total freight mileage on nineteen roads was 515,942,875 against 411,516,291 in 1871. This indicates that the freight carried in 1871 was transported 52.82 miles on an average; while in 1872 it was carried 54.36 miles; and this we take to be a proof of the growth of the through freight business. The average rates of fare and freight have varied but slightly during the past year. On the whole, we think the showing a good one. On some of the smaller roads the transient rates are very high, but on the seven Boston roads the average rate per mile varies only between 2.40 cents and 2.98 cents, while season ticket passengers ride at from .78 cent to 1.47 cents a mile.

THE INDIANA
AND
ILLINOIS CENTRAL
RAILWAY COMPANY'S
First Mortgage 7 per cent.
GOLD BONDS.

AN EAST AND WEST AIR LINE OF 152 MILES FROM INDIANAPOLIS, INDIANA, TO DECATUR, ILLINOIS, two of the largest railway centres in the West.

The WESTERN DIVISION (85 miles) of this important line, opening, for the first time, direct Western communication with the

BLOCK COAL FIELDS

of Indiana, will be completed and ready for business with an ample first-class freight and passenger equipment by FEBRUARY, 1873.

It traverses a populous and a highly cultivated district now without railway connections, and it is assured a profitable business from the start, in coal and farm products.

A large part of the cost of construction has been, and will in the end be, paid in cash by the stockholders and people on the line.

Bonds $1,000 each, payable in 30 years, principal and interest in GOLD, FREE OF GOVERNMENT TAX.

Sinking Fund 2½ per cent. of gross earnings.

Whole issue $3,500,000, of which those now selling are on COMPLETED ROAD.

For sale at 90 and accrued interest, by the Financial Agents of the Company (of whom pamphlets and information may be obtained).

Walker, Andrews & CO.,
No. 14 WALL ST., NEW YORK.

☞ The Governor of Virginia has signed the bill repealing the act of March 17, 1872, for the payment of interest, so that the interest on the State debt cannot be paid without a further enactment of the Legislature.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A dash (—) across the column signifies "nil," and running dots (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics.*" State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 4, 1873.

Stock Exchange and Money Market.

The Money market has continued active and stringent all through the week, with the banks, as well as private lenders, generally, less liberal of accommodation, and rates on call ruling high at from the legal figure of 7 per cent. currency to the few prominent Government houses, to the same rate in Gold, and a commission of up to $\frac{3}{16}$@¼ of one per cent. a day, to the more needy of the Stock Exchange firms. The demand for aid has been quite urgent on speculative account at the current prices, which have been against free dealings at the Gold and Stock Boards. The City Banks lost ⅞ths of a million of deposits, and reduced their loans nearly 1¼ millions. Their legal tender averages were cut down 8½ millions. They enlarged their specie line about 4½ millions, chiefly from the Treasury coin interest disbursements. The Government office had its coin reserve diminished nearly seven millions, and its currency balance 8¼ millions. The old year wound up with a less favorable Bank report than at the close of the previous year, and a much less encouraging Money market. The latter may mend early in the New Year. There is no good reason in the general trade of the country, and its large, and in most departments, profitable results, why the market should continue close. The interest and dividend disbursements at this point payable about January 1st are estimated at more than 60 millions, the bulk of which amount will have to be reinvested promptly, with a view to profitable employment. Mercantile credits have been quoted rather slow of sale, with the best grades of business paper rated at 10@12 per cent. per annum discount. At the close on Tuesday, Money was quoted easier on the bases of the legal rate to the more responsible borrowers. The clearances of the banks averaged through the week 121¾ millions a day, and amounted in the aggregate, for the whole week, to $608,815,757 as against $807,602,654 the preceding week. The U. S. Sub-Treasury at this point reduced its currency balance 8¼ millions, and its coin reserve nearly 7 millions, as the result of the week's business.

The U. S. Sub Treasury office last week received $2,757,949 of currency, and $4,316,618 of gold, the latter including $1,176,000 from customs; and disbursed $6,010,602 of currency and $11,243,513 of gold, the latter embracing $3,678,000 of coin interest.

The city banks, in their latest return, show a reduction of $3,507,100 of legal tender notes, with an increase of $4,468,700 of specie, and a falling off of $894,200 in their deposits, with a contraction of $1,239,000 in their loan and discount averages, and of $50,300 in their item of circulation. The city bank exchanges, last week, averaged 121¾ millions. The banks now hold $1,845,750 of specie and legal tender notes more than the 25 per cent. of their liabilities required by the National Banking Act.

The specie reserve of the city banks according to the latest return is $17,251,800, against $25,049,500 same time last year. The city bank deposits are now $198,529,500 against $200,400,800, week ending Dec. 30, 1871. The legal tender reserve amounts to $41,119,600, against $40,282,800 same time last year. The circulation now stands at $27,578,000 against $28,542,800 same time last year. The loans are now $274,572,400 against $270,534,000 at this date last year.

The coin reserve of the city banks is now about 17¼ millions as against about 25¾ millions on the 20th of July; the legal tender reserve is about 41⅛ millions against about 55⅛ millions on the statement of June 15th; and the deposits are now about 198⅛ millions, against 247¼ millions on the 20th of July.

Under the official programme of the Treasury Department for January, 1873, Government proposes to sell five millions of Gold, as follows: Friday, January 3—One Million. Thursday, January 9—One Million. Thursday, January 16—One Million. Thursday, January 23—One Million. Thursday, January, 30—One Million. And to buy in five millions of U. S. Five Twenties, as follows: Thursday, January 2—One Million. Wednesday, January 8—One Million. Wednesday, January 15—One Million. Wednesday, January 22—One Million. Wednesday 29—One Million.

Government revenues were rather more liberal, during the week. The excises yielded within the

week about 3¼ millions and thus far in the current fiscal year beginning with July 1, 1872, $60,720,756. The customs at the port of New York, for the week, were $1,126,760, and at the outports, about $370,000, more, in coin or coin certificates.

Gold has been moderately active, through the week, with a fair show of speculative confidence, in the face of the liberal coin interest disbursements of the Treasury department, and the severe Money pressure. The export drain was much heavier. The customs call was light. The range of the price during the week has been from 111¾ @112⅜, and the closing quotation on Tuesday was 112 against 111⅞ the preceding Tuesday. The specie outflow last week, was $1,980,825. The Gold Exchange Bank clearances have averaged about 36⅝ million per day during the week.

The customs demand for Gold last week, averaged $233,200 a day. The arrivals of specie from Europe, Havana and other foreign ports since Jan. 1, 1872, were $5,488,647 against $8,582,209 same time in 1871. The total customs revenue of the Government, in coin, at this port, since January 1, has been $143,353,393 against $153,814,406 during the same time in 1871.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since January 1, 1872, $80,421,194, against $88,408,515 during the same time in 1871.

The export drain of specie was $1,980,325 last week, against $449,696 same week preceding year. The shipments since January 1, 1872, have been $71,545,275 against $63,865,547 during the same portion of 1871.

Foreign Exchange has been in rather better supply and moderate request at a shade easier rates. Bankers' sixty day bills on London closed 109¼@109½; sight bills on London, at 110⅜@110½.

Government securities have been offered with unusual reserve, and have been advancing in price, on an improved investment inquiry, notwithstanding the activity in Money.

U. S. sixes of 1881 closed at 118@118¼; U. S. Five-Twenties of 1862, 112⅞@113⅛; U. S. Five-Twenties of 1864 at 112⅞@113⅛; U. S. Five-Twenties of 1865, 113⅜@113½; U. S. Five-Twenties of 1865 consolidated, 116⅛@116⅜; U. S. Five Twenties of 1867, 117⅜@117½; U. S. Five-Twenties of 1868, 117⅜@117½; U. S. Ten-forties at 109¾@110; U. S. Fives of 1881 (Funding Loan) 111¾@112¼; Six per cent. currency Sixes from 113@113¼.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 18.	Dec. 24.	Dec. 31.
Consols	91¾	92	91⅞
U. S. 5-20s, 1865....	92	92⅛	92½
" 1867	92	92	92¼
" 10-40s	88½	88¾	89
New Fives of 1881...	89½	89⅝	89⅞
Erie	42⅞	49¾	50⅜

State bonds have been in less demand, yet quoted generally steady.

Railroad bonds of the more substantial class have been in more confident investment demand. Central Pacific Sixes closed firmly at from 102⅛@102¼.

Railway and Miscellaneous share property has been less active and generally less buoyant as to values; the extreme stringency in Money operating against the speculative interest, and the market closed tamely.

General business closed up with a fair show of activity in the leading kinds of domestic produce, more especially in Cotton, Flour and Wheat which favored sellers, on an improved inquiry, in good part for shipment. Provisions were quiet and generally less firm. Metals dull as a rule but held with confidence. Ingot Copper exceptionally active and advanced to 33@34 05. Middling upland cotton, left off on Wednesday at 20½ cts. per lb. The receipts at all the ports, since Sept. 1, have been 1,661,394 bales, against 1,896,047 bales same time in the preceding year; exports 838,100 bales against 684,350 bales in the previous year; stock at the ports at latest dates, 502,230 bales against 482,893 bales same date 1871.

At the Live Stock Markets, Beeves have been in light supply and moderate demand at from 8½@17 cts.; the latterrates for extra heavy choice holiday stock. Veals at 6½@11½ cts.; Sheep at from 5½@9 cts.; Swine at 4¾@5 cts. per lb., all live weight. The week's receipts were 3,831 Beeves, 1,540 Veal Calves, 10,197 Sheep and Lambs, and 34,079 Swine.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

BANKING OFFICE OF FISK & HATCH,
NEW-YORK, Jan. 2, 1873.

The CHESAPEAKE AND OHIO, the CENTRAL and WESTERN PACIFIC BONDS, all of which have been negotiated by us, we believe to be among the best and most desirable Investment Securities in the market, which in time must become very scarce; especially as the Government will probably, during the coming year, pay off, in gold, another large lot of FIVE-TWENTIES, and issue in their place FIVE PER CENT. BONDS.

The CHESAPEAKE AND OHIO SIX PER CENT. GOLD BONDS, the total amount of which is only $15,000,000, are secured upon a property worth $35,000,000 to $40,000,000, and are fully equal in intrinsic value to the CENTRAL PACIFIC BONDS. They are issued in denominations of $100, $500, and $1,000, coupon or registered, and at their present market price, 86 and accrued interest, are very desirable.

The CENTRAL PACIFIC SIX PER CENT. GOLD BONDS are too well known to require description or commendation. Their total amount is $25,885,000; they have for a long time ranged in market price near or above par.

The WESTERN PACIFIC SIX PER CENT. GOLD BONDS amount to $2,735,000. This road is now consolidated with the CENTRAL PACIFIC, and the payment of its bonds, principal and interest, is assumed by the latter. Coupon Bonds $1,000 each. Their market price to-day is 89 to 89½. As they have recently been introduced on the Stock Exchange, we exexpect to see them rapidly rise to the price of CENTRAL PACIFICS, being substantially the same in character and value.

We buy and sell, as usual, Government Bonds, receive deposits, on which we allow interest, make collections, and conduct a general banking business in all its branches.

FISK & HATCH.

The Virginia Debt.

Governor Walker, of Virginia, is preparing his views on the public debt question, in response to a resolution of the Senate requesting him so to do. The auditor of public accounts is also making up a lot of valuable statistics affecting this subject. A Richmond letter to the Petersburg *Index* says:

"The two will afford the General Assemby all the information on the subject they wish, but I fear they have already made up their minds. They have, I believe, determined not to pay any interest, and that the coupons shall not be receivable for taxes, the decision of the Supreme Court to the contrary notwithstanding. One of the most prominent leaders of the anti-debt paying party has already perfected plans which will accomplish both of these ends."

Alabama and Chattanooga Railroad.

In the Superior Court of Dade county, at the term just concluded, the Court dismissed the bill of the State of Alabama against the A. and C. R. R., on the ground that the road had been sold in bankruptcy, and the State had become the purchaser.

In the case of the State on the relation of E. D. Graham *vs.* A. and C. R. R., *quo warranto*, having for its object the forfeiture of the charter of the A. and C. R. R. in Georgia, the Court dismissed the petition unless within thirty days the State of Georgia make itself a party plaintiff to the proceedings. The State had not done so at the adjournment of the Court.

A rule was made, in an agreed case, involving the liability of a constable for failure to make the money on the *fi. fa.* against the A. and C. R. R. In his answer to the rule the constable relied upon the fact that the A. and C. R. R. had become baukrupt, had been sold in bankruptcy, that a bill had been filed by the trustees of the first mortgage bonds, before Judge Bradley, at Mobile Ala., against all the creditors, and that Judge Bradley has issued injunctions against all of the creditors, and against all others, forbidding them in any manner to interfere with the possession, custody or control of said road, and placing the same in the hands of Receivers of Judge Bradley's Court, and that this injunction had been served upon him as constable.

Judge Harvey held that the return was sufficient.

This decision involves many complicated legal questions, upon the determination of which the future of the new A. and C. R. R. Company depends.

An appeal was taken to the Supreme Court of Georgia, and thence it will, we presume, be taken to the Supreme Court of the United States, where all the interests involved, including the legality of the bankruptcy proceedings, and of Justice Bradley's interlocutory decree, authorizing the issue of bonds, etc., can be finally determined.—*Chattanooga Times, Dec. 7th.*

Pullman's Cars for Vienna.

Mention has been made of the departure for Europe of Mr. George M. Pullman and family, where Mr. Pullman goes, at the solicitation of European railway officials, to complete arrangements for the exhibition of his cars during the Vienna Exposition. The Chicago *Tribune* says:

"The four Pullman cars which have been building at the Detroit shops for the Vienna Exposition have been completed, and will shortly be shipped for Europe. The process of constructing these cars has been very novel, and is worthy of note. They have been set up and finished as if they were to run on American roads, but the various parts have been manufactured in small pieces, and so put together that they can be taken apart, each piece packed in a box, and the whole car transported like ordinary merchandise. These cars will be shipped to Vienna in this manner, thus protecting the elegant work which has been put upon them from exposure during the voyage. When they arrive in Vienna they will be unpacked and put together like an ordinary road carriage. There are two dining and two sleeping cars, and the four will make a Pullman palace car train between Vienna and Paris during the exposition."

☞ The Wilmington (Del.) *Commercial* says that the track layers on the Delaware and Pennsylvania Railroad are now employed day and night in an endeavor to completed the unfinished portion of the road by the 1st of January. On that date the road passes into the control of the Pennsylvania Central, in accordance with a contract entered into between the contractor, Geo. Sellers, and this company. We presume that the road will be thrown open to travel its entire length soon after its completion.

Central (Ga.) Railroad.

By reference to the notice of the Cashier of the Central Railroad and Banking Company, it will be seen that at a meeting of the Board of Directors, held yesterday, action was taken in reference to the dividend of five dollars per share, declared on the 3d inst. The result can but prove highly satisfactory to the friends and stockholders of the road, and is a justification of the faith placed in this company, the model railroad company of the South. It has been determined to pay the dividends on and after the 20th January in cash, or if the stockholders prefer not to wait, they can receive their dividends in the joint mortgage bonds of the Central, Southwestern and Macon and Western Railroads, at ninety-five cents on the dollar, on and after the first proximo. The admirable management and immense resources of the Central are fully shown in this early action towards paying the dividend. We very much doubt if there is another single railroad in the South subjected to such great expenditure in improvements, &c., during the past year, as the Central, that would declare a dividend, much less pay it.—*Savannah News.*

☞ The semi-annual report of the Ohio State Commissioners shows the receipts for the period ending November 15, 1872, were $878,845, and disbursements $635,845. There was on deposit in New York at date of report $125,812 for the purchase and redemption of Ohio State stocks. During the past six months $192,203 of the funded debt has been redeemed, and the amount outstanding November 15 was $8,573,546.

☞ There remains now but a gap of thirty-five miles between the present eastern terminus of the International (Texas) Railroad at Troupe, below Tyler, and Long View on the Texas and Pacific Railroad. Work is progressing on this road rapidly, and when it is closed in a month or two, passengers can go through by rail from Shreveport to Galveston.

☞ The Providence and Worcester Railroad Company have commenced running trains upon the new Milford and Ashland Railroad, which connects the Milford and Woonsocket road with the Boston and Albany road at Ashland.

☞ The Tuscarawas Valley Railroad Company have commenced running trains from Canal Dover to Cleveland. The gap between the Pan Handle road and Canal Dover, is less than fifteen miles, and will be built within the coming year.

☞ The United New Jersey Railroad and Canal Co. will pay its regular quarterly dividend of 2½ per cent, on and after January 10th, at the office of the Pennsylvania Railroad Co., in Philadelphia, and 57 Broadway, New York.

☞ The Attleborough Branch Railroad Co. has declared a dividend of $3 50 per share, payable Jan. 1, at Attleborough, Mass.

☞ The Granite Railway Company has declared a dividend of $4 per share, payable Jan. 1, at 31 Pemberton Square, Boston.

☞ The Hanover Branch (Mass.) Railroad Company have declared a dividend of $3.00 per share, payable January 1.

☞ The Calumet and Hecla Mining Company will pay, January 15, an extra dividend of $5 per share. The regular quarterly payment of a like sum will be due February 15.

☞ The track-layers on the Missouri, Kansas and Texas Railroad reached Denison, Texas, on the 24th ult.

Journal of Railroad Law.

RAILROAD COMPANIES—LIABILITY FOR PROPERTY BURNT BY SPARKS FROM LOCOMOTIVE—SPECIAL RISKS INCIDENT TO PROXIMITY TO RAILROADS.

The case of The Michigan Central Railroad Company *vs.* Eli B. Anderson, (20 Mich., 244,) was an action on the case brought by Eli B. Anderson, in the Circuit Court for the County of Kalamazoo, against the Michigan Central Railroad Company, for the value of a building, and property therein stored and adjacent consumed by fire on the night of the 20th of April, A. D. 1866; Anderson claiming that the fire was communicated from the sparks and cinders flying from engines passing over the track of the railroad company and was the result of carelessness and negligence on the part of the agents of the company.

The following is the opinion of the court delivered by—

CAMPBELL, Ch. J.—Errors are assigned on rulings and charges of the court upon the trial.

A witness having testified and been allowed to leave the stand, several witnesses on the other side were called to show that he could not have been able to see certain things from a place where it was claimed he had said he was, at the time when he observed the circumstances which he narrated. An application was then made to allow him to take the stand to show that he had not stated what was assumed, and that he had been misunderstood, and to show what he had said or intended and supposed he said. This was not allowed.

There is certainly power in a court to allow a witness to be recalled at his own request or otherwise to explain his testimony and to correct alleged misapprehensions as to what he has said or meant, and it is often a very necessary power to prevent injustice. But we have not found any authority rendering it imperative on courts to permit it. The jury are expected to remember what has been sworn to and the correction will not supersede their conviction of the original statement unless they are satisfied it ought to do so. We cannot, therefore, hold that there has been any error in law on this question and we have no power to review the discretion of the Circuit Judge.

The action was brought against the railroad company for negligence in causing the Sorghum Factory of Anderson to be burnt by sparks from their engines passing along the railroad, which was separated by a highway and some intervening ground from the premises destroyed, which had upon them about the factory a considerable amount of dry and combustible stalks and similar material.

The court, under objection, charged the jury that regard must be had to the actual state of things at the time; the force and direction of the wind; the dryness of the weather; and the proximity of the building to the railroad; and that what might be ordinary care on a still and wet day might not be on a windy and dry one, and when near a combustible matter. The question still being what care a prudent man would exercise in precisely similar circumstances.

There had been full testimony in the case upon the character of the engines and stalks, and the use of proper means to render them as secure as possible from doing mischief by the discharge of sparks, and this charge was independent of any question as to the quality and character of these equipments, as suitable to be used.

We think the rule laid down was incorrect. Vehicles that can choose their track, and can deviate whenever and wherever it is desired, may properly be required to be used differently according to circumstances. But the necessity of running railroad cars with regularity and uniformity is not a matter of convenience merely. The business cannot be done at all, unless calculations are made upon the movements of trains. And the risks attendant upon a disturbance of that regularity are risks of human life, and not mere business delays. It would not only be vexatious, but in the highest degree dangerous to make the movements of cars vary with wind and weather. Those who establish themselves in the neighborhood of railroads must know that the trains are expected to run with regularity, and if there are special risks arising from no want of care in the proper equipment and management of engines and trains, those risks are not chargeable to the railroad, but are incident to the situation. And extra care which they demand must therefore devolve upon those whose interests require the increased vigilance; and the consequence of not exercising it must fall upon the owner, because the railroad is not in fault. We think the judgment must be reversed on this ground.

The other questions so far as they are material, depend upon very similar considerations, and what we have said will probably be sufficient to prevent any misapprehension upon any of them likely to arise in another trial. We do not think it necessary to consider them further.

Judgment reversed.

Cumberland Valley Railroad.

The earnings of this road for the year ending September 30, 1872, were as follows:

From passengers		$189,632 99
" freight		374,593 18
" mails		6,800 00
" express		6,839 97
" other sources		3,698 43
		$581,064 57
Expenses, viz:		
Conducting transportation	$82,116 97	
Motive power	92,361 27	
Maintenance of way	90,157 31	
Maintenance of cars	16,480 46	
General expenses	11,958 60	
		293,074 61
Net earnings		$287,989 96

		412,649 29
Cash and cash balances		$137,738 78

The company has 19 locomotives. Miles run with passenger trains, 129,117; with freight trains, 132,800; with other trains, 13,872—total miles run, 275,889. Number of passengers carried, 288,817. Tons of freight transported, 322,016. The president in his report says:

Nothing has occurred within the past year to disturb the successful progress of the business of our road, which continues to improve, and is destined to increase more rapidly in the next year, by reason of the construction of the several side roads, already completed. The Dillsburg and Mechanicsburg Railroad, leading to extensive iron mines in York County, has now been finished and will be operated in a short time. This road, in all its parts, has been substantially built, and is altogether a first-class road. It will be immediately delivered over to us, under an agreement by which it will be operated by our company, upon terms mutually satisfactory. We have loaned to this company a sum sufficient to pay for the superstructure, for which we hold its bonds and mortgage.

The second track of our road has been completed from Bridgeport to Mechanicsburg, and a further extension of 800 feet will reach the terminus of the Dillsburg Road, which will greatly facilitate our operations from that point.

The South Mountain Railroad Company from Carlisle to Pine Grove, increases its business, and is likely to increase it more, which correspondingly adds to that of our road.

The road built by the Mont Alto Railroad and Iron Company, about eleven miles long, from a point near Chambersburg, to the Mont Alto Iron Works, where there is said to be an extensive deposit of iron ore, and a furnace and forge already built, has just been completed and gone into operation, and will doubtless add much to the freight of our road. We loaned also to this company an amount equal to the cost of the superstructure, for which we hold the bonds and mortgage of the company.

The South Penna. Iron and Railroad Company has not yet been brought into successful working condition, in consequence of the pecuniary embarrassments which have overtaken it. This road which passes through twenty miles of the most fertile part of the Cumberland Valley, and five miles further to the most extensive mines of iron ore, is destined to contribute largely to the business of our road, when that company shall have emerged from its present difficulties, and its large landed estate, furnace and mines shall have come into the hands of another party, who shall have the means of conducting operations commensurate with its enormous resources. It is now going through the process of a sale, which must result in producing the desired result. This sale is being made by a trustee under a second mortgage, and subject to that which our company holds, and subject also, to the lease by which we now occupy the road; so that our interests are not at all involved in the sale of the road, and our trust is that it may fall into the hands of capitalists whose interests will be to make the estate profitable, and thereby benefit our road. We have been running this road for the past year at an expenditure of $23,154 71-100, whilst the receipts amounted only to $17,369 81-100, making an excess of expenditures $5,784 90-100. More than one-third of the money expended upon this road was for unfinished work of the contractors, so that in fact, the receipts were quite equal to the legitimate expenses.

It is very certain, that in addition to the ordinary and gradual increase of the business of our road, there will be added that which will be brought by the Dillsburg and Mechanicsburg Road, coming in at Mechanicsburg; the South Mountain Iron Company's Road coming in at Carlisle; the Mont Alto Iron and Railroad Company coming in near Chambersburg, and the South Pennsylvania Iron and Railroad Company coming in seven miles west of Chambersburg; and this, within the next year, will so increase the work to be done, as to render useful the extension of the second track from Mechanicsburg to Carlisle, and at no distant day, over the whole length of our road. The iron ore of Cumberland Valley is in quantity almost limitless. Our side roads will lead to its entire development. Its proximity to the coal regions, the smelting furnaces, and iron works of our State, making it so convenient, that we must be prepared to meet the demand which will now be made upon our road to carry it.

Our road, as at present located, passes through the main street of Carlisle, and when it shall become necessary to extend the second track to that place, it should be located around the town, either North or South; and there is no difficulty in putting it on either side. Anticipating the necessity for this at no distant day, the engineer has been directed to make a survey of the ground, and an estimate of its cost, that it may be submitted to the board of directors.

We have expended upon the extension of our road from Hagerstown to the Potomac, including the erection of the bridge across the river, $135,934. The road and bridge are now finished, but will be comparatively useless until the completion of the Martinsburg and Potomac Railroad to the Baltimore and Ohio Railroad at Martinsburg. This is in a state of forwardness, but has not been prosecuted with the degree of energy which its importance required. There is no reason why it might not be completed within a short time.

A lot, at Chambersburg, which lies in the junction of the road which diverges to Hagerstown, and adjoins the warehouse of the company, and which has been a subject of litigation and trouble for several years has been purchased by the company, and will afford us most convenient space.

The car shop and room in the yard at Chambersburg have become inadequate to our necessities at that point, and the purchase of this lot was with the view of supplying the want of more sidings for cars, and a more convenient shop for building, painting and finishing cars.

In anticipation of the increase of business, and as was suggested in our last annual report, there have been purchased two new freight engines, at a cost of $23,326 7-100, and our shop has been supplied with new tools at a cost of $1,091 48 100. One new passenger car and five gondola cars have been built during the year, at a cost of $6.784 19-00.

There can be no doubt of economy in the use of steel rails, it being but a question of first cost, and in accordance with that view, we have adopted the policy of introducing them into our road as fast as circumstances will allow, and in pursuance of this we have put in 204 tons this year, and desire to continue this from year to year as may be expedient.

The bridge over the river at Harrisburg requiring repairs, last year the chords of two spans were renewed and the viaduct bridges at either end—and this year the chords of eight spans have been renewed, and two more will be finished this season, and during this year we have expended in that work $23,396 93-100.

Our whole road is in excellent condition, and our rolling stock in good order, preparatory to the winter work.

STATEMENT, OCTOBER 1, 1872.

Cost of road	$1,725,142 63
Materials on hand	77,037 12
Trustees of the sinking fund	579,395 65

Secretary and Treasurer.—EDWARD M. BIDDLE.

Superintendent.—O. N. LULL.

Debt of Milwaukee.

Under the re-adjustment act of March 19, 1861, there are outstanding—

Re-adjustment bonds	$497,000
Re-adjustment scrip	2,357
	$499,327
Under the act of March 28, 1871—	
General city bonds	$150,000
Water bonds, the present issue	1,200,000
	$1,849,857
Amount depending upon the recent decision of the U. S. Court on the bonds issued to railroads, about	400,000
Making a total of	$2,249,857

☞ The formal opening of the Buffalo, New York and Philadelphia Railroad to its terminus at Emporium, Penn., a distance of 120 miles from Buffalo, took place on the 28th ult. Eighty-five miles of this road have been completed since May, 1872. Bronson C. Ramsey, Esq., is president of the company.

SECOND MORTGAGE
7 PER CENT. BONDS
SOUTH CAROLINA
RAILROAD COMPANY.

The South Carolina Railroad Company having created a Second Mortgage, amounting to

THREE MILLION DOLLARS,

for the purpose of retiring all its floating obligations and arranging its non-mortgage bonds, and the bonds authorized to be issued under said mortgage having been duly executed, they are now offered for sale at this office at

75 PER CENT.

Payment will be accepted as follows, viz:

Two-Thirds of the purchase money will be received in the 7 per cent. non-mortgage bonds of the Company at 75 per cent.; balance in cash.

The value of this security now offered entitles it to VERY HIGH CONSIDERATION. The mortgage covers the entire property of the Company, embracing 242 miles of first-class road abundantly equipped with locomotives and cars in fine condition, and all the appurtenances of a first-class Railroad - - - the first mortgage being only $3,000,000.

The business of the Road for the present year is estimated at about

$1,400,000

gross, and its net revenue at over $550,000. Its present prospects furnish ample ground for very satisfactory anticipations of future earnings.

The Bonds bear date October 1st, and have attached coupons for 7 per cent. per annum interest, payable in April and October, in the City of New York.

After the 31st December inst. the price of the bonds will be 75 per cent., and accrued interest.

J. T. WELSMAN,
CHARLESTON, S. C. Dec. 6. Treasurer.

The undersigned agent for the sale and exchange of the above Bonds, can be found at the Fourth National Bank, in this city.

JOHN C. COCHRAN.

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board, without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

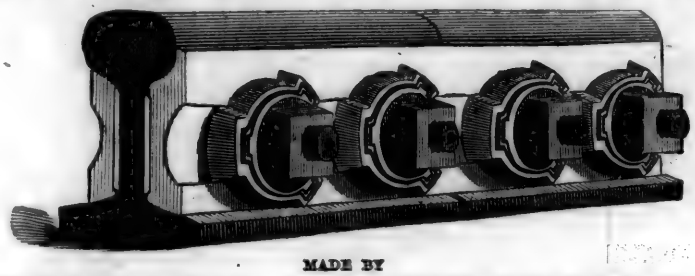
FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

New York, Saturday, January 11, 1873.

Union Pacific Railroad.

The Government directors of the Union Pacific Railroad, in their report just made, express the opinion that probably no equal number of consecutive miles of railroad in the United States can be found in a better condition. The still more important declaration is made that the directors do not doubt the capacity of the road to equal to all just demands upon it, including the Government lien; but to effect this with certainty several changes are deemed necessary, the principal of which is the removal of all executive supervision over the immediate workings of the line from the present distant points in the East to the line itself. The report fixes the date of the completion of the road at June 30, 1870, since which, by the terms of the charter, five per cent. of the net earnings of the road are now due the Government. The net earnings for two years, ending June 30, 1872, were $6,585,211, five per cent. of which would be $329,270. The company argue that to obtain the net earnings upon which the Government claim should be calculated, the entire interest account should be deducted, and the directors admit that there is some force in the argument so far as the interest on the first mortgage bonds is concerned. The interest on the bonds, counting gold at twelve per cent., has been $3,660,652, which, if deducted, will still leave $2,925,863, upon which the Government is entitled to five per cent., or $146,273. The directors do not see how the claim can properly be reduced below the latter sum. The report also states that the directors have made repeated but always ineffectual efforts to induce the company to break up the contract with the Wyoming Coal Company.

To Investors.

To those who wish to REINVEST JANUARY COUPONS OR DIVIDENDS, and those who wish to INCREASE THEIR INCOME from means already invested in other less profitable securities, we recommend the Seven-Thirty Gold Bonds of the Northern Pacific Railroad Company as well secured and unusually productive.

The bonds are always convertible at Ten per cent. premium (**1.10**) into the Company's Lands at Market Prices. The rate of interest (seven and three-tenths per cent. gold) is equal now to about 8¼ currency—yielding an income more than one-third greater than U. S. **5-20s**. Gold Checks for the semi-annual interest on the Registered Bonds are mailed to the Post-Office address of the owner. All marketable stocks and bonds are received in exchange for Northern Pacifics ON MOST FAVORABLE TERMS.

JAY COOKE & CO.

New York, Philadelphia and Washington,

Financial Agents N. P. R. R. Co.

☞ The Denver, Georgetown and Utah Railroad Company have raised all the money to build their road from Denver to Georgetown. Contracts for the grading and ties will be let on the 10th inst., and the road completed to Georgetown before next October.

St. Louis and her Railroads.

There are now twenty distinct railroads centering here, with trains starting every day from this city over 4,303 miles of road, and, connections over which through cars are run from this city, over not less than 21,000 miles. Of the twenty roads, several are combined in their management, and are, financially speaking, but branches one of the other; thus the St. Louis, Kansas City and Northern, has three distinct routes under one management, the Northern to Ottumwa, the Western to Kansas City, and the Central, now being pushed toward Omaha. So the Missouri Pacific and Atlantic and Pacific, though united in management, afford the commercial facilities of two distinct roads, as do the Vandalia and the Illinois Central, which runs through cars into the city over the same track, and the Chicago and Alton and its Jacksonville branch. Two of the roads have not yet complete a line into this city, but reach it as yet over other roads, though all of them run trains from the city direct, except the Quincy, Alton and St. Louis, which is only completed as far as Louisiana. The twenty roads centering here are managed by seventeen different corporations, though the Iron Mountain and Cairo and Fulton are substantially the same, and the Atlantic and Pacific and the Missouri Pacific are controlled by the same interest.

Several roads are projected, with more or less prospects of completion, such as the St. Louis and Cairo, the St. Louis and Keokuk, and the St. Louis and Fort Scott.

Five years ago, predicting that St. Louis would speedily become the great railroad city of the Continent, we seemed over-enthusiastic. To-day, St. Louis is the great railroad center of North America. By five distinct lines to New York the shortest 1,064 miles, three to St. Paul, of which the shortest is 559 miles, two to San Francisco, the shortest being 2,378 miles, two to Dennison 622 miles, and soon to be completed to Galveston, 922 miles; one to Little Rock, 343 miles, soon to be completed to Laredo; two to New Orleans, the shortest 692 miles, and two to Mobile, the shortest 638 miles, and one to Charleston, South Carolina, 915, with connections to all other southern ports, our merchant are enabled to communicate with all parts of the country, with advantaes for exchanging the products of all such as no other city possesses or can secure. We approach the year 1872 with prospects brighter than ever before. There is needed only that hearty public spirit, which grants without grudging all reasonable encouragement to these enterprises, to make St. Louis, within three years to come, as unrivaled in its railroad facilities, as it is by nature in position and lines of communication by water.—*St. Louis Dispatch.*

Wooden Railroads.

We learn that there are now over a hundred miles of wooden railroads in operation in the vicinity of Quebec. The gauge is four feet eight and a half inches. The running time is about sixteen miles an hour, but trains have been run at the rate of thirty-five miles per hour. The rails are made of maple, 4x7 inches, set up edgewise, and notched into cross-ties four inches deep, and held by two wedges down in the notch on the outside of the rails. The ties are eight inches thick, and laid twenty inches apart. The cars have four wheels, and some of the engines weigh thirty tons. In frosty weather the driving-wheels have less adhesion than on metal rails, but no considerable difficulty is experienced from this cause. The rails will last from two to four years, according to the quality of the timber and the amount of traffic. The cost of such roads is from four to seven thousand dollars per mile. They seem to be very well adapted for light traffic, and as soon as the business of such lines may require it metal rails may be substituted for wood without any change in the equipment.

Intercolonial Railway.

Mr. Potter, Chairman of the Grand Trunk Railway Company, last summer traversed the entire length of the Intercolonial. He gave in his speech at the Grand Trunk meeting, a general description of the country through which the Intercolonial runs, and spoke in the highest terms of the work done upon it. We extract the following passage from his speech:—

The Intercolonial hugs the southern shore of the Bay of Chalours for a distance of sixty miles through a thickly populated country, where the population is partly French, partly Scotch, and partly English. At Campbelltown, the last port at the head of the Bay of Chaleurs the Intercolonial enters the valley of Restigouche, a magnificent supalpine valley with scenery, I think, equal to anything that exists in Europe. It follows the valley of Restigouche until it reaches the Metapedia Valley. Passing through a wild magnificent region, it approaches the St. Lawrence at Little Metis. Now, I cannot doubt, gentlemen, that along the coast of the Bay of Chaleurs and through the valley of the Restigouche and the Metapedia, and along the shores of St. Lawrence, there will be a very large summer pleasure traffic. I doubt, myself, whether those regions are, likely to be inhabited by a large population so long as there are richer and more fertile lands in the West to be obtained, where the climate is more favorable to agriculture; and I think, like the Highlands of Scotland, the whole of that district from Bathurst along the Bay of Chaleurs and through the magnificent valleys of the Restigouche and of the Metapedia, that country will become the pleasure and recreation ground of the Western States of America to an extent which it is difficult for us at this moment to realize. The whole coast teems with fish. I do not believe the present population of that coast either consume or produce much except fish that will feed a railway. From Little Metis—where the river approaches the St. Lawrence—to our terminus at River du Loup, a distance of about a hundred miles, the district is very similar to the district occupied by us between Quebec and the River du Loup, thickly inhabitated by the narrow line of French Canadians who occupy, and have occupied that river for the last hundred years. The southern shores of the St. Lawrence, like the Bay of Chaleurs, are becoming, and will become much more than they are now, the resort of the people during during the sweltering heat of summer, of the great cities of the Mississippi Valley. A large number of small hotels and accommodation places are springing up. I have no doubt myself that in the summer season the traffic of the Intercolonial along the River du Loup and along the southern shore of the St. Lawrence to Bathurst, will be a fairly remunerative traffic. The problem of working such a railway in the winter remains yet to be solved. So much, gentlemen, for the Intercolonial. It has has been admirably constructed; the machinery and the works are of the most solid description. Imperfect engineering—which has characterized the Grand Trunk Railway—has been carefully avoided, and the line is in all respects equal to the very best line, I think, that has been constructed in this country; and inasmuch as cheap construction in those climes means dear maintenance and dear working, I have no doubt that the construction of the Intercolonial Railway, and the "steeling" of the whole line from the one end to the other, will conduce considerably to the economical working of the line in future years.

New York, New Haven and Hartford R. R.

The directors of the New York, New Haven and Hartford Railroad Company respectfully submit the following report of the business and condition of the company for the fiscal year, terminating September 30th, 1872:

Income:		
From transportation of passengers		$2,803,144 81
From transportation of freight		1,445,952 00
From transportation of mails and express		185,640 25
From other sources		48,816 82
		$4,483,553 88
Expenses:		
Repairs of road and renewals	$474,362 14	
Repairs of bridges	22,920 56	
Repairs of buildings	106,972 77	
Repairs of fences	6,011 58	
Repairs of engines	200,513 36	
Repairs of passenger and baggage cars	164,995 58	
Repairs of freight cars	97,525 74	
Repairs of tools and machinery	16,402 78	
Coal and wood for engines	244,590 47	
Oil	25,786 36	
Waste	8,358 12	
General expenses	107,624 41	
Wages and incidentals chargeable to passenger department	433,494 64	
Wages and incidentals chargeable to freight department	358,814 99	
Switchmen and Signalmen	73,725 40	
Damages and gratuities	82,722 22	
Insurance and telegraph expenses	10,461 62	
		2,385,282 74
Balance		$2,098,271 14
Deducting, taxes	$229,717 19	
Deducting interest	98,744 58	
		328,461 77
		$1,769,809 37

The receipts on the Shore Line Division for the year ending September 30th, 1872, have been—

From transportation of passengers	$294,550 75
From transportation of freight	71,816 79
From transportation of mails	7,566 96
From transportation of express, &c.,	13,412 47
Total income	$387,346 97
Expenses operating division	$313,018 20
Paid rent	100,000 00
	413,018 20
Deficit for year	$25,671 23

On the 3d day of August, 1870, the New York and New Haven Railroad Company, and the Hartford and New Haven Railroad Company, entered into a perpetual agreement by which all the railways and properties of both corporations, except all monies, claims and demands which should thereafter become due on account of subscriptions to the capital stock of either corporation, became a joint estate, and were brought under the control and management of a joint board of managers. Under this agreement, the net earnings of the two roads, after the payment of all expenses, liabilities and interest, were to be divided between the two corporations in the proportion of fifty-seven per cent. to the former company and forty-three per cent. to the latter company. It was also provided in said agreement that as soon as the necessary legislative authority could be obtained, the two corporations should be merged and consolidated into one company, and that all apportionments of capital stock under such consolidation should be made on the basis of fifty-seven per cent. to the New York and New Haven Railroad Company and forty-three per cent. to the Hartford and New Haven Railroad Company.

On the 6th day of August, 1872, under and pursuant to Acts of the Legislatures of the States of Connecticut and Massachusetts, authorizing the same to be done, the Hartford and New Haven Railroad Company was merged into and consolidated with the New York and New Haven Railroad Campany, and the name of the latter company changed to that of the New York, New Haven and Hartford Railroad Company.

By the Acts of the Legislatures of Connecticut and Massachusetts, the capital stock of the consolidated corporation was limited to the aggregate of the capital stocks of the two corporations. This amounted to $15,500,000; the capital stock of the New York and New Haven Railroad Company being $9,000,000, and that of the Hartford and New Haven Railroad $6,500,000. It was necessary, under the partnership agreement of August 3d, 1870, that in consolidating the two corporations the $15,500,000, of the capital stock of the consolidated company should be divided between the two companies in the proportion of fifty-seven and forty-three as above stated. It will be seen that under this division, the stockholders of the New York and New Haven Railroad Company would have received less and the stockholders of the Hartford and New Haven Railroad Company more than one share of the new stock for each share of their own stock. To obviate this difficulty it was arranged that the stockholders of each of the two companies should receive one share of the stock of the consolidated company for each share of stock held by them, and that any further interest in the consolidated stock which the stockholders of the Hartford and New Haven Railroad Company were entitled to, should be paid for in cash by the consolidated company. The Hartford and New Haven Railroad Company also owned two thousand shares of their own capital stock which was not embraced in the property conveyed under the partnership agreement of August 3d, 1870, but which properly belonged to the stockholders of said company. This stock was purchased by the consolidated company at its then market value. The sum paid for this stock, and the sum paid the Hartford and New Haven Railroad for the purpose of equalizing the values of the properties of the two companies and adjusting the division of the capital of the consolidated company amounted, in the aggregate, to $650,790, or $10 33-100 on each share of the capital stock of the Hartford and New Haven Railroad Company. The two thousand shares of the capital stock of the Hartford and New Haven Railroad Company have been converted into the stock of the consolidated company and are now held by the latter as an asset.

Although the capital stocks of the two companies were not consolidated until the 6th day of August last, yet as both railroads were, prior to that time, operated under the partnership agreement of August 3d, 1870, the accounts of receipts and expenses of the fiscal year ending September 30th, 1872, are given the same as through the consolidation has existed during the entire year. The balance sheet accompanying this report gives the financial condition of the company on the 1st

of October, 1872, after the payment to the stockholders of the Hartford and New Haven Railroad Company of the sum of $10 33-100 on each share of their stock for the purpose of equalization, &c., as hereinbefore indicated.

The New York, New Haven and Hartford Railroad Company now own a double-track Railroad extending from the junction of the Harlem Railroad, near Williams' Bridge, to the City of Springfield, a distance of about one hundred and twenty-four miles, with a branch to Middletown of ten miles, a branch to New Britain of two and a half miles, a branch to Suffield of three and a half miles, and a branch to the freight grounds on the Connecticut River at Hartford of three-quarters of a mile.

About eight-tenths of the entire main line between the Harlem Railroad and the city of Springfield is now laid with steel rails. The balance of the main line will probably be laid with steel during the season of 1873. Contracts for steel rails sufficient for that purpose were made before the late advances in the price.

The company has also a perpetual lease of the Shore Line Railroad, extending from New Haven to New London, a distance of fifty miles, at an annual rent of $100,000.

The running equipment of the New York, New Haven and Hartford Railroad company consists of 84 locomotives, 129 passenger, 1,010 freight, 41 baggage, and 251 gravel and other cars.

During the year ending October 1st, 1872, the number of miles of trains run and the number of passengers and tons of freight carried (not including the Shore Line Division) were as follows: Miles run by passenger trains, 983,147; miles run by freight trains, 481,763; miles run by other trains 235,981—total, 1,700,891. No. of passengers carried, 3,925,765; No. of passengers carried one mile, 124,919,238; No. of tons of freight carried, 892,579; No. of tons of freight carried one mile, 38,662,529.

Since the 1st of October this company has perfected its arrangements with the New York and Harlem Railroad Company for the use in common with that company and the New York Central and Hudson River Railroad Company of the new passenger depot and grounds at and near Forty-second street, in the City of New York, and are now running their passenger trains to and from that point. The haulage of our passenger cars by horse power is now avoided, and with the facilities of quick transit by steam between the new depot and City Hall Park, which we have every reason to believe will be secured within the next two years, it is safe to assume that the passenger business of the road will be very materially increased. The entire road, including the Shore Line, has been operated during the past year without loss of life or limb to any passenger while on the trains. The road, cars and engines are in excellent condition, and the company is provided with shops, ground and machinery ample to keep them in good repair, and if necessary to construct new cars and engines.

Considerable outlay, however, will be necessary to provide more convenient accommodation for the passenger business at New, Haven, Mamaroneck, New Rochelle, Mount Vernon and other points, and for the freighting business in the city of New York. These improvements will be carried on with all reasonable dispatch.

CONDENSED BALANCE SHEET, OCTOBER 1, 1872.

Cost of railroad		$12,161,233 00
Equipment: engines and cars		1,840,972 00
Real estate		700,240 97
New York, New Haven and Hartford Railroad Stock held by Co. (2,000 shares)		200,000 00
Materials and supplies on hand		622,859 35
Materials and supplies Shore Line Division		142,452 67
Due from agents and connecting roads		201,914 10
*Cash on hand, cash assets, loans, &c		3,026,761 80
		$18,896,433 89
Capital Stock: 155,000 shares	$15,500,000 00	
Bonds, past due	$2,000	
" due 1873	580,000	
" " 1875	1,059,500	
	1,641,500 00	
Coupon interest & dividends unpaid	73,339 47	
Accounts payable: pay roll and balances due connecting roads	278,221 21	
Credit balance, Shore Line Division	25,780 40	
Profit and loss	1,377,592 31	
		$18,896,433 89

* This includes cash installments of $3,000,000 paid in by the stockholders of the New York and New Haven Railroad Co. and Hartford and New Haven Railroad Co. on the 1st of July last, and which, on consolidation, became the property of the consolidated company.

The officers of the corporation are as follows:

President.—WM. D. BISHOP.

Vice President.—WM. P. BURRALL.

Directors.—Wm. D. Bishop, Bridgeport, Conn.; Wm. P. Burrall, Hartford, Conn.; Wilson G. Hunt, C. Vanderbilt, Geo. B. Carhart, New York; Chester W. Chapin, Springfield, Mass.; Horace F. Clark, A. R. Van Nest, New York; Henry C. Robinson, Hartford; E. H. Trowbridge, E. C. Read, New Haven, Conn; Nathaniel Wheeler, Bridgeport; C. M. Pond, Hartford.

Treasurer.—JOHN T. SHELTON.

Secretary.—EDWARD I. SANFORD.

Gen'l, Sup't.—EDWARD M. REED.

Water as Fuel.

The San Francisco *Alta* says that a large number of citizens recently visited, by invitation, the brass foundry on Fremont street for the purpose of witnessing some experiments with a new fuel recently invented. They were shown into that portion of the establishment occupied by the furnaces, and in one corner found a brick furnace some eight feet long and six feet high. On the top of this was an iron tank holding about ten gallons, which was filled with crude petroleum. From this tank a pipe about an inch and a-half in diameter led into the side of the furnace. A small jet of oil, not larger than a small goose quill, was permitted to flow out of this tube; a light is placed beneath this jet, and it immediately ignites. Another pipe, about an inch in diameter, leads from a steam boiler stationed some fifteen feet away. This pipe leads a small jet of steam upon the burning oil, and the moment the steam strikes the oil the oxygen in the water is set free and ignites with a tremendous roar, generating in a very few moments a most intense white heat.

From this small source the entire chamber of the furnace, which is some two feet by five feet, is filled with a flame so brilliant and dazzling that one cannot gaze on it for more than a moment at a time. This flame possesses all the heat of an oxyhydrogen flame, and beneath its fierce power the hardest metals melt in a few moments. The inventor of the apparatus by which the elements of heat, which nature so generously provides, can be utilized is a very modest man, saying that he did not want to bring his discovery before the public until he had fully demonstrated that it would do all he claimed for it. He says that the cost of furnaces will be only a nominal sum; that they will be within the reach of every one who owns a quartz ledge, while the amount of oil consumed in twenty-four hours will not exceed ten gallons at a cost of $2.

The doctor has every confidence in his discovery, and declares his ability to furnish fuel for a voyage of one of the Panama steamers to and from Panama for the insignificant sum of two hundred dollars, while the entire quantity will weigh not to exceed twenty-five tons. He further says that at an expense of five dollars per day, he can run furnaces that will smelt one ton of ore every thirty minutes. If only one-half of what is claimed can be accomplished, the discovery will prove of incalculable advantage to the mining interests of the Pacific Coast, and will create a revolution in steam travel throughout the world.

A SUPERIOR PRINTING

Telegraph Instrument,

FOR PRIVATE AND SHORT LINES.

The undersigned is now prepared to supply the improved and superior

PRINTING TELEGRAPH INSTRUMENTS

manufactured under the patent of Mr. J. E. SELDEN. This instrument has already been extensively introduced, and has given complete satisfaction to all who have adopted and used it. It is SIMPLE, RELIABLE, and not liable to get out of order; can be operated by any person of ordinary intelligence after a few minutes' instruction and practice.

PRIVATE LINES.

constructed in the best and most substantial manner, and on reasonable terms.

Favorable arrangements will be made with line constructors, telegraph employes, &c., for the introduction of the Printer.

For further particulars, terms, &c., apply to

Merchants' M'f'g and Construction Co.,

Telegraph Contractors,

No. 50 BROAD STREET, (Rooms 12, 13, 14.)

P. O. BOX 6365, NEW YORK

The following parties have this instrument in use, viz:

Charlottsville Woolen Mills, Charlottsville, Virginia.

The **First Premium** (A Silver Medal) was awarded this instrument at the Cincinnati Industrial Exposition for 1872, as being the **"Best Telegraphic Instrument for private use."**

Cairo and Fulton Railroad.

A correspondent of the St. Louis *Times*, writing from Blomfield, Mo., thus speaks of the Cairo and Fulton Railroad:

The Arkansas branch of the Cairo and Fulton Railroad is completed beyond Poplar Bluff, the county seat of Butler Co., a distance of probably fifty miles, and is being pushed forward rapidly to White river, thence to the Arkansas. Working parties from Little Rock are engaged in the work of construction, and have made a like progress to the latter from the southern end. The trunk line starting from Greenfield Landing, opposite Cairo, is now built to Charleston, the county seat of Mississippi county, a thriving city of probably 1,200 inhabitants, making a junction at Poplar Bluff with the Arkansas branch of the Iron Mountain and St. Louis division.

☞ The completion of the Sabula, Ackley and Dakota Division of the Milwaukee and St. Paul Railway to Marion, Iowa, was celebrated on the 19th ult.

Imports of Dry Goods.

The imports of foreign dry goods at New York for the month of December, were:

ENTERED FOR CONSUMPTION.

	1871.	1872.
Manufactures of wool.....	$798,218	$882,584

August	4,949,858	10,679,771
September.....	3,444,374	6,061,532
October.....	1,854,735	3,063,010
November	1,904,108	2,420,515
December.....	1,063,637	1,377,659
Total, ...	$31,057,058	$44,951,887

The total imports of foreign dry goods at New York from 1849, compare as follows:

Year.	Invoiced value.	Year.	Invoiced value.
1849.....	$44,435,571	1861.....	$43,636,689
1850.....	60,106,375	1862.....	56,121,227
1851.....	62,846,781	1863.....	67,274,547
1852.....	61,654,144	1864.....	71,589,752
1853.....	98,704,211	1865.....	91,965,138
1854.....	80,842,936	1866.....	126,222,855
1855.....	64,974,062	1867.....	86,263,643
1856.....	93,362,893	1868.....	80,905,884
1857.....	90,534,129	1869.....	94,726,417
1858.....	60,154,509	1870.....	109,498,523
1859.....	113,152,624	1871.....	132,480,777
1860.....	103,927,100	1872.....	136,831,612

All the above figures represent only the foreign gold cost of these goods, freight and duty not included.

Fourth Avenue Improvements.

The residents of Harlem and Westchester county, who live far enough from the city to have none of its advantages and all the country's inconvenience, will doubtless be glad to learn that the Fourth Avenue Improvement is being rapidly pushed forward, and, if the contractors fulfill their proposals, rapid transit will be a living reality in about three years. The tracks have been removed (from 116th street to Harlem River) to the east side of the avenue, so that the work of excavating the bed for the new road would not interfere with the running of the trains.

The contract of changing the level of the road from Seventy-ninth street to Harlem, has been awarded to Messrs. Dillon, Clyde & Co., the builders of the Union Pacific road, and Messrs. Fairchild & Ward are at present arching the road on Forty-fifth, Forty-sixth, Forty-seventh, Forty-eighth and Forty-ninth streets. On these streets the present level is to remain unaltered and the streets are to be thrown over it by means of bridges. The approaches to these bridges are of solid masonry, and the bridges are to be of iron. Mr. Tracy, one of the engineers, estimates that the work will be finished in about two months. Owing to the severe frost but little has been done. At the upper end of the road excavations have been begun at 120th street and 128th street, but the ground has been so hard as to render digging next to impossible, and the rain and thaw of last Friday has made small mud ponds of the excavations that had been made.

In Yorkville the work has been rapidly progressing for the past month. Shafts have been sunk at Ninety-first and Ninety-third streets and two small tunnels are being constructed on either side of the old one. The drilling is done by steam drills and the contractors hope to have completed the tunnels in about eight months.

As none of the proposals which were submitted for the improvements of the avenue between Forty-ninth and Seventy-ninth streets were satisfactory to the Board of Engineers they have readvertised the work, and proposals for the same will be opened at their office, Grand Central depot, on Monday, January 13, at half-past one P. M.

Statement of the Public Debt of the United States January 1, 1873.

Interest paid by United States, $16,570,575 54; interest repaid by transportation of mails, &c., $4,006,002 35; balance of interest paid by United States, $12,564,573 19.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, Dec. 31, 1872.

GEO. S. BOUTWELL,
Secretary of the Treasury.

Portland and Ogdensburg Railroad.

The Portland correspondent of the Boston *Journal* sends to that paper the following information in reference to the progress of this important enterprise:

The Portland and Ogdensburg road, in spite of all obstacles, has made excellent progress, and now runs to North Conway, sixty miles from this city. This road has obtained a line through the Notch quite as favorable as its projectors ever expected. The road from North Conway to Upper Bartlett, 12 miles, (about half way from North Conway to the Notch,) is being graded. The work on the next section to the old Mt. Crawford House, six miles, will soon be under way, 12 miles of which has been sub-let to Mr. C. C. Courtney of this city, who was associated with Messrs. Wilson, Tennant & Co., contractors, as cashier on the line from this city. These 18 miles will probably be completed and ready for business next summer. The section from Mt. Crawford House to the Crawford House, beyond the Notch nine miles, has been located. The heavy work at the gate of the Notch has been sub-let to Mr. H. J. Beeman of New York. Some work will be done on this section, but not much, till spring opens. The section from the Crawford House (beyond the Notch,) to the Twin Mountain House, nine miles, has been located, and work thereon will be commenced early in the spring. The rest of the line to the Connecticut river will be located next spring, although some preliminary work on it will be done before then.

The grade through the gate of the Notch is only 52 feet to the mile, and seven out of the nine miles in that section having a uniform grade of 116 feet, while the maximum grade upon the remaining two miles is but 93 feet, and those southeasterly between this side of the Notch and Upper Bartlett. The average grade of eleven miles on the Baltimore and Ohio road is about the same as the seven above alluded to, and the success of that road and its grades is an established fact. The average grade of the nine miles from the Crawford House to the Twin Mountain House is but 80 feet to the mile.

Chief Engineer J. F. Anderson has charge of the whole work. The Engineer of the North Conway to the Notch division is Mr. Thomas E. Beverly; Assistants Major S. C. Farrington, George E. Raymond and others. Crawford House to Twin Mountain House, Mr. S. L. Stephenson; Assistants, E. M. Le Prohon and Charles Harlow.

Commerce of New York.

The foreign imports at New York for the month of November, 1871 and 1872, are officially stated as follows:

	1871.	1872.
Entered for consumpt'n.	$13,123,708	$10,395,475
Do. for warehousing	9,371,091	7,679,647
Free goods	1,609,142	5,574,918
Specie and bullion	33,779	155,482
Total entered at port	$24,137,720	$23,805,522
Withdrawn fr. wareh'use	9,005,491	8,374,885

The foreign imports at New York for the eleven months from January 1, were:

	1871.	1872.
Entered for consumpt'n.	$195,643,997	$185,030,376
Do. for warehousing	131,039,797	164,115,364
Free goods	26,493,931	50,441,530
Specie and bullion	6,226,407	5,420,911
Total entered at port	$359,404,132	$405,008,181
Withdrawn fr. wareh'se	118,492,610	147,937,704

The duties received at New York for the eleven months from January 1, were:

	1871.	1872.
Six months	$73,692,107 93	$73,822,709 76
In July	11,934,957 33	7,251,160 85
In August	16,932,839 65	19,335,156 81
In September	15,733,891 86	13,274,126 81
In October	12,066,671 28	10,655,890 80
In November	9,365,044 55	7,274,100 46
Eleven months	$139,725,512 60	$131,612,644 99

The exports from New York to foreign ports in the month of November, were:

	1871.	1872.
Domestic produce	$18,603,795	$22,462,482
Foreign free goods	64,464	180,202
Do. dutiable	564,328	982,532
Specie and bullion	2,124,539	4,863,953
Total exports	$21,357,126	$28,489,169
Do. exclusive of specie	19,232,587	23,625,216

The exports from New York to foreign ports for eleven months from January 1, were:

	1871.	1872.
Domestic produce	$206,774,248	$204,939,336
Foreign free goods	1,076,418	1,436,205
Do. dutiable	7,048,587	9,042,436
Specie and bullion	61,831,354	67,975,466
Total exports	$276,725,607	$283,393,443
Do. exclusive of specie	214,894,253	215,417,977

☞ The Harlem Extension Railroad, rolling stock, real estate and buildings, running from Chatham Four Corners to Bennington, Vt., will be sold on the 25th of January, in the village of Greenbush, to the highest bidder, in default of the payment of interest on $2,000,000 bonds, amounting to $500,000.

THE INDIANA
AND
ILLINOIS CENTRAL
RAILWAY COMPANY'S
First Mortgage 7 per cent.
GOLD BONDS.

AN EAST AND WEST AIR LINE OF 152 MILES FROM INDIANAPOLIS, INDIANA, TO DECATUR, ILLINOIS, two of the largest railway centres in the West.

The WESTERN DIVISION (85 miles) of this important line, opening, for the first time, direct Western communication with the

BLOCK COAL FIELDS

of Indiana, will be completed and ready for business with an ample first-class freight and passenger equipment by FEBRUARY, 1873.

It traverses a populous and a highly cultivated district now without railway connections, and it is assured a profitable business from the start, in coal and farm products.

A large part of the cost of construction has been, and will in the end be, paid in cash by the stockholders and people on the line.

Bonds $1,000 each, payable in 30 years, principal and interest in GOLD, FREE OF GOVERNMENT TAX.

Sinking Fund 2¼ per cent. of gross earnings.

Whole issue $3,500,000, of which those now selling are on COMPLETED ROAD.

For sale at 90 and accrued interest, by the Financial Agents of the Company (of whom pamphlets and information may be obtained).

Walker, Andrews & CO.,
No. 14 WALL ST., NEW YORK.

Debts of Massachusetts Cities.

The Boston Daily Advertiser has compiled from the addresses of the Mayors the following statement of the debts of fourteen Massachusetts cites at the close of the past and preceding years:

	Debt, 1871.	Debt, 1872.
Boston	$29,388,390 72	$33,739,459 03

Taunton	333,650 00	361,879 16
Worcester	2,456,788 72	2,687,910 55
Total, 14 cities	$41,797,386 15	$48,656,159 56

☞ At a meeting of the directors of the Suncook Valley Extension Railroad corporation recently held at Manchester, N. H., Samuel Ball of Manchester was chosen president. Arrangements were made for a survey of the proposed road from Pittsfield to Alton. It is determined by the managers of the corporation to begin the building of the road early in the spring and to push the enterprise to a speedy completion.

☞ A company has been organized in Dutchess Co., N. Y., to construct a three-feet gauge railway from the iron mines to tide-water at Low Point, three miles above Fishkill Landing.

RAILROAD EARNINGS—MONTHLY.

	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 11, 1873.

Stock Exchange and Money Market.

Money worked easier for the borrowing interest most of the week, and the governing call loan rate to leading street firms was 7 per cent. per annum, on an increased offering of funds seeking temporary and profitable employment. The banks augmented their reserves, and were more liberal of accommodation. The speculative inquiry for aid was, though quite active, somewhat less urgent. Mercantile credits also were in more ready currency within the range of from 9@12 per cent. per annum for the best grades of business paper. Toward the close, however, there was some renewal of the stringency, especially in speculative circles, and a fractional commission was exacted in addition to the legal rate, from needy borrowers, on Stock collaterals, the market winding up quite briskly.

The clearances of the banks averaged through the week 128½ millions a day, and amounted in the aggregate, for the whole week, to $642,834,842 as against $608 815,757 the preceding week. The U. S. Sub-Treasury at this point slightly reduced its currency balance, and enlarged its coin reserve as the result of the week's business.

The U. S. Sub-Treasury office last week received $4,806,950 of currency, and $4,887,512 of gold, the latter including $1,742 000 from customs; and disbursed $4,474,748 of currency and $4,723,265 of gold, the latter embracing $1,723,576 of coin interest, after Jan. 1. The receipts of the office in December were $42,413,859, including $6,951,775 from customs; payments, $41,225,682 including $8,930,815 of coin and $1,125,320 of currency on interest account.

The city banks, in their latest return, show a gain of $45,800 of legal tender notes with an increase of $2,236,300 of specie and of $5,278,500 in their deposits, with an addition of $3,148,500 to their loan and discount averages, and of $40,800 to their item of circulation. The city bank exchanges, last week, averaged 128½ millions. The banks now hold $2,788,025 of specie and legal tender notes more than the 25 per cent. of their liabilities required by the National Banking Act.

The specie reserve of the city banks according to the latest return is $19,478,100, against $28,820,600 same time last year. The city bank deposits are now $203,808,100 against $205,828,200, week ending Jan. 6, 1873. The legal tender reserve amounts to $41,165 400, against $40 058 500 same time last year. The circulation now stands at $27,613,800 against $28,492 200 same time last year. The loans are now $277,720 900 against $272,704,400 at this date last year.

The coin reserve of the city banks is now about 19½ millions as against about 25¾ millions on the 20th of July; the legal tender reserve is about 41½ millions against about 55½ millions on the statement of June 15th; and the deposits are now about 203⅞ millions, against 247¼ millions on the 20th of July.

Under the official programme of the Treasury Department for January, 1873, Government proposes to sell Gold, as follows: Thursday, January 16—One Million. Thursday, January 23—One Million. Thursday, January, 30—One Million. And to buy U. S. Five Twenties, as follows: Wednesday, January 15—One Million. Wednesday, January 22—One Million. Wednesday 29—One Million.

Government revenues yielded quite moderately, through the past week. The excises yielded within the week about two millions and thus far in the current fiscal year beginning with July 1, 1872, $62,686,520. The customs at the port of New York, for the week, were $1,241 826, and at the outports, about $425,000, more, in coin or coin certificates.

The Gold movement has been somewhat brisker, in the speculative line, but at less firm rates. The customs call has been limited, and the export drain quite moderate. The range of the price during the week has been from 111½@112¼, and the closing quotation on Wednesday was 112⅛ against 111⅞ of the preceding week. The specie outflow last week, was $831,920. The Gold Exchange Bank clearances have averaged about 42 millions per day during the week.

Owing in the main to the decrease of internal revenue receipts, the Treasury Department at Washington, reports an increase of $1,684,308 in the Public Debt in December.

The Secretary of the Treasury has called in three per cent. certificates dated from November 22, 1868, to January 25, 1869, $5,000 each, numbered from 5,404 to 5,545 inclusive, and $10,000 each from 4,823 to 5,206. Interest will cease February 28, 1873.

The customs demand for Gold last week, averaged $348,400 a day. The arrivals of specie from Europe, Havana and other foreign ports since Jan. 1, 1872, were $5,488,647 against $8,582,209 same time in 1871. The total customs revenue of the Government, in coin, at this port, since July 1 has been $69,292,869 against $79,692,221 during the same time in 1871-2. For the year 1872, the customs revenue of the port was $143,817,045, against $153,814,406 in 1871.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1872, $46,881,513, against $49,572,632 during the same time in 1871-2. For the year 1872, the coin interest disbursements here were $81,265,672, against $88,408,515 in 1871.

The export drain of specie was $813,919 last week, against $3,240 same week preceding year. The shipments since July 1, 1872, have been $35,626,029 against $22,660,523 during the same portion of 1871.

Foreign Exchange has been quoted firmer, though not active. Bankers' sixty day bills on London closed 109⅜@109½; sight bills on London, at 110⅜@110½. The weeks exports of Domestic Produce have been to the currency value of $3,513,906.

Government securities have been in more general request, chiefly on investment account, at much firmer prices. The offerings of most issues have been quite limited. The Six per cents of 1881, new Five Twenties, and new Fives are now quoted ex the January coupons.

U. S. sixes of 1881 closed on Wednesday of this week at 116@116¼ U. S. Five-Twenties of 1862, 113¼@113½; U. S. Five-Twenties of 1864 at 113⅝@113⅞; U. S. Five-Twenties of 1865, 114¾@115; U. S. Five-Twenties of 1865 consolidated, 113⅞@114; U. S. Five-Twenties of 1867, 114⅞@115; U. S. Five-Twenties of 1868, 114¾@115; U. S. Ten-forties at 110⅝@110⅞; U. S. Fives of 1881 (Funding Loan) 112¼@112½; Six per cent. currency Sixes from 113@113¾.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 24.	Dec. 31.	Jan. 8.
Consols	92	91⅞	92⅜
U. S. 5-20s, 1865	92½	92½	98¼
" 1867	92	92¼	93¼
" 10-40s	88¾	89	89¾
New Fives of 1881	89⅝	89⅞	90⅛
Erie	49¾	50⅜	50⅝

State bonds have been in moderate request at about steady rates.

Railroad bonds of the more substantial class have been in fair investment demand at firm prices. Central Pacific Sixes closed firmly at from 99½@99⅝, ex the January three per cent. (coin) coupon.

Railway and Miscellaneous share property has been less confidently and generally much less firm as to values, on more urgent offerings, in good part on speculative account, and, said to have been, with a view to the depression of prices.

General business has been on a quite moderate scale, in most lines. Flour, Wheat, Corn, Oats, Pork, Bacon, Lard and Cotton have been the most confidently sought after of all articles in the produce line. There has been increased activity in Ingot Copper and Tin Plates at buoyant prices, but other metals have been quiet. Middling upland cotton, left off on Wednesday at 20⅝ cts. per lb. The receipts at all the ports, since Sept. 1, have been 1,794,937 bales, against 1,588,861 bales same time in the preceding year; exports 909,105 bales against 728,511 bales in the previous year; stock at the ports at latest dates, 509,342 bales against 515,656 bales same date 1871.

Foreign Merchandise has been generally dull, within the previous range, as to prices, as a rule. The week's imports amounted to $6,286,904, including $1,499,643 of dry goods.

Ocean freights have been more active, but at reduced rates, on an increased supply of room, especially sail.

At the Live Stock Markets, Beeves have been in fair demand at from 6½@18½; cts. Veals in moderate request at 6½@11 cts.; Sheep at from 4½@8 cts.; Swine at 4¾@5 cts. per lb., all live weight. The week's receipts were 6,888 Beeves, 610 Veal Calves, 25,533 Sheep and Lambs, and 31,667 Swine. The aggregate receipts in 1872 were 425,275 Beeves, 5,089 Cows, 115,130 Calves, 1,179,518 Sheeps and 1,922,727 Swine.

International Railroad.

This road is now in operation from Herne to Longview, a distance of 175 miles. Longview is at the intersection of the Southern Pacific, running west from Shreveport. It is also to reach Texarcana, on the Arkansas line, by the first of June next (a distance of 250 miles from Hearne), at which point it will be met by the Cairo and Fulton. There will then remain to be completed the stretch of 200 miles between Austin and Laredo, Mexico, on the southwest. The International has been consolidated with the Houston and Great Northern, now nearly if not quite completed to Palestine, Texas, thence to be built from Troup to Tyler, and so on to meet the Missouri, Kansas and Texas road on the Red river. The Galveston *News* says that by the middle of January one can, by the Central and International roads, take the cars from Galveston, or from Houston, and proceed direct to Shreveport by steam.

☞ The track-layers on the line of the Cleveland, Mt. Vernon and Columbus road have reached Canterbury, a point about fourteen miles west of Mt. Vernon and thirty miles from Columbus. The road will be open for through business early in the spring.

Muskingum Valley Railroad.

The *Ohio State Journal* says that a meeting of the stockholders of the Cincinnati and Muskingum Valley Railroad Company is to be held in Zanesville on the 9th inst., to determine the question of leasing their road to the Pittsburg, Cincinnati and St. Louis Railroad Company, and then adds:

It is well known that the Little Miami has for some time been in the control of the Pittsburg, Cincinnati and St. Louis Railroad Company, and the lease of the Cincinnati and Muskingum Valley, will give them an almost independent road from Lexington, in Perry county—the heart of the coal field—into Cincinnati—the line from Morrow to the city, for the most part being a double track. The managers of the Pittsburg, Cincinnati and St. Louis Company have shown commendable foresight in this matter, and while manufacturers and capitalists are wrangling over routes and projecting surveys, this company is quietly preparing to supply the wants of Porkopolis, without asking subscriptions to the capital stock.

☞ It is stated that the whole survey of the Southern Maryland railroad, from Brandywine to St. Mary's river, is completed or within a few days of completion, and that active operations will now be commenced to finish the grading and other work that yet remains to be done. The friends of this road express the fullest confidence that a large portion of it will be in "running order and running" before the coming summer months and that all of it will be graded, if not finished, at an early day thereafter.

☞ At the annual meeting of the South Boston Railroad Company, held on the 31st ult., the old board of directors were re elected, namely, Messrs. Seth Adams, E. H. Baker, D. A. Bradford, J. C. Gibson, Wm. Parsons, S. E. Westcott, J. Adams. The Secretary's report shows that for the year ending September 30, 1872, there remained a surplus of $17,051 84; the earnings have been $313,623 98; payments, $249,871 49; dividends, $43,576 92; leaving on hand $18,175 57.

☞ The Baltimore Bridge Co. since its organization, has built over 100 bridges and viaducts, measuring in length over nine miles, and containing 13,000 tons of iron and steel, in addition to millions of cubic feet of timber and masonry; among which is one draw-span 366 feet long, and one viaduct in South America the highest in the world.

☞ The Levant *Herald* says that the construction of the Roumelian railways continues to make gradual but steady progress towards Adrianople. The line from Stamboul, already completed as far as Tchorlou, is being pushed on actively to Kouleli and Bourgas.

☞ The Augusta (Ark.) *Bulletin* says that within sixty days trains will run from Little Rock to St. Louis over the Cairo and Fulton and Iron Mountain railroads. Within six months trains will run from Little Rock to Louisville over the Cairo and Fulton road, via Cairo.

☞ The first train over the Toledo, Tiffin and Eastern Railroad, made a trip from Toledo to Mansfield, Dec. 20th. It is expected that regular trains will be placed on the road by the 15th of January, when through connections will be made at Mansfield, east and west.

Commerce of Baltimore.

During 1872 the arrivals of vessels of all classes at this port were 5,523, of which 2,076, including 848 schooners, were American, 2,118, including 290 schooners, were British.

IMPORTS FOR THE YEAR.

The imports into the port of Baltimore of the principal articles during the year 1872 were as follows as compared with 1871:

	1872.	1871.
Coffee bags	372,895	566,064
Cocoanuts	1,250,000	1,500,000
Lemons, boxes	27,782	28,162
Oranges, boxes	50,529	68,949
Figs, drums	1,900	2,850
Figs, cases	167	321
Raisins, boxes	51,220	64,662
Guano, tons	3,007	12,985
Hides, Buenos Ayres	5,878	2,281
Hides, other foreign ports	14,110	18,641
Horns	30,000	40,000
Iron, bars	11,940	32,600
Iron, pig, tons	5,418	7,066
Iron, bundles	2,486	16,586
Iron, railroad bars	103,003	98,970
Molasses, hides	21,359	21,546
Molasses, tierces	1,707	1,773
Molasses, bbls	99	209
Rice, bags	28,965	15,878
Salt, Liverpool, sacks	167,527	193,112
Salt, W. Indies, bushels	248,693	101,413
Sugar, hhds	105,656	110,209
Sugar, tierces	4,027	2,019
Sugar, bbls	8,926	18,184
Sugar, boxes	53,937	52,992
Sugar, bags	33,000	28,920
Lead, pig	19,116	24,808
Tin plates, boxes	140,511	135,315

EXPORTS FOR THE YEAR.

The following are the principle articles shipped to foreign ports during the year 1872, as compared with the previous year:

	1872.	1871.
Bark, quercitron, bags	44,848	31,415
" " hogsheads	153	246
Bread, barrels	19,719	15,147
Corn Meal, barrels	65,807	55,575
Flour, barrels	30,371	505,723
Wheat, bushels	74,976	995,140
Corn, bushels	5,133,480	1,845,840
Coal, tons	55,533	35,421
Cotton, bales	16,084	33,360
Lumber, feet	3,538,000	2,922,000
Shooks and heads, number	252,437	288,825
Staves	382,000	454,000
Rosin, barrels	24,592	27,914
Oil Cake, packages	86,524	129,551
Petroleum, gallons	1,059,167	2,794,811
Bacon, pounds	391,015	454,182
Beef, pounds	568	878
Butter, pounds	100,396	141,410
Cheese, pounds	75,393	94,276
Lard, pounds	12,828,645	4,378,914
Pork, barrels	12,852	6,763
Candles, pounds	344,520	454,861
Tobacco, hogsheads	48,778	58,638
Tobacco stems, hogsheads	4,555	5,972
Tallow, hogsheads	1,180	539

☞ The Stockholders of the Pittsburg, Cincinnati and St. Louis Railway Company, at their meeting in Steubenville on the 31st ult., voted, 135,009 to 1,275, to accept the lease of the Muskingum Valley Railroad. This line taps the P., C. and St. L. Railway at Dresden, Muskingum county, and runs to Morrow, the county seat of Warren county, and constitutes a very important route southwest through a rich agricultural country.

☞ The Galena and Southern Wisconsin railroad is completed from Galena to Platterville, a distance of 26 miles.

Journal of Railroad Law.

RAILROAD COMPANIES—CONTRIBUTORY NEGLIGENCE OF PARENTS—WHAT IS PROPER AGE OF CUSTODIAN OF INFANT.

The facts in the recent case of Ihl Administrator, &c., *vs.* The Forty-Second Street and Grand Street Ferry Railroad Company, (47 N. Y., 317,) are fully and clearly stated in the following opinion by—

RAPALLO, J.—The absence of proof of special pecuniary damage to the next of kin resulting from the death of the child would not have justified the court in non-suiting the plaintiff, or in directing the jury to find only nominal damages. It was within the province of the jury, who had before them the parents, their position in life, the occupation of the father and the age and sex of the child to form an estimate of the damages with reference to the pecuniary injury, present or prospective, resulting to the next of kin. Except in very rare instances, it would be impracticable to furnish direct evidence of any specific loss occasioned by the death of a child of such tender years; and to hold that, without such proof, the plaintiff could not recover, would, in effect, render the statute nugatory in most cases of this description. It cannot be said, as matter of law, that there is no pecuniary damage in such a case, or that the expense of maintaining and educating the child would necessarily exceed any pecuniary advantage which the parents could have derived from his services had he lived. These calculations are for the jury, and any evidence on the subject, beyond the age and sex of the child, the circumstances and condition in life of the parents or other facts existing at the time of the death or trial would necessarily be speculative, and hypothetical, and would not aid the jury in arriving at a conclusion. It has been held by this court, in several similar cases that the statute does not limit the recovery to the actual pecuniary loss proved on the trial. (Oldfield *vs.* N. Y. and H. R. R. Co., 14 N. Y., 310, 319. Omara *vs.* Hudson R. R. Co., 38 *id.*, 445 and 450.)

The amount of the damages could have been reviewed in the court below, but cannot here. The only question that can be considered here is, whether any, or more than nominal damages were recoverable.

There was abundant evidence on the question of the defendant's negligence to require the submission of that branch of the case to the jury; and the only remaining question arising on the motion for a non-suit is whether the evidence showed such negligence on the part of the mother of the deceased, as to preclude a recovery in this action. The alleged negligence of the mother consisted in sending the deceased, aged three years and two months, across the avenue, through which the railroad ran, in charge of his sister who was of the age of nine and a half years.

It was not established by the evidence that the disaster was attributable in any degree to negligence or incompetence on the part of the sister. According to the evidence of several of the witnesses, the deceased fell upon the track at a sufficient distance in front of the car to have enabled her to extricate him had the driver been observant of what was passing and slackened his speed; and there was no request to submit to the jury the question whether the sister was negligent. The defendant relied wholly upon the proposition that the sending of the child across the avenue and track unattended except by another child so young as the attendant in this case was proved to be, was negligence *per se*.

We are of opinion that the refusal so to charge was not error, and that the judge properly left it to the jury to say whether it was negligent "to permit the little daughter between nine and ten years of age to take the little boy to the drug store in the way she started to go." The competency of the little girl to act as attendant of the deceased, was matter of judgment.

There is no positive law by which it can be determined. She was not of such an extremely tender age as to place it beyond a doubt that she was incompetent and therefore it was proper to leave the question to the jury. See Mangam *vs.* Brooklyn R. R. Co., (38 N. Y., 455, 449,) and Drew *vs.* Sixth Ave. R. R. Co., (26 N. Y., 49,) where it was held not as a matter of law negligent in the parent to send a child of the age of eight years to school without an attendent. The third and fourth requests to charge were fully covered by the charge as given and the refusal of the judge was to charge otherwise than he had already charged. He had fully presented and submitted to the jury the questions of the negligence of the defendant and of the negligence of the parents of the deceased, and the grounds upon which negligence was sought to be imputed to them, and had instructed the jury that if they found either of those questions in favor of the defendant, they must rendered a verdict the for defendant. A refusal to repeat these instructions was not error.

The first request to charge, viz: that to entitle the plaintiff to recover, the jury must be convinced by the proofs that the deceased was guilty of no negligence which contributed to the injury, and also that the defendant was guilty of such negligence, was properly refused. This request related to the personal conduct of the deceased child. The controversy on the trial was as to the alleged negligence of the parents. If the child exercised proper care and the injury was caused wholly by the negligence of the driver, the defendant was clearly liable without regard to the question whether it was negligent in the parents to let the child go out as it did. In the case supposed the negligence of the parents, if it existed, would have been too remote to be regarded as contributing to the injury. But if the parents, or the attendant of the child, were guilty of no negligence and the defendant was, want of care or personal negligence on the part of the child would not, under the circumstances of this case, absolve the defendant from liability. The child was only three years and two months old, and clearly within the adjudged cases in which infants have been held not *sui juris*, or not responsible for their own conduct, but only through their custodians; and this incapacity was obvious, and apparent to the driver. All the cases in which the negligence of parents or custodians of infants not *sui juris* is held to preclude a recovery by such infants or the representatives necessarily assumed that the conduct was such as would, in the case of a person *sui juris* have amounted to contributory negligence, and hold that the negligence of the parent or custodian, but not the personal conduct of the infant, constitutes the bar. The law in such cases makes the infant responsible through others. The conduct of the infant may have an important bearing on the question of the defendant's negligence, but when the latter is clearly negligent, contributory personal negligence on the part of an infant obviously not *sui juris* cannot be alleged, unless negligence on the part of his guardian or custodian has brought about the situation, or in some manner contributed to the injury.

This element was not embraced in the request, and it would, therefore, have been erroneous to charge it in the form in which it was made.

If the child had been old enough to be regarded as *sui juris*, then his negligence would have been a bar without reference to that of his parents.

The only exception to the charge was to the instruction that when the driver saw the children, half a block off, his duty was to keep watch of them to prevent running over them. The judge afterwards modified this by stating that it was for the jury to say how far it was the duty of the driver to have kept watch of them, and whether his not doing so was negligence. We do not think the instruction as thus modified erroneous.

The judgment should be affirmed with costs.

Judgment affirmed.

Finances of Massachusetts.

The following is an extract from the address of Gov. Washburn to the Legislature:

While disaster has seriously, though temporarily crippled and embarrassed many of the industrial and commercial interest of the Commonwealth, her public finances exhibit gratifying evidence of thrift and security. Under the wise and provident policy of the State—creating ample sinking funds for the liquidation of every maturing installment of the public debt—more than three millions of the funded liabilities have been extinguished during the past year, without recourse to ordinary revenue, taxation or temporary loans. The amount thus retired included upward of two and a half millions of the Massachusetts 5-20 War Fund Loan not absolutely maturing till 1886, but which the surplus accumulation of the sinking fund established for its payment, rendered it advisable to anticipate. With an addition of more than a million to the Troy and Greenfield Railroad and Hoosac Tunnel Loan, by a further issue of scrip on that account there still remains a net reduction of the funded debt of the Commonwealth amounting to nearly two millions of dollars. The appended statement exhibits the transactions of the year in this connection:

Funded debt January 1, 1872		$29,629,364
Amounts liquidated during the year:		
Massachusetts War Fund loan	$2,551,500	
Union Fund loan, 1861	363,700	
State Almshouse loan	100,000	
Loan of 1861 (funding debt)	100,000	
		3,115,200
Balance remaining		$26,514,164
Added during the year on account of the Troy and Greenfield Railroad and Hoosac Tunnel loan		1,178,540
Total		$27,692,704
With these changes the existing debt, all of which is funded, may be thus classified:		
Railroad loans		$13,303,016
War loans		13,159,688
Ordinary loans		870,000
Funded debt		$27,692,704

The only unfunded liabilities remaining consis

of small sums, for the payment of which the treasury is amply provided.

With the extinguishment in 1872 of the last installment of the loan of 1861 for funding the public debt, there remain now no funded liabilities for the payment of which the State has not provided a sinking fund; and any deficit likely to occur in one or two of these funds can be easily supplied, either by transfer of surplus accumulations or from other available resources.

During the present year $425,000 more of the funded debt will reach maturity, viz: of the Union Fund loan, $300,000; State House Enlargement loan, $65,000; and Almshouse loan, $60,000—all of which will be paid from their several sinking funds.

Accepting the results of the past year as a basis of judgment for the present, the ordinary revenues of the State may be estimated at $2,800,000.

Adding to this sum the unexpended cash on the same account, will put the treasury in possession of something like $2,900,000.

The ordinary expenses of the year, estimated upon present information, can scarcely be less than $4,420,000.

With the material reduction of ordinary revenues under the repealing legislation of 1872, the amount necessary to be raised by a State tax may not be less than two millions of dollars, exclusive of any provision for temporary emergencies or special grants by the present Legislature.

Finances of Maine.

The financial condition of the State, as appears by the report of the State treasurer, is highly satisfactory.

The receipts for the past year have been	$1,334,859 98
Disbursements	1,147,544 41
Debt January 1, 1873	$7,187,900 00
Sinking fund in the treasury	1,020,247 00
Debt, deducting sinking fund	$6,167,653 00
Cash in treasury above immediate liability	180,000 00
Debt, deducting sinking fund and cash in treasury	$5,987,653 00
Sinking fund January 1, 1872	$798,295 00
" " " 1873	1,020,247 00
Increase of sinking fund in 1872	$221,952 00
Trust funds held by the State exclusive of sinking fund	$789,078 00

The following is a statement of the public debt January 1, 1873:—

Due in 1873	$50,000
" 1874	50,000
" 1875	30,000
" 1876	60,000
" 1877	51,000
" 1878	30,000
" 1880 (bounty loan)	475,000
" 1883 (war loan)	525,000
" 1889 " "	2,832,500
" 1889 (municipal war-debt)	3,084,400
Whole amount of debt	$7,187,900

The sinking funds established by acts of 1865 and 1868 are rapidly accumulating, and will be amply sufficient to meet the debt as it matures.

Exclusive of the mill tax, the State tax of 1872 was reduced fifty or sixty thousand dollars from the previous year. The taxpayers will now be glad to learn that in the opinion of the treasurer, if there are no extraordinary appropriations made by this legislature, the State tax for the year 1873 can be reduced to five mills on a dollar, being a reduction of $170,000 from the State tax of 1872.

☞ The vote authorizing the city of Cincinnati to issue one million and a quarter in bonds to aid the Cincinnati and Chesapeake railroad was carried by nearly 7,000 majority, being over a thousand above the necessary two-thirds required by law.

☞ The last rail of the Paris and Decatur railroad, and also the Chicago and Southeastern, known as the Mattoon, Sullivan and Decatur railroad, was laid on the 20th ult. These two roads form a junction at Mount Zion, ten miles southeast of Decatur, and run into that city, via the Illinois Central track.

For Sale—New Locomotives.

Soft coal burner, 4 ft. 8½ in. gauge, Cylinders 15×22, four 4½ ft. Drivers. Rogers Locomotive and Machine Works, Builders. Has swing truck, and all latest improvements. Been run three months only, and in perfect order. Address

A. W. GREIG, Sup't,
Litchfield, Conn.

Jan. 6th, 1873.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Jan. 6, 1873.

A DIVIDEND OF FIVE PER CENT. HAS been declared by this Company, payable on the 1st day of February next, to the holders of full paid shares, registered at the close of the 16th day of January instant, after which and until the 5th day of February next, the transfer-books will be closed.

L. V. F. RANDOLPH, Assistant Treasurer.

SECOND MORTGAGE
7 PER CENT. BONDS
SOUTH CAROLINA RAILROAD COMPANY.

The South Carolina Railroad Company having created a Second Mortgage, amounting to

THREE MILLION DOLLARS,

for the purpose of retiring all its floating obligations and arranging its non-mortgage bonds, and the bonds authorized to be issued under said mortgage having been duly executed, they are now offered for sale at this office at

75 PER CENT.

Payment will be accepted as follows, viz:

Two-Thirds of the purchase money will be received in the 7 per cent. non-mortgage bonds of the Company at 75 per cent.; balance in cash.

The value of this security now offered entitles it to VERY HIGH CONSIDERATION. The mortgage covers the entire property of the Company, embracing 242 miles of first-class road abundantly equipped with locomotives and cars in fine condition, and all the appurtenances of a first-class Railroad - - - the first mortgage being only $3,000,000.

The business of the Road for the present year is estimated at about

$1,400,000

gross, and its net revenue at over $550,000. Its present prospects furnish ample ground for very satisfactory anticipations of future earnings.

The Bonds bear date October 1st, and have attached coupons for 7 per cent. per annum interest, payable in April and October, in the City of New York.

After the 31st December inst. the price of the bonds will be 75 per cent., and accrued interest.

J. T. WELSMAN,
CHARLESTON, S. C. Dec. 6. Treasurer.

The undersigned agent for the sale and exchange of the above Bonds, can be found at the Fourth National Bank, in this city.

JOHN C. COCHRAN.
NEW YORK, Dec. 18, 1872.

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board, without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

THE WHARTON

Safety Railroad Switch.

BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

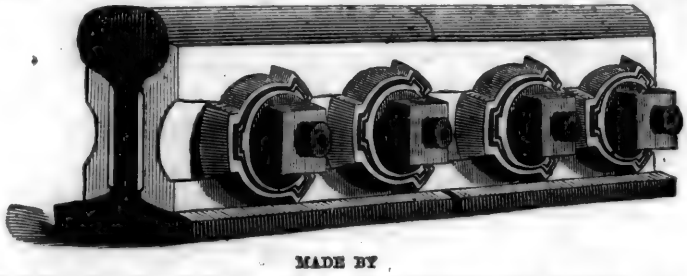
FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

American Railroad Journal.

New York, Saturday, January 18, 1873.

Fourth Avenue Improvement.

According to a statement of Mr. Isaac C. Buckout, the Superintending Engineer of the Fourth Avenue Improvement, the entire work, from the City Hall to the Harlem River, will be finished in two years, probably by January 1, 1875. The distance from the City Hall to the Grand Central depot will then be made in twelve minutes, and from the depot to the Harlem River in ten minutes, making twenty-two minutes in all. The work from the depot to the Harlem River is divided into three sections. The first section, from Forty-fifth to Forty-ninth street, is under contract to Fairchild & Ward. The third section, from Seventy-ninth street to the Harlem River, was let six weeks ago to Dillon, Clyde & Co. Three hundred men are already at work on this section alone. The second section, from Forty-ninth to Seventy-ninth street was awarded on the 14th inst. to Dillon, Clyde & Co., who now have the contracts for the entire work from Forty-ninth street to the Harlem River. As soon as the contract is signed, Mr. Buckout said, the contractors will set 1,000 men at work. Work upon the third section is progressing rapidly. Two rock tunnels are being built at Yorkville, and trestle-works over the Harlem flats (in which the trains will run while the viaduct is being constructed). A large number of men are at work rock-cutting at Snake Hill, south of 125th street. The section through Harlem from 125th street to the Harlem River is being excavated below the avenue grade. The track is being sunk there.

To Investors.

To those who wish to REINVEST JANUARY COUPONS OR DIVIDENDS, and those who wish to INCREASE THEIR INCOME from means already invested in other less profitable securities, we recommend the Seven-Thirty Gold Bonds of the Northern Pacific Railroad Company as well secured and unusually productive.

The bonds are always convertible at Ten per cent. premium (**1.10**) into the Company's Lands at Market Prices. The rate of interest (seven and three-tenths per cent. gold) is equal now to about 8¼ currency—yielding an income more than one-third greater than U. S. **5-20s**. Gold Checks for the semi-annual interest on the Registered Bonds are mailed to the Post-Office address of the owner. All marketable stocks and bonds are received in exchange for Northern Pacifics ON MOST FAVORABLE TERMS.

JAY COOKE & CO.

New York, Philadelphia and Washington,

Financial Agents N. P. R. R. Co.

Erie Railway.

At a meeting of the directors of this company on the 14th inst., a resolution was unanimously adopted authorizing the issue of convertible bonds to the amount of $10,000,000, bearing 7 per cent. interest in gold, payable either in New York or London, provided that the said bonds are negotiable at par in currency. The proceeds of the sale will be used for the purpose of laying a third rail, and the improvement of stock and equipment. The subject of declaring a dividend on the preferred stock was referred to a special committee, which will report at a future meeting. The resignation of Mr. J. B. Hodgskin, as treasurer, was received, and Mr. William Pitt Sherman was appointed in his stead.

Baltimore and Ohio Railroad.

The following is a comparative statement of the earnings and working expenses of the Main Stem of the Baltimore and Ohio Railroad for the years ending September 30, 1871 and 1872—including the Winchester and Potomac, the Washington County, and the Winchester and Strasburg Branches:

Earnings:	1871.	1872.
From passengers	$1,460,699 71	$1,695,153 21
" tonnage	8,452,690 78	8,959,318 41
Total	$9,913,390 49	$10,654,471 62
Working expenses:		
Transportation exp.	$1,775,458 46	$1,948,247 86
General expenses	70 352 74	89,617 73
Losses by accidents	80,190 09	63,151 21
Repairs of railway	1,928,776 53	1,697,789 10
" locomotives	580,736 98	662,427 26
" burden cars	326,764 21	433,818 33
" pass. cars	166,822 99	117,598 56
" stationary machinery	146,022 24	198,429 68
" depots	127,011 53	103,842 22
" water stat'ns	80,846 64	51,127 95
" bridges	199,027 55	175,203 71
" telegraph	10,918 74	15,429 22
Fuel, preparing, etc.	320,893 25	363,557 26
Cleaning engines and cars	96,912 60	103,504 41
Pumping water	25,837 34	27,175 96
Watching cuts, tunnels and bridges	63,232 40	64,465 62
Contingent expenses of machinery department	7,083 39	8,063 85
Total	$5,906,887 68	$6,122,399 93
Net earnings	$4,006,502 81	$4,532,071 69

The ratio of expenses to earnings was in 1871, 59.58, and in 1872, 57.46, showing a decrease of 2.12 per cent.

It is shown that the earnings, in comparison with the fiscal year 1871, have increased $741,081

13, and the working expenses $215,512 25, making a comparative increase in the net profits of $525,568 88. Compared with the fiscal year 1870, the increase of earnings being $2,226,743 46, and of working expenses $668,939 93, the increase of net profits amounts to $1,557,803 53.

During the fiscal year, the sinking fund for the redemption of the city loan increased to $1,449,553 20, showing a gain of $95,236 53.

Under the action of the sinking fund for the redemption of the £800,000 sterling loan, £34,000 of those bonds have been purchased in London and cancelled, thus, at $4 84 per pound sterling, reducing that debt $164,560, and showing a gain during the fiscal year of £16,500, equivalent at $4.84 per pound sterling, to $31,312.

A dividend of 4 per cent. upon the capital stock was paid on the 1st of November, 1871, and on the 1st of May 1872, a dividend of 5 per cent. The United States tax thereon was also paid by the Company.

The liabilities of the company, compared with the statement of September 30th, 1871, have increased as follows: Preferred stock, second series, 6 per cent. currency, $23,000; sterling loan, redeemable in 1902, £300,000 at $4.84 gold $1,452,000—total, $1,475,000.

The profit and loss account shows an increase for the past year of $2,905,537 03.

It will be seen by this account that the surplus fund, which represents capital derived from earnings invested in the various branch and connecting roads, and the great improvements that have been continuously constructed on the main line, and which is not represented by stock or bonds, now amounts to $26,152,269 36.

The rapid increase of this fund arises from the fact that the immense sums embraced in this account have been invested in engines, cars, machinery, buildings, bridges, double track, in connecting roads and for their increased equipment, etc. These investments perform the triple function, first, of enlarging the traffic and facilities of the company upon its Main Stem; second, of controlling large additional business from great territories and many States over its entire system of roads; and, third, of furnishing a capital, the interest on and earnings of which, not being otherwise used or divided, are added directly to the surplus fund.

The continued pursuit of the policy of making relatively limited dividends and using its additional earnings for the purposes stated, has provided the means, without sacrifice or undue pressure for capital upon the interests with which the company is connected, to aid and carry out various and important enterprises which are largely increasing the prosperity and wealth of numerous and great communities and assisting materially the progress and power of the country.

It is shown by the report of the transportation department that there has been a large expansion of tonnage of through merchandise, East and West, viz: from 435,207 tons in the preceding year, to 557,609 tons.

The traffic in live stock and lumber has also largely increased.

The coal trade shows an aggregate of 2,068,683 tons, which includes 407,424 tons for the company's supply.

It will be seen that the passenger business exhibits a marked and very satisfactory increase.

The splendid new equipment, the superior hotels being erected, and the general improvements upon the Baltimore and Ohio Road, with its additional, excellent and short connections, especially with the National Capital and Baltimore, will, it is reasonably anticipated, attract a much larger travel upon its lines.

Statement of profit and loss for the years ending September 30:

	1871.	1872.
Balance from previous year	$21,375,050 73	$23,246,732 33
Net earnings	4,006,502 81	4,532,071 69

WASHINGTON BRANCH.

Statement of earnings and expenses for the years ending September 30:

Earnings:	1871.	1872.
Passengers	$329,823 79	$363,124 00
Tonnage	97,755 63	117,521 04
Total	$427,579 42	$480,645 04
Expenses:		
Repairs of railway	$126,296 96	$128,253 27
" depots	12,878 96	5,528 88
" water stations	5,116 44	650 10
" bridges	15,067 01	5,579 55
Pumping water	4,051 68	4,898 23
Total	$163,411 05	$144,910 03
Net earnings	$264,168 37	$335,735 01

The earnings of 1872 show an increase as compared with those of the previous year of $53,065 62; the expenditures charged are $18,502 02 less—showing an increased gain of $71,566 64.

A dividend of five per cent. was paid on the 16th of October, 1871, and a similar dividend on the 17th of April, 1872.

During the year 711 tons of steel were substituted for iron rails; 93 tons of new rails and 33,787 cross ties were also used.

Statement of profit and loss for the years ending September 30:

	1871.	1872.
Balance from prev. yr.	$355,984 16	$452,700 09
Net earnings	264,168 37	335,735 01
Total	$620,152 53	$788,435 10

Dividends on stock	$165,000 00	$165,000 00

	$2,122,700 09	$2,292,299 68

PARKERSBURG BRANCH RAILROAD.

The following is a comparative statement of the earnings and expenses for the years ending September 30:

Earnings:	1871.	1872.
Passengers	$150,022 58	$204,757 03
Tonnage	583,072 76	622,045 91
Total	$733,095 34	$826,802 94
Expenses:		
Transportation	$148,979 28	$190,515 16
Repairs of railway	368,349 92	280,443 19
" water stations	6,070 21	8,888 28
" telegraph	1,179 89	9,575 56
" stationary machinery	2,989 98	5,999 35
" locomotives	47,758 81	54,187 36
" burden cars	17,622 28	30,278 53
" passenger cars	4,484 81	4,055 36
" bridges	17,087 63	31,844 20
" depots	17 334 31	13,244 43
Pumping water	3,296 80	3,265 48
Losses by accidents, etc.	5,593 50	12,867 12
Fuel, preparing, etc	29,789 15	36,787 56
General expenses	2,569 62	3,022 09
Cleaning engines & cars	7,949 65	7,770 02
Contingent expenses	22 16	56 18
Taxes	40,210 03	19,481 85
Total	$721,288 03	$712,261 74
Net earnings	$11,807 31	$114,541 20

It will be seen that the earnings were $93,707 60 more than in 1871, while the expenses decreased $9,026 29—showing an improved result compared with 1871, of $102,733 89.

The aggregate earnings of the Main Stem, including the Winchester and Potomac, the Washington County, and the Winchester and Strasburg, Branches, and of the Washington Branch and Parkersburg Branch, for the years ending September 30, 1871 and 1872, were as follows:

	1871.	1872.
Main Stem	$9,918,390 49	$10,654,471 62
Washington Branch	427,579 42	480,645 04
Parkersburg Branch	733,095 34	826,802 94
Totals	$11,074,065 25	$11,961,919 60

The aggregate expenses of operating and repairs were as follows:

	1871.	1872.
Main Stem	$5,906,887 68	$6,122,399 93
Washington Branch	163,411 05	144,910 03
Parkersburg Branch	721,288 03	712,261 74
Totals	$6,791,586 76	$6,979,571 70

And the aggregate net earnings, after deducting the cost of operating and repairs, as follows:

	1871.	1872.
Main Stem	$4,006,502 81	$4,532,071 69
Washington Branch	264,168 37	335,735 01
Parkersburg Branch	11,807 31	114,541 20
Totals	$4,282,478 49	$4,982,347 90

—showing an increase in the gross earnings of $887,854 35; with an increase in expenses of $187,984 94—making the increase in net earnings $699,869 41.

The earnings of the Central Ohio Division for the fiscal year were $989,326 91, the expenses $818,605 58, and the net earnings $170,721 33.

The earnings of the Lake Erie Division for the same time were $600,388 26, the expenses $503,729 91, and the net earnings $96,658 35.

The earnings of the Wheeling, Pittsburg and Baltimore Railroad were $48,164 58, the expenses $47,684 61, and the net earnings $479 97.

The earnings of the Newark, Somerset and Straitsville Railroad, from May 20, 1872, were $26,877 96, the expenses $17,883 19, and the net earnings $8,994 77.

The gross revenue of the Main Stem and Branches including the Central Ohio and Lake Erie Divisions, the Wheeling, Pittsburg and Baltimore Railroad, and the Newark, Somerset and Straitsville Railroad, is thus shown to be $13,626,677 31, the expenses $8,367,474 99, and the net earnings $5,259,202 32. The aggregate working expenses were 61.4 per cent. of the whole gross revenues.

During the year 412,810 new cross ties, 9,804 tons of iron, and 9,118 tons of steel rails were used in repairing the tracks of the Main Stem; 33,787 cross ties, 93 tons new iron and 711 tons of steel rail on the Washington Branch; 82,286 cross ties and 1,577 tons of new rails on the Parkersburg Branch; 2,951 tons of new rails 1,467 re-rolled rails, and 9 tons steel rails on the Central Ohio Division; and 1,433 tons of new rails on the Lake Erie Division.

At the commencement of the fiscal year 1872 there were in service on the Main Stem and Branches 335 locomotives. During the year 48 first-class locomotives were purchased and built, making the total number at the close of the year 383—of these 72 were passenger and 311 freight locomotives; 343 were first-class, 33 second class and 7 third-class. On the Central Ohio Division there were 31, and on the Lake Erie Division 9—making a total of 423.

The number of cars in service at the commencement of the year was 6,480; to which there were added in 1872, 1,771—making the total at the close of the year, 8,251; of these 176 were passenger, 33 mail, baggage, etc., 1 post-office, 1 pay, 9 officers', 6 palace, 1 compartment, 6 sleeping, and 8,018 tonnage, stock, coal and other cars. There were also on the Central Ohio Division 20 passenger, 8 mail, etc., and 349 freight cars, and on the Lake Erie division 10 passenger, 9 mail, etc., and 212 freight cars—making a total of 8,859.

The mileage of engines in 1871 and 1872 was as follows:

	1871.	1872.
Main Stem	7,851,264	9,172,997
Washington Branch	449,975	476,800
Parkersburg Branch	836,347	1,003,407
Total	9,137,586	10,653,204

The policy adopted for the development of the coal trade continues to exhibit desirable results. The establishment and maintenance of low uniform rates, enabling consumers to rely upon their supplies being furnished throughout the year at prices which will not be affected by changes in the charge of transportation, continue to cause a general and large demand. The tariff of the Baltimore and Ohio road for coal has continued, summer, and winter, without alteration, for nearly five years. The company has uniformly declined to enter into any combinations to obtain advanced rates, and proposes to continue this liberal and useful policy. The enhanced prices of coal in England have caused various interests in the East and West Indies and South American to make arrangements for supplies for lines of steamers, and for other purposes, from the port of Baltimore—their action being based upon information that the tariff of this company would not be advanced during the approaching winter. In order to furnish the facilities which the enlarged consumption of the excellent coals upon the line of the Baltimore and Ohio road will probably demand, it has been determined to construct a further addition of five hundred hoppers, of eleven tons capacity each, exclusively for this trade.

Arrangements are also being made for the construction and purchase of important additions to the power and equipment for the general traffic.

It will be seen that 9,118 tons of steel rails have been used during the past year upon the main stem. 256 miles of the road are now laid with this durable and safe material. Contracts have been made for sixteen thousand tons, to be laid during the next year. The greatly increased cost of the large quantity of steel thus used in substitution for iron rails, has been charged to the repair account.

The rapid increase in the traffic of the road requires a constant increase of its facilities in all the working departments. During the year, nine miles of track have been laid in the yards and stations of the company, and work upon the double track has been vigorously prosecuted. Fifteen miles of second track have been laid during the year. This great improvement has been completed between Piedmont and Baltimore, and between Piedmont and Grafton thirty miles have been constructed, and the work on the remainder is being prosecuted so as to perfect this entire distance at an early period.

In order to meet the expected continuous increase of the coal trade, arrangements are now being made for the construction of a third track from the coal regions Eastward. This important improvement will not only greatly facilitate the tonnage, but materially aid in the development of the largely increased passenger business of the road.

In order to prosecute the various works in which the company has been engaged, and to furnish means for the additional lines which it has determined to construct at an early day, the board decided to issue a mortgage loan of £2,000,000, payable in 1902, and bearing six per cent. interest, payable semi-annually in London. A sinking fund has been established for this loan of £24,000 per year, under the action of which, it is expected that these bonds will be redeemed and cancelled prior to their maturity. £300,000 of this loan have been promptly and satisfactorily negotiated through Messrs. Baring Brothers & Co., and from the superior credit and deservedly strong position of the securities of the Baltimore and Ohio Company in Europe, the remainder can doubtless be negotiated as may suit its convenience and requirements on satisfactory terms.

The rapid enlargement of the business of the company at its Marine Station on Locust Point caused additional space and facilities there to be desirable. The large property extending from the line previously owned by the Baltimore and Ohio Company to the property of the United States, (Fort McHenry,) has been obtained at a value of $200,000, The necessities of the commerce of the port, in connection with the business

of the road, demand additional piers and warehouses. It being also evident that the rapidly increasing grain trade of Baltimore cannot be accommodated by the elevator which has been successfully established during the past year, the capacity of which is 500,000 bushels, it has been determined to erect a second structure with the capacity of 1,000,000 bushels. The additional property acquired will enable the company to proceed promptly with the construction of these needed improvements.

METROPOLITAN BRANCH RAILROAD.

Unexpected delays, arising chiefly from unusual sickness among the workmen upon a portion of the line, have occurred in the completion of the Metropolitan Branch Road. The entire line from Point of Rocks to Washington is so nearly finished, (including the heavy masonry at the Monocacy River and other points upon the road,) that its early opening may now be safely anticipated. The through passenger service between the West and Washington and Baltimore can then be performed by this direct and excellent line, so that the double-track road between Point of Rocks and Baltimore can be used without interference by passenger trains with the enormous and increasing tonnage business of the company.

The capital invested in the Metropolitan Branch Road, at the close of the fiscal year, amounted to $2,855,043 67.

PITTSBURGH, WASHINGTON AND BALTIMORE R. R.

Heavy expenditures have been continuously required on this road to place it in effective working condition. Large additions of engines and cars have also been necessary for its service. Its condition has therefore required constant and large financial aid. The continued expansion of its traffic justifies the expectation that, whilst it must always materially advance the business interests of Baltimore and Pittsburgh, this road will, by the persistent pursuit of a liberal policy, ultimately become a remunerative investment.

BALTIMORE, PITTSBURGH AND CHICAGO RAILROAD.

The pressure of trade from the Northwest has constantly shown the desirableness and necessity of a line of railway entirely under the control of the Baltimore and Ohio road, from Chicago and through the extensive and fertile intermediate regions to Baltimore. For the purpose of effecting this connection, with the least practicable delay, it has been determined to construct the road from a point about 90 miles north of Newark, on the Lake Erie division, to Chicago, a distance of 260 miles. The line has been located with low grades, and is singularly direct. It is expected that the entire road will be placed under construction within a brief period, and thus, through this extension, in connection with the Lake Erie and Central Ohio divisions and the Baltimore and Ohio road, an admirable, economical and effective line from Chicago, but 811 miles to Baltimore, and by the Metropolitan Branch, but 784 miles to the city of Washington, can be built and in use within eighteen months.

The point of divergence of this road from the Lake Erie division has also been selected as the proper location for the junction of the proposed line from Pittsburgh, so that the traffic of the Main Stem and of the Pittsburgh, Washington and Baltimore Railroad and between Wheeling and Pittsburgh, and Chicago and the Northwest, will ultimately be concentrated upon this route.

NEWARK, SOMERSET AND STRAITSVILLE RAILROAD.

This road extends from Newark, in Licking county, Ohio, the junction of the Lake Erie and Central Ohio divisions of the Baltimore and Ohio Road, directly south, through Licking and Perry counties, 44 miles, to the coal mines of Shawnee valley. The superior character and extent of this coal region, and the large demand for these coals upon our lines through the West and Northwest, caused this road to be desirable as a part of the Western system of this Company.

On the 1st day of January, 1872, an agreement was made between the Newark, Somerset and Straitsville Railroad Company and the Sandusky, Mansfield and Newark Railroad Company, as reorganized, for the lease of the road of the former by the latter Company, under the guarantee of the Baltimore and Ohio Railroad Company. Under this contract the working and management of the Newark, Somerset and Straitsville Railroad were transferred to the Baltimore and Ohio Company on the 20th day of May last.

In consideration of the permanent character of this contract, the articles of agreement between the Newark, Somerset and Straitsville, the Sandusky, Mansfield and Newark, and the Baltimore and Ohio Railroad Companies, are appended to this report.

The successful management of the constantly-enlarging business of the Company again requires the expression by the Board of their appreciation of the faithful and efficient services of the officers and employees of the company in all the departments of the service.

Montpelier and Wells River Railroad.

The regular annual meeting of the stockholders of this company was held at Montpelier on the 5th inst., a large majority of the stockholders being present.

The meeting was called to order by the president of the company, Hon. Roderick Richardson, and Joel Foster, esq., officiated as secretary. The report of the treasurer, Hon. John A. Page, was read and accepted. The report stated that the financial matters of the corporation had been finally adjusted on a very satisfactory basis and hereafter the work of construction would go on without the slighest embarassment, as there was plenty of funds now provided whereby to put the road in thorough running order.

The report of Charles Walker, esq., chief engineer of the company, was read, from which it appears that the construction of the road was begun by N. C. Munson, esq., of Boston, November 1, 1870, the terms of his contract allowing two years for the completion of the same. Over one thousand workmen were employed, and the work progressed with great rapidity until during October, 1871, when by some mismanagement the funds of the company gave out and Mr. Munson immediately reduced the working force on the grading and masonry, and intimated that the affairs would have to be brought to a settlement on some certain basis in order to have the work pushed forward so as to comply with the two years' clause in the contract. On account of the non compliance of the management with this request, and from the fact that the subscriptions to the stock came in slowly, the working force was kept by Mr. Munson down to a small figure, the work going on in a slow way, and therefore the road was not finished within the appointed time. The line of the road is thirty-eight miles long, the grading, the masonry, and bridging on which is now about finished; there are one or two small rock cuts yet to be finished, but this will consume but very little time, and the road will then be ready for the iron, of which three miles have been laid at the Montpelier end. Nothing can be done at present at track-laying, the snow being quite deep in this part of Vermont, but the work in this particular will be resumed during the coming spring. At the conclusion of the engineer's report the report of the directors was taken up and a long and sometimes, it was thought by many, a warm personal discussion followed, which lasted four hours, when a motion was made to proceed to a stock vote for a board of directors for the ensuing year.

A large vote was cast, and the following are the names of the new directors, the first five being of the old board: James G. French, Joel Foster, jr. C. H. Heath, James W. Brock, S. C. Shurtleff, George Wooster, I. N. Hall, George B. Fessenden, C. M. Weeks.

At a subsequent meeting of the new board of directors, the Hon. I. N. Hall of Groton, Vt. was unanimously elected president; the Hon. Charles H. Heath, vice-president, and Joel Foster clerk of the corporation. James G. French was elected construction agent and general manager of the line on behalf of the company.

The triumphant party in the election were jubilant over the result, and now there seems to be complete unanimity among the directors in regard to the policy to be pursued during the ensuing year. The directors fully indorse the manner in which Mr. Munson has acted, and pledge him their support. The money for the completion of the road has been secured, and during the coming summer it is confidently expected that this link between the Vermont Central Railroad on the west and the Passumpsic River and the Connecticut River railroads and Boston, Concord and Montreal Railroad on the east, and which is to form, as will be seen at a glance, a very valuable adjunct to the summer and all northern travel, will be completed and in fine running order. As soon as spring opens Mr. Munson announces it as his determination to greatly increase the working force and thereby facilitate the arrival of the long hoped for opening celebration.

Cleveland and Pittsburg Railroad.

At the annual meeting of the stockholders of this company, held in Cleveland on the 2d inst., the following board of directors was elected for the ensuing year: J. N. McCullough, B. F. Jones, George W. Cass, Wm. Thaw, Pittsburg; Thos. A. Scott, George B. Roberts, Philadelphia; Jay Gould, Henry N. Smith, Wm. Hoge, Charles Lanier, New York; R. P. Ranney, J. V. Painter, Cleveland.

General J. N. McCullough, President, submitted his annual report. The statement is made that good progress has been made during the year in adjusting unsettled business, daing prior to the lease of the road, $88,522 27 having been expended for this purpose, against which there were receipts to the amount of $23,161 67 from coupons collected from mortgage bonds entered in settlement of accounts, etc. It is believed that no considerable amount of this class of liabilities now remain unsettled. Owing to the slow processes of litigation but few cases pending in the courts have been brought to final issue, and the aggregate of such claims against the company remain substantially as reported last year. Nearly all the old capital stock has, during the year past, been transferred into the new seven per cent. guaranteed stock, at the increase authorized by the stockholders at their meeting November 21, 1871, and set forth in the lease of the road to the Pennsylvania Railroad Company. The report then states:

"The management of the road and its business by the lessee during the past year, has been entirely satisfactory, the roadway, equipment and structures all having been fully maintained as to ordinary repairs, besides a large outlay for increased equipment and facilities demanded by the growing traffic. The total amount expended for this purpose was $630,765 26, of which $138,837 52 was for work previously authorized and in progress when the road was leased."

The guaranteed income account showed that the total receipts from the Pennsylvania Railroad Company, for annual rental, interest and sinking fund, were $1,030,121 25, and the disbursements $1,028,152 99, leaving an unexpended balance of $1,968 26. The report concluded with the following gratifying assurances:

"Our bondholders can rely with confidence upon receiving the interest upon their bonds as it becomes due, and our shareholders their quarterly dividends, clear of all taxes, as they become due, thus placing all our securities among the safest and best in the market."

Mexican Railway System—General Rosecrans' Project.

An extra of *The Two Republics*, an American newspaper published in the City of Mexico, dated November 23, contains an address of several columns in length, of J. de J. Cuevas, in favor of the stupendous project which Gen. Rosecrans has laid before the Mexican authorities, for constructing an inter-oceanic railway through the City of Mexico, with several branches. The address is translated from the *Vos de Mexico*, November 15, 1872. It makes the following statement of the project, to which is appended a copy of a telegram which we print first:

PHILADELPHIA, October 21, 1872.

PORTER C. BLISS, esq., Acting Minister of the United States, Mexico:

Please transmit the following dispatch immediately to President Lerdo:

"If the concession asked by Generals Palmer and Rosecrans becomes a law, money is ready and work of construction will begin immediately and be pushed vigorously." Signed, "Thomas A. Scott, S. M. Felton, G. M. Pullman, E. C. Knight, Asa Whitney, J. Jones, M. Baird, Edward Hoopes, James C. Parish, W. A. Bell, Robert H. Lamborn, D. E. Small, Geo. Morrison Coates, Thomas Wilson."

The thirteen signers of the above telegram, considered individually, represent millions of dollars. Each one is a president or member of the principal railway enterprises, both American and European, and together form one of the most active, experienced and wealthy railway companies in the world.

What does Gen. Rosecrans propose in his double character of grantee and representative of the capitalists that are to furnish the funds the enterprise demands? Taking as a basis the decree of the 17th of December, 1870, and bearing in mind the modifications solicited by Gen. Rosecrans, we will state in substance the whole project.

Gen. Rosecrans proposes to put the gulf in communication with the Pacific by means of a railway which is to cross our territory horizontally. The line will be, as it were, composed of two sections; that of the city of Mexico to the gulf, and the other from the same city to the Pacific. From the explorations and inquiries made already by the engineers of Gen. Rosecrans, it appears positively that the whole line is practicable, and that the present national traffic will suffice to pay the expenses, when opened to the public.

Work on Gen. Rosecrans' line is to commence upon the section from the capitalc to the Pacific. The plan and direction of this se tion have been almost fixed already. Starting from the City of Mexico, it will go to Toluca, Ixtlahuaca, Maravatio, Acambaro, Salvatierra and Irapuato. The company has not yet decided whether it will proceed to Guadalajara via Lagos, or by Penjamo, Piedad and La Barca. From Guadalajara the line will continue through Sayula, Zapotlan and Golima until it reaches Manzanillo. This is the section from Mexico to the Pacific. That which is to run from the capitol to the gulf, and which is the least important, on account of the existence of the Vera Cruz line, has not been traced.

From the principal line, which is the one formed by the two sections above mentioned, first-class branches will be built to Queretaro, Guanajuato, Morelia, San Luis, Valle de Santiago, Morelos and Pachuca. Gen. Rosecrans will construct besides, second-class branches, in order to put in communication the most thriving towns, and he can likewise prolong one of his branches as far as the northern frontier.

The construction of the section from the capital to the Pacific will be performed and completed within four years. The construction of all the branches of the principal line, in four years also; In two years, the line of this section starting from the capital will reach Lagos. The section from the City of Mexico to some point on the gulf—probably Tuxpan—has not as yet been traced, and therefore, the time it will take for its construction has not yet been fixed; but, judging by what the company asks for the completion of the Pacific section, it is to be supposed that it will take two years more. In ten years, then, will the whole system of railways thus far proposed by Gen. Rosecrans, be entirely finished and put in running order.

Gen. Rosecrans believes that, with the narrow gauge system, every kilometer of railway will cost thirty thousand dollars. He likewise believes that all the railways Mexico will have need of, as a moderate system, will measure 6,000 kilometers, which will cost, at the rate above mentioned, the sum of $180,000,000.

A system of railways in the country would amount to that sum; but as Gen. Rosecrans does not propose to construct them, but merely the Interoceanic line with the principal branches already mentioned, although it is very difficult to fix with any decree of correctness the number of kilometers to be comprised by that line and its branches, starting from the certain point that the Interceanic line will measure 900 kilometeres, we think that this, together with branches proposed thus far by Gen. Rosecrans, will, taken altogether, measure some 2,200 kilometers, which is the length calculated by Mr. Zambrano in a work that he has lately published. Taking this as a basis, the line and branches that Gen. Rosecrans proposes to build will cost $27,000,000 for the principal line, and $39,000,000 for the branches, that is to say, a total cost of $66,000,000.

Gen. Rosecrans asks as a subvention the sum of $8,000 for every kilometer he constructs, if paid at once, and in specie, or $10,000 in bonds, to be delivered to him every time he opens a line of one hundred kilometers for the use of the public. An interest of six per cent. will begin to accrue on these bonds from the month of January subsequent to this delivery. They will be amortisized with two per cent., which will commence in the eleventh year from the year in which interest began to be paid on the bonds. Gen. Rosecrans wishes that eight per cent. of the import duties be assigned for the payment.

As the nation cannot pay the subvention at once, nor in specie, it is useless to consider it in that light. Mr. Zambrano has made the liquidation of what the subvention in bonds will amount to, in case the lines proposed by Gen. Rosecrans measure 2,200 kilometres, and the subvention be granted according to the terms we have explained. In this case bonds of the subvention would amount to $16,000,000, and the interest up to the time of their inalienation $33,220,000, which forms a total sum of $49,120,000, which would be finally paid up in sixty-eight years.

Mr. Rosecrans asks, besides, that during twenty years the materials and goods necessary for the construction, preservation, running and administration of his lines, be exempted from the payment of duties, and that the capital invested in them be likewise exempt from taxation. In regard to freights and passage, Mr. Rosecrans proposes the following tariff: For tons of twenty *quintals*, for the first class, seven cents per kilometer; for the second class, five cents; and for the third class, three cents. For the conveyance of passengers, in first class, four cents per kilometer, and in the second class, three cents. This is the probable tariff, but is likely to undergo some alterations. Civil and military officers and government cargoes will be transported with a reduction of fifty per cent. of the tariff prices. The mail will be carried free.

From the time the whole interoceanic line is opened, and during fifty years thereafter, the grantee asks that the Mexican government shall not exact any duties whatever for the simple transportation of passengers, correspondence and merchandise from one end of the line to the other.

At least one-half of the engineers, employes and workmen to be occupied in the construction and running of the railway shall be Mexicans.

As a compensation for the exemption from all duties on all foreign merchandise transported over the Inter-oceanic line, without remaining in the country, all national goods and products passing over that line, either from one point of the republic to another, or to be exported, shall enjoy a reduction of freight of 30 per cent. on the ordinary tariff.

This is, in substance, the project of Gen. Rosecrans. The details can be seen in the decree of the 18th of December, 1870, and in the report of the first committee on industry, dated July 4th, 1872.

THE INDIANA
AND
ILLINOIS CENTRAL
RAILWAY COMPANY'S
First Mortgage 7 per cent.
GOLD BONDS.

AN EAST AND WEST AIR LINE OF 152 MILES FROM INDIANAPOLIS, INDIANA, TO DECATUR, ILLINOIS; two of the largest railway centres in the West.

The WESTERN DIVISION (85 miles) of this important line, opening, for the first time, direct Western communication with the

BLOCK COAL FIELDS

of Indiana, will be completed and ready for business with an ample first-class freight and passenger equipment by FEBRUARY, 1873.

It traverses a populous and a highly cultivated district now without railway connections, and it is assured a profitable business from the start, in coal and farm products.

A large part of the cost of construction has been, and will in the end be, paid in cash by the stockholders and people on the line.

Bonds $1,000 each, payable in 30 years, principal and interest in GOLD, FREE OF GOVERNMENT TAX.

Sinking Fund 2½ per cent. of gross earnings.

Whole issue $3,500,000, of which those now selling are on COMPLETED ROAD.

For sale at 90 and accrued interest, by the Financial Agents of the Company (of whom pamphlets and information may be obtained).

Walker, Andrews & CO.,
No. 14 WALL ST., NEW YORK.

☞ The Arkadelphia (Ark.) *Standard* says that work on the Cairo and Fulton railroad commenced immediately at this place a few days since, and is progressing as rapidly as the weather will permit. Numbers of railroad hands pass our town daily, going on to the work west of here. Every prospect indicates the completion of the road by mid summer.

☞ The Cairo and Vincennes Railroad was formally opened on the 16th ult. This road extends, in a direct southwest line, from Vincennes, Ind., to Cairo, Ill., about 150 miles, connecting at the former place with the Indianapolis and Vincennes Railroad, making a direct line from Cairo to Indianapolis, a distance of 260 miles.

☞ At a meeting of the stockholders of the Cincinnati and Muskingum Valley Railroad, held in Zanesville on the 8th inst., the lease of that road to the Pittsburg, Cincinnati and St. Louis Railroad Company was unanimously ratified.

☞ The Buffalo, Corry and Pittsburgh Railroad has been purchased by Col. Phillips of Pittsburgh, President of the Allegheny Valley and Oil Creek and Allegheny River Railroads.

RAILROAD EARNINGS—MONTHLY.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, January 18, 1873.

Stock Exchange and Money Market.

Money has been quoted easier, in most instances, since our last. The offerings on both bank and private account have been more liberal, and lenders have been less exacting, as to callaterals. There has been less urgency in the demand for aid, especially from speculative sources. The bulk of the week's business in call loans has been on the basis of from 7 per cent. currency to the same rate, gold, per annum. Toward the close, however, the advantage was even more decidedly in favor of responsible borrowers, whose wants were more promptly met within the range of 5@7 per cent. per annum, on Government and Railway collaterals. A fairly active inquiry has been noted for discount accommodation within the range of 8@12 per cent. per annum, for strictly choice to very good business paper.

The clearances of the banks averaged through he week 112¾ millions a day, and amounted in the aggregate, for the whole week, to $716,203,119 as against $642 834,842 the preceding week. The U. S. Sub-Treasury at this point enlarged its currency balance, 1⅜ millions and reduced its coin reserve nearly 1½ millions as the result of the week's business.

The U. S. Sub Treasury office last week received $4 894,734 of currency, and $4,999,194 of gold, the latter including $2,615,000 from customs; and disbursed $3,588,029 of currency and $6,443,860 of gold, the latter embracing $3,448,005 of coin interest.

The city banks, in their latest return, show a loss of $288,700 of legal tender notes with an increase of $3,061,000 of specie, and of $3,633,400 in their deposits, with a contraction of $2,168,100 in their loan and discount averages, and of $152,200 in their item of circulation. The city bank exchanges, last week, averaged 112¾ millions. The banks now hold $4,690,275 of specie and legal tender notes more than the 25 per cent. of their liabilities required by the National Banking Act.

The specie reserve of the city banks according to the latest return is $22,539,100, against $27,892,900 same time last year. The city bank deposits are now $207,441,500 against $214,824,000, week ending Jan. 13, 1873. The legal tender reserve amounts to $40,876,700, against $43,669,000 same time last year. The circulation now stands at $27,461,600 against $28,439 800 same time last year. The loans are now $275,552,900 against $275,253,200 at this date last year.

The coin reserve of the city banks is now about 22½ millions as against about 25¾ millions on the 20th of last July; the legal tender reserve is about 40⅞ millions against about 55⅛ millions on the statement of June 15th; and the deposits are now about 207½ millions, against 247½ millions on the 20th of July.

The cash balances in the Treasury Department at Washington on Monday were as follows: Coin, $64,041,361; currency, $8,599,925; Coin certificates are outstanding for $25,463,000.

Under the official programme of the Treasury Department for January, 1873, Government proposes to sell Gold, as follows: Thursday, January 23—One Million. Thursday, January, 30—One Million. And to buy U. S. Five Twenties, as follows: Wednesday, January 22—One Million. Wednesday 29—One Million.

Government revenues have been on a more liberal scale in the way of Customs, though quite moderate in the Excise form. The excises yielded within the week about two millions and thus far in the current fiscal year beginning with July 1, 1872, $64,629,908. The customs at the port of New York, for the week, were $2,568 442, and at the outports, about $800,000, more, in coin or coin certificates.

Gold has shown firmness, on a fairly active speculative, and an enlarged export movement. The Customs drain has also been on a more liberal scale. The range of the price during the week has been from 111¾@112⅛, and the closing quotation on Wednesday was 112¼ against 112⅛ of the preceding week. The specie outflow last week, was $2,635 233. The Gold Exchange Bank clearances have averaged about 38⅛ millions per day during the week.

The customs demand for Gold last week, averaged $435 833 a day. The arrivals of specie from Europe, Havana and other foreign ports in 1872 were $5,488,647 against $8,582,209 in 1871. The total customs revenue of the Government, in coin,

at this port, since July 1, has been $71,909,042 against $82,377,365 during the same time in 1871-2.

Government has disbursed through the U. S Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1872, $50,329,518, against $52,407,936 during the same time in 1871-2.

The export drain of specie was $2,695,233 last week, against $579,413 same week preceding year. The shipments since July 1, 1872, have been $38,321,262 against $23,239,936 during the same portion of 1871.

There has been rather less activity noted in foreign exchanges, especially toward the close, and rates have shown less firmness. Bankers' sixty day bills on London closed at 109⅛@109⅜; sight bills on London, at 110⅛@110⅜. The weeks exports of Domestic Produce have been to the currency value of $4,454,423.

Government securities have been generally in very good request at firm prices, the bulk of the week's dealings having been on investment account. Government bought in $197,600 (out of an aggregate offerings of only $218,600) Five-Twenties from 111 98@111 99 net.

U. S. sixes of 1881 closed on Wednesday of this week at 115¾@115⅞ U. S. Five-Twenties of 1862, 113¾@113⅞; U. S. Five-Twenties of 1864 at 114@114⅛; U. S. Five-Twenties of 1865, 115@115⅛; U. S. Five-Twenties of 1865 consolidated, 113¾@114; U. S. Five Twenties of 1867, 115@115⅛; U. S. Five-Twenties of 1868, 114⅞@115; U. S. Ten-forties at 111@111⅛; U. S. Fives of 1881 (Funding Loan) 111⅞@112⅜; Six per cent. currency Sixes from 113½@113¾.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Dec. 31.	Jan. 8.	Jan. 15.
Consols	91⅞	92⅜	92¼
U. S. 5-20s, 1865	92½	98¼	93¼
" 1867	92¼	93¼	93⅜
" 10-40s	89	89¼	89⅞
New Fives of 1881	89⅞	90⅛	90⅜
Erie	50⅜	50⅝	50

State bonds have been rather more sought after at steadier rates.

Railroad bonds of the more substantial class have met with a steadier sale at firm prices, chiefly to investment buyers. Central Pacific Sixes closed strong at from 99¼@99⅛, ex the January three per cent. (coin) coupon.

It was assumed on Wednesday that the New York Central Company will issue one-fourth or $10,000,000 of the great mortgage loan of $40,000,000 in the sterling form, £2,000,000, interest payable in London, at 6 per cent. Gold, in place of 7 per cent. currency.

Railway and Miscellaneous share property has been moderately active, but variable as to values, closing, however, more steadily, favored by the relaxation in the Money pressure.

There has been a restricted movement noted in the Metal line, but on a generally firm basis as to values. Ingot Copper has been quoted rather firmer on, however, a less active inquiry; sales 300,000 lbs., at 34¼c. cash, and 35c. for forward delivery; and 100 tons English, part to arrive, at at 30½c.@31c. Iron has been generally quiet; Scotch Pig held above the views of buyers. Lead and Zinc dull at old figures. Spelter quoted at 7c., gold, for foreign but in-active. Pig tin has been in light demand, with Straits quoted at 31½c. @31½c., gold, and English at 31c., gold. Of Tin Plates, sales were made of 1,000 boxes Charcoal, at $11 for assorted; 500 boxes Coke at $9 87½c., gold per box; market steady.

General business has been up to a fair average for the season. Breadstuffs closed stronger, as a rule, though Corn seemed weak. Provisions somewhat irregular. Naval Stores and Tobacco firmer. Petroleum lower. Middling upland cotton, left off on Wednesday at 20½ cts. per lb. The receipts at all the ports, since Sept.1, have been 1,927,679 bales, against 1,652,674 bales same time in the preceding year; exports 1,021,326 bales against 808,809 bales in the previous year; stock at the ports at latest dates, 506,550 bales against 506,460 bales same date 1871.

Foreign goods have been in comparatively moderate demand on a steady basis as to prices. The week's imports amounted to $5,348,106, including $1,562,478 of dry goods.

Ocean freights have shown more activity, but at irregular prices.

At the Live Stock Markets, Beeves have been in more demand at from 8@15; cts. Veals at 7@11 cts.; Sheep at from 5@8¼ cts.; Swine at 4¾@5 cts. per lb., all live weight. The week's receipts were 5,611 Beeves, 667 Veal Calves, 20,498 Sheep and Lambs, and 34,838 Swine.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

BANKING OFFICE OF FISK & HATCH.

No. 5 Nassau-st., New-York, Jan. 16, 1873.

The CHESAPEAKE and OHIO, the CENTRAL and WESTERN PACIFIC BONDS, all of which have been negotiated by us, we believe to be among the best and most desirable Investment Securities in the market, which in time must become very scarce; especially as the Government will probably, during the coming year, pay off, in gold, another large lot of FIVE-TWENTIES, and issue in their place FIVE PER CENT. BONDS.

The CHESAPEAKE and OHIO SIX PER CENT. GOLD BONDS, the total amount of which is only $15,000,000, are secured upon a property worth $35,000,000 to $40,000,000, and are fully equal in intrinsic value to the CENTRAL PACIFIC BONDS. They are issued in denominations of $100, $500, and $1,000, coupon or registered, and at their present market price, 86 and accrued interest, are very desirable.

The CENTRAL PACIFIC SIX PER CENT. GOLD BONDS are too well known to require description or commendation. Their total amount is $25,885,000; they have for a long time ranged in market price near or above par.

The WESTERN PACIFIC SIX PER CENT. GOLD BONDS amount to $2,785,000. This road is now consolidated with the CENTRAL PACIFIC, and the payment of its bonds, principal and interest, is assumed by them. Their market price to-day is 90 to 90¼. As they have recently been introduced on the Stock Exchange, we expect to see them rapidly rise to the price of CENTRAL PACIFICS, being substantially the same in character and value.

We buy and sell, as usual, Government Bonds, receive deposits, on which we allow interest, make collections, and conduct a general banking business in all its branches.

FISK & HATCH.

☞ The latest information from the tracklaying forces of the Chesapeake and Ohio, state that only 10 miles of track remained to be laid to unite the Eastern and Western divisions.

Philadelphia and Reading Railroad.

From the Report of this Company presented at the annual meeting held in Philadelphia on the 13th inst., we learn that the receipts for 1872 from all sources of business were $12,125,038 and the gross working expenses $8,063,542, showing net profits to the amount of $4,061,496, against net profits from same sources in 1871 of $5,006,940. The total tonnage of the company, including weight of passengers, aggregated 10,981,657. The result of the year's business is thus condensed: Receipts over the cost of working the road, $4,061,496 43; which is increased by interest, dividends, etc., to $5,755,123 53. From this is to be deducted interest on bonded debt, taxes on do., interest on bonds and mortgages, and sinking funds, loans, etc., amounting to $2,001,127 67—leaving a balance of $3,753,995 86. Out of this amount a dividend of five per cent., and State tax thereon, has been paid, leaving a balance of $1,958,003 66. There has been declared a dividend payable on the 24th inst., of five per cent., on the common and preferred stock, amounting with the State tax thereon to $1,797,399 17—leaving a reserve fund of $160,604 99. The report sets forth that the production of anthracite coal in 1872 was above 18,400,000 tons, an increase of 3,300,000 over the production of the year preceding. The company own and lease 1,385⅓ miles of single track. The net profits of six steam colliers owned by the company were $117,641. A plan has been prepared for a new fleet of steam colliers, varying from 600 to 1,200 tons burthen, and a ship yard for repairing these vessels will be established at Port Richmond. The business of the Germantown and Norristown Railroad shows a large increase on any previous year. The company's express business promises well. The president anticipates a very large increase in the trade, and states that the road could ship two hundred thousand tons of coal per week. He also estimates that the average annual increase of the business of the company would in the future be 9½ per cent. of the consumption of the previous year. The leasing of the Catawissa Railroad was approved, and at the election subsequently held the old board and other officers were re-elected. We shall publish the report in full in our next issue.

☞ The earnings of the North Pennsylvania Railroad for the year ending October 31, 1872, were $1,336,938, and the expenses $732,829—making the net earnings $604,109, and leaving a balance, after deducting $346,624 on account of interest, of $257,484, equal to nearly 7⅛ per cent. on the stock. The mortgage debt increased $99,000. To provide for the maturing loans of the company, &c., a general mortgage for six millions of dollars has been executed to the "Fidelity," as trustees, under which 7 per cent. bonds to the amount of $1,915,000 will be issued.

☞ The earnings of the Central Pacific Railroad for the month of December, 1872, were $1,007,125, against $672,358 for December, 1871—an increase of $334,767. For the year ending December 31, 1872, the earnings were $12,900,126, against $9,467,072 for the year 1871—an increase of $3,433,054.

A SUPERIOR PRINTING

Telegraph Instrument,

FOR PRIVATE AND SHORT LINES.

The undersigned is now prepared to supply the improved and superior

PRINTING TELEGRAPH INSTRUMENTS

manufactured under the patent of Mr. J. E. SELDEN. This instrument has already been extensively introduced, and has given complete satisfaction to all who have adopted and used it. It is SIMPLE, RELIABLE, and not liable to get out of order; can be operated by any person of ordinary intelligence after a few minutes' instruction and practice.

PRIVATE LINES.

constructed in the best and most substantial manner, and on reasonable terms.

Favorable arrangements will be made with line constructors, telegraph employes, &c., for the introduction of the Printer.

For further particulars, terms, &c., apply to

Merchants' M'f'g and Construction Co,

Telegraph Contractors,

No. 50 BROAD STREET, (Rooms 12, 13, 14.)

P. O. BOX 6965, NEW YORK.

The following parties have this instrument in use, viz:

J. C. Hoe & Co., 10 Liberty Place, New York.
Arnold, Constable & Co., Broadway cor. 19th street, New York.
Enoch Morgan's Sons, 20 Park Place, New York.
Garner & Co., cor. Worth and Church sts, New York.
Thomson & Clark, 9 South William street, New York.
Moore, Jenkins & Co., cor. W. Broadway and Franklin street, New York.
P. Dater & Co., 112 Wall street, New York.
Liverpool and London and Globe Ins. Co., Broadway cor. Park Place, New York.
Ætna Insurance Co., Broadway cor. Cortlandt street, New York.
New York Gas Light Co., 157 and 159 Hester street, New York.
Daniel W. Richards & Co., 178 Pearl street, New York.
Wm. D. Andrews & Brother, 414 Water st., New York.
Howard & Morse, 45 Fulton street, New York.
John J. McCrum, cor. Elm & Walker streets, New York.
James L. Libby, 80 Centre street, New York.
Newman & Capron, cor. B'way & 38th street, New York.
American St. Boat Co., Providence, R. I.
Willard Asylum for Insane, Ovid, Seneca Co., N. Y.
Lake Erie Iron Co., Cleveland, Ohio.
Swifts Iron and Steel Works, Cincinnati, Ohio.
Phillips & Jordan, Cincinnati, Ohio.
A. H. Andrews & Co., cor. State and Monroe streets, Chicago, Ills.
Charlottsville Woolen Mills, Charlottsville, Virginia.
And various others.

The **First Premium** (A Silver Medal) was awarded this instrument at the Cincinnati Industrial Exposition for 1872, as being the **"Best Telegraphic Instrument for private use."**

☞ The North Pennsylvania Railroad Company announces a dividend of 5 per cent. payable in scrip bearing no interest, and convertible into the capital stock of the company when presented in sums of not less than fifty dollars.

☞ The earnings of the Kansas Pacific Railway for the fourth week of December, 1872, were $54,099 68. For the month of December the earnings were $223,340 82, an increase over December, 1871, of $12,143 54.

☞ The Louisville, New Albany and Chicago Railroad, running from New Albany, Ind., to Michigan City, was sold under a decree of the United States Court on the 27th ult. George L. Schuyler of New York was the purchaser for the first mortgage bondholders.

☞ The earnings of the Erie Railway for the week ending January 7, were $288,914, and since November 1, $3,385,903, against $3,195,891 for the corresponding period of the previous year—an increase of $190,012.

Journal of Railroad Law.

RAILROAD COMPANIES—EFFECT OF PRINTED NOTICE ON FACE OF TICKET—WIFE'S BAGGAGE.

The recent case of Rawson *vs.* Pennsylvania Railroad Company, (48 N. Y, 212,) was an action brought to recover the alleged value of two trunks, containing clothing and jewelry to the amount of $3,847, and lost on the Railroad of the defendant in September, 1864.

The plaintiff was returning from Massillon, Ohio, to New York, and bought at Massillon a through ticket to New York, which contained the following notice on its face:

"This ticket entitles the holder to not over 80 lbs. baggage free, and not at rate exceeding in value 100 dollars, unless notice is given and an extra amount paid, at double first-class freight rates. No road represented by either of these tickets is responsible for the passenger or baggage while upon any other road.

(Signed) H. R. Payson,
General passenger agent.

Nothing was paid for extra baggage. The jury found a verdict for the full amount of the property lost.

The following is the opinion of the court delivered by—

Earl, J.—The first question to be considered is whether the property destroyed belonged to the plaintiff in such a sense that she can maintain this action, it consisted of her wearing apparel and personal ornaments and constituted her paraphernalia. A portion of them was given to her by her husband and as to such portion it is claimed she had no such property as will sustain a recovery in her name. At common law the wife's paraphernalia during coverture ordinarily belong to the husband and he could dispose of them; but he could not dispose of them by will; and if the wife survived him she could claim them against all persons except her husband's creditors. And this common law rule is substantially embodied in our statutes except that the wife's paraphernalia are secured to her even as against creditors. (Reeves Domestic Relations 37.)

For an injury to or conversion of the wife's paraphernalia during coverture, the husband was at common law the proper party to sue, and this rule has not been changed by our statutes except so far as the wife can in any case claim the paraphernalia as her property.

The property was given to the wife by her husband and her son. As to so much as was given to her by her son, no question is made; but it is claimed that the gift from her husband was invalid and hence that the property remained his. Prior to the recent legislation in this state in reference to the rights of married women, gifts of personal property from husband to wife would be upheld in equity, though void at common law and such gifts could be impeached only by creditors (Graham *vs.* Londonderry 3 Atk. 393). In equity the property given would be treated as the wife's separate estate and she would be protected in its enjoyment and possession even against the interference of her husband. This estate under the statutes of 1848, 1849, 1860, 1862, in reference to the property of married women, if not absolutely converted into a legal estate, is clothed with all the incidents of a legal estate and she is the proper person to sue and to be sued in reference thereto. Hence I cannot doubt that this action was properly brought in the name of plaintiff.

The only other question to be considered is, whether the matter printed upon the face of the railroad ticket bought by the plaintiff at Massillon limited the liability of the defendant; and that it did not is now too well settled to admit of dispute, (Blossom *vs.* Dodd 43 N. Y. 264.) The words thus printed do not purport to embody the contract between the parties, they are a mere notice as to the terms upon which a passenger's baggage will be carried and are entitled to no more force because they are printed upon the face of the ticket then if they had been printed on the back of the ticket or on a separate piece of paper posted up in the ticket office; and hence this case is clearly within the rule that a carrier cannot limit his liability by notice, but can do so only by express contract.

It must however be admitted that if the railroad agent had called plaintiff's attention to this language when he sold the ticket and took her money, or if it had been shown that she knew of this language when she paid her money and took the ticket the law would presume in the absence of objection on her part that she assented to the terms therein expressed.

But here she testified that she did not read this language, and there is no proof that she received the ticket under such circumstances that the law will presume that she must have known and understood the language and assented to the terms. It would be unreasonable to presume that a passenger when he buys a railroad ticket at a ticket office, stops to read the language printed upon it, and it would be equally unreasonable to hold that a passenger must take notice that the language upon his ticket contains any contract or in any way limits the carriers' common law liability.

A ticket does not generally contain any contract and is not intended to. It is a mere token or voucher adopted for convenience to show that the passenger has paid his fare from one place to another.

The contract between these parties was made when the plaintiff bought her ticket and the rights and duties of the parties were then determined. Hence even if the plaintiff had read what appears upon her ticket after she had entered upon her journey it would have made no difference with her rights. She was not then obliged to submit to a contract which she never made, or leave the train and demand her baggage.

I have therefore reached the conclusion that the judgment should be affirmed with costs.

Judgment affirmed.

☞ The earnings of the Union Pacific Railroad in November, 1872, were $915,727, the expenses $362,343, and the net earnings $553,884. In November, 1871, the earnings were $708,171, the expenses $284,993, and the net earnings $423,148—showing an increase in gross earnings of $207,586, in expenses of $77,350, and in net earnings of $130,236. For eleven months ending November 30, 1872, the earnings were $8,134,754, the expenses $4,448,750, and the net earnings $3,686,004, an increase in gross earnings over the corresponding period of the previous year of $1,083,004, and in expenses of $1,165,597, making a decrease in the net earnings of $82,593.

New York, New Haven and Hartford R. R.

The first annual meeting of the stockholders of this company, under the consolidation arrangement, was held at New Haven on the 8th inst. A motion was made to proceed with the election of a new board of directors for the ensuing year, when Mr. Goodwin of East Hartford objected to the motion until the report had been acted upon, and as he had found in it much which he deemed unsatisfactory, he had prepared a resolution calling upon the directors to make another report on the fifth day of March next, setting forth in detail all the money that had been expended, and for what purpose; the receipts of the company, how much money had been paid to the Harlem Railroad for the use of their tracks, and other information of like character; closing with an intimation that a large amount of receipts had not been properly accounted for; that there had been some transactions between this company and the Harlem Railroad Company which had been covered up, and that Commodore Vanderbilt had too much to say and control in the affairs of this railroad.

Mr. Henry C. Robinson of Hartford suggested that instead of taking the trouble to prepare a new report, and the expense of printing it, and keeping Mr. Goodwin in a state of anxiety until the fifth day of March, the president (Mr. Bishop) should at once make a verbal explanation on the various points alluded to.

Mr. Bishop said that he did not profess to be a book-keeper and know much about keeping books, but the gentleman employed to attend to that duty, who did understand it most thoroughly, had furnished the figures upon which the report was based; and the accounts had been examined and and audited by another gentlemen who is an expert in those matters. With regard to omission of the amount paid to the Harlem Railroad Company for the use of their tracks, he would say that it made no difference in the accounts whether the amount paid to the Harlem Railroad Company was mentioned or not. In one case the amount of receipts would have to include the amount paid or to be paid to the Harlem Company, and in the other the net amount after deducting the amount paid. In reference to the rate allowed to the Harlem Railroad Company for the privilege of running over their tracks, he said the present board of directors had nothing to do—whether it it was too much or to little, the present management were not responsible. In 1848 a perpetual contract was entered into by the New Haven and Harlem Railroad companies by which it was provided that this company should use the Harlem Railroad track from the junction to the city at a certain rate, and that the rate should be adjusted every five years by arbitrators. The Harlem Railroad is the only entrance to the city of New York—that the Harlem Railroad Company was about to expend about $4,000,000 in sinking their tracks between the Harlem River and the new depot, and this road could not gain admission to the city at the present time for less than $20,000,000, and I see no way of getting rid of the payment to the Harlem Railroad of their portion of the receipts.

Mr. Burrell, in reply to some remarks of Mr. Goodwin as to a discrepancy in the reports of the New York and New Haven Railroad and the New Haven and Hartford roads, in regard to the financial relations prior to consolidation and the present time, said that for many years the two companies were engaged in a litigation; that the New Haven and Hartford Company claimed about $300,000 from the New York and New Haven Railroad Company to balance their accounts, which, however, the latter would not admit. On consolidating the two companies, the claim was no longer pressed.

Dr. Phelps moved that Mr. Goodwin's resolution be laid upon the table, which was carried with one dissenting voice.

The following gentlemen were then elected directors for the ensuing year:—William D. Bishop, William P. Burrall, Wilson G. Hunt, C. Vander-

bilt, George N. Miller, Chester W. Chapin, Horace F. Clark, A. R. Van Ness, Henry C. Robinson, F. H. Trowbridge, E. C. Read, Nathaniel Wheeler and C. M. Pond. Messrs. Bishop, Hunt, Miller, Clark, Van Ness, Trowbridge and Wheeler are of the old New York and New Haven board, and the others are of the old Hartford and New Haven road.

Messrs. William White of New Haven, Charles Boswell of West Hartford and William M. Vermilyea were appointed a board of auditors for the ensuing year.

A motion to approve of the report of the board of directors being made, Mr. Goodwin moved to amend by adding the word not, or recommitting the report to the directors, which was unanimously voted down and the report approved.

Mr. Goodwin then attempted to show that he was not an enemy of the company, whereupon Mr. Wheeler denounced him very severely, and charged him with making false statements in the legislature.

Mr. E. C. Robinson, chief clerk of the company, assured Mr. Goodwin that there was no discrepancy in the accounts or deficiency anywhere, except in his own (Goodwin's) head. The meeting then adjourned.

Commerce of Philadelphia.

We present this morning our usual statement of the foreign commerce of this port in domestic exports for the past year. It will be observed that the trade has largely increased, and is as varied in its character and distribution as ever. The total exports reach $20 484,803; but this valuation does not indicate the increase, for while the valuation of the petroleum exported in 1872 was $12,569,779, against a valuation of $13,257,895 in 1871, the quantity shipped was 56,356,068 gallons in 1872, against 55,901,590 gallons in 1871, or an increase of quantity and a decrease of value, owing to the lower price of the article in 1872 and the same phenomenon is exhibited in breadstuffs. Adding to this the foreign imports, previously published, amounting in 1872 to $26,824,333, we have as the total foreign commerce of Philadelphia, in 1872, the following:

Domestic exports	$20,484,803
Foreign imports	26,824,333
Total	$47,309,186

This, for a port said to have lost foreign commerce, is, we take it, pretty fair. We shall give a better account of ourselves in 1873. We have published the molasses imports of the five leading ports from Cuba for 1872, but they are too important to omit in this notice. Philadelphia received from Cuba 114,783 hogsheads of molasses, while all the other ports together only received 139,772 hogshead. It is a curious item that New York received only 76,576 hogsheads. Our increase also is quite gratifying, being 27,248 hogsheads, while New York shows a decrease. Philadelphia is, in fact, steadily monopolizing the molasses trade. Our exports to Cuba during the year amounted to $1,859,304.—*Philadelphia North American.*

Locomotives and Cars for Sale.

New Locomotives of best build.
Second hand Do., various gauge, 10@40 Tons, now running, in good order.
New and Second hand Passenger and Freight Cars. Also Steel and Iron Rails, Fastenings, &c.

DAVIDGE & WHEELER,
General Railway Business,
78½ Pine St., New York.

Litchfield, Conn.
Jan. 6th, 1873.

SECOND MORTGAGE
7 PER CENT. BONDS
SOUTH CAROLINA
RAILROAD COMPANY.

The South Carolina Railroad Company having created a Second Mortgage, amounting to

THREE MILLION DOLLARS,

for the purpose of retiring all its floating obligations and arranging its non-mortgage bonds, and the bonds authorized to be issued under said mortgage having been duly executed, they are now offered for sale at this office at

75 PER CENT.

Payment will be accepted as follows, viz:

Two-Thirds of the purchase money will be received in the 7 per cent. non-mortgage bonds of the Company at 75 per cent.; balance in cash.

The value of this security now offered entitles it to VERY HIGH CONSIDERATION. The mortgage covers the entire property of the Company, embracing 242 miles of first-class road abundantly equipped with locomotives and cars in fine condition, and all the appurtenances of a first-class Railroad - - - the first mortgage being only $3,000,000.

The business of the Road for the present year is estimated at about

$1,400,000

gross, and its net revenue at over $550,000. Its present prospects furnish ample ground for very satisfactory anticipations of future earnings.

The Bonds bear date October 1st, and have attached coupons for 7 per cent. per annum interest, payable in April and October, in the City of New York.

After the 31st December inst. the price of the bonds will be 75 per cent., and accrued interest,

J. T. WELSMAN,
CHARLESTON, S. C. Dec. 6. Treasurer.

The undersigned agent for the sale and exchange of the above Bonds, can be found at the Fourth National Bank, in this city.

JOHN C. COCHRAN.
NEW YORK, Dec. 18, 1872.

Notice to Contractors.

ENGINEER'S OFFICE BALTIMORE AND OHIO RAILROAD.

BALTIMORE, MD., January 10, 1873.

PROPOSALS WILL BE RECEIVED UNTIL 1st February next, at Camden Station, Baltimore, Defiance, Ohio, and Laporte, Indiana, for the GRADUATION, MASONRY and CROSSTIES of the Baltimore, Pittsburg and Chicago Railway, from Defiance to Walkerton Station, Indiana, on the Indianapolis, Peru and Chicago Railway, 120 sections, of one mile each.

Plans, profiles and specifications can be seen at Defiance for the line between Defiance and Syracuse, 73 miles, and at Laporte for the line between Syracuse and Walkertown, 47 miles.

Proposals for Crossties will state the price for each kind of timber, and number of each kind proposed for.

Payments monthly in cash, retaining 20 per cent. as security for completion.

The company retains the right to reject any and all proposals. JAMES L. RANDOLPH,
Chief Engineer
Baltimore and Ohio Railroad.

ERIE RAILWAY COMPANY.

VICE-PRESIDENT'S OFFICE,
(P. O. Box 839.) NEW YORK, January 9, 1873.

To Bridge Builders.

THE ERIE RAILWAY COMPANY PROPOSE, as they renew the bridges upon their Road, to substitute iron for wood. They have a large number of bridges in spans varying from 20 to 200 feet.

With a view to determining the best plan to adopt, they invite you to make a proposal, based upon plans and specifications, to be furnished by you for bridges of various spans from 20 feet upward, with your price for the same.

Let your price be predicated upon the fixed price of iron and steel, to be varied as those materials may advance or decline in price.

Yours, &c.,
A. S. DIVEN,
Vice-President.

A FIRST CLASS ORNAMENTAL PAINTER on Cars, Locomotives or Head Linings, wishes a permanent situation. Address

CHARLES DOEHLER,
Jersey City Heights, N. J.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Jan. 6, 1873.

A DIVIDEND OF FIVE PER CENT. HAS been declared by this Company, payable on the 1st day of February next, to the holders of full paid shares, registered at the close of the 16th day of January instant, after which and until the 5th day of February next, the transfer-books will be closed.

L. V. F. RANDOLPH, Assistant Treasurer.

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board, without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

Manufactured and for Sale by **WILLIAM & HENRY HAND,**
PLAINFIELD. N. J.

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Keokuk and Kansas City Railroad.

At the annual meeting of the stockholders of the Missouri and Mississippi Railroad Company held in Macon, Mo., on the 7th of January, the name of the railroad was changed to the Keokuk and Kansas City Railway, and the following directors elected for two years, viz: James W. Lewis, Isaac Hays, F. A. Jones, Geo. W. Fulton, A. S. Tinsman, J. C. Noyes, John W. Morse, A. C. Vandewater and John Foggitt. The board was organized by the election of the following officers: James W. Lewis, president, A. C. Vandewater, vice-president and general manager; Albert Blair, secretary; Henry S. Glaze, treasurer, and John Foggitt, general superintendent. Fifty-three miles of the road are ready for the iron, and vigorous preparations are being made by the Western Construction company to finish the road from Keokuk to Glasgow (about 120 miles) during the present season. An iron bridge is to be built across the Missouri River at Glasgow, and the road is to be finished from Keokuk to Kansas City by the 1st of January, 1874.

☞ The York River Railroad has been reported to the Legislature of Virginia by the board of public works as insolvent.

To Investors.

To those who wish to REINVEST COUPONS OR DIVIDENDS, and those who wish to INCREASE THEIR INCOME from means already invested in other less profitable securities, we recommend the Seven-Thirty Gold Bonds of the Northern Pacific Railroad Company as well secured and unusually productive.

The bonds are always convertible at Ten per cent. premium (**1.10**) into the Company's Lands at Market Prices. The rate of interest (seven and three-tenths per cent. gold) is equal now to about 8¼ currency—yielding an income more than one-third greater than U. S. **5-20s**. Gold Checks for the semi-annual interest on the Registered Bonds are mailed to the Post-Office address of the owner. All marketable stocks and bonds are received in exchange for Northern Pacifics ON MOST FAVORABLE TERMS.

☞ At the annual meeting of the stockholders of the Norwich and Worcester Railroad Company, held in Worcester on the 8th inst., the following gentlemen were elected directors: A. F. Smith and John F. Slater of Norwich; F. H. Dewey, George W. Gill, Charles W. Smith and Edwin L. Davis of Worcester; Wm. F. Weld and B. F. Stevens of Boston, and Robert Bayard of New York. At a subsequent meeting of the directors Mr. A. F. Smith was re-elected president.

☞ The Albany *Evening Journal* says that the Delaware and Hudson Canal Company are about purchasing that portion of the Whitehall and Plattsburg road between Port Henry and Ticonderoga now held by the Vermont Central.

Vera Cruz and Mexico Railway.

It was fully anticipated that this important undertaking, which has been in course of construction for a period of eight years, would be opened throughout its entire length from Vera Cruz to Mexico, for public traffic, on New Year's Day; and from the most recent despatches which have been received in this country, there is every reasonable probability for hoping that this anticipation was completely realised. The shareholders are to be congratulated on the satisfactory progress which has been made by the contractor, who has had almost insurmountable difficulties to contend with on many portions of the line, particularly that crossing the Metlac Barranca, necessitating stupendous works in the shape of viaducts, embankments, and tunnels. On account of the disaffected state of Mexico during the first months of 1872 the receipts on the two sections of the railway which have been working for some time past show a small diminution. The gross receipts on the Puebla section, from Mexico to Puebla, a distance of 116 miles, for the half-year ending 30th June were 61,823*l.*, against 66,955*l.* in the corresponding period of 1871, and the net receipts for the same period respectively were 23,356*l.* and 34,600*l.*, the proportion of working expenses being 61.91 per cent., as against 48.32 per cent. in 1871. For the subsequent three months, (July to September, 1872, inclusive) the gross receipts were 33,808*l.*, against 33,920*l.* in 1871, and the net receipts 15,422*l.* against 16,488*l.* On the Vera Cruz section from Vera Cruz to Fortin, a distance of 70 miles, (Atoyac to Fortin, 17 miles, opened August 22, 1871,) the gross receipts were 37,306*l.*, as against 29,285*l.* in the corresponding six months of 1871; but the net receipts were only 3,100*l.* in the 1872 half-year, and 5,791*l.* in 1871, the proportion of working expenses being 91.68 per cent. and 80.22 per cent. respectively. This exceedingly high ratio of working expenses to receipts has gradually and rapidly diminished since the period embraced in the accounts, the election of Senor Lerdo de Tejada to the Presidency of the State having given confidence, and tended to bring about a more tranquil state of affairs in the country. There seems every reason to anticipate a bright future for this distant undertaking. Judging by the earnings on the fragmentary sections of the line, it may naturally be expected that when the whole length of railway from Vera Cruz to the capital is in good working order, the net receipts will be sufficient to leave a satisfactory margin of profit to reward the shareholders for their enterprise, which is in some respects perfectly novel, specially as regards the almost super-human works which have been carried out.—*London Railway Times.*

Philadelphia and Reading Railroad.

At the Annual Meeting of the Stockholders of this Company, held in Philadelphia on the 13th inst., the following Report was presented:

To the Stockholders of the Philadelphia and Reading Railroad Company:

The Managers submit the following Report of the Receipts and Expenditures for the year ending November 30, 1872, together with the Treasurer's General Balance Sheet, exhibiting the financial condition of the Company at that date.

The following tabular statement in detail, for each branch of traffic, shows the comparative results of the year's business:

1871.	
Travel, 719,345 through passengers...	$1,641,395
Mdse., 2,306 234 6-20 tons.....	2,306,648
Coal, 4,684,450 4-20 "	8,287,293
Mail	36,678
Miscellaneous.....	290,884
Gross receipts.....	$12,562,843
Gross expenses.....	7,555,903
Net profits.....	$5,006,940

1872.	
Travel, 791,478 through passengers...	$1,786,962
Mdse., 2,891,399 11-20 tons.....	2,688,080
Coal, 4,866,520 19-20 "	7,518,115
Mail	89,918
Miscellaneous.....	97,018
Gross receipts.....	$12,125,088
Gross expenses.....	8,063,542
Net profits.....	$4,061,496

	Per cent.	
Travel..... Increase,	$145,567—	8 9-10
Merchandise..... Increase,	381,387—	16 5-10
Coal. ..... Decrease,	774 178—	9 3-10
Mail..... Increase,	3,235—	8 8-10
Miscellaneous ..... Decrease,	193,816—	66 6-10
Gross receipts ..... Decrease,	$487,805—	3 5-10
Gross expenses ..... Increase,	507,639—	6 7-10
Net profits..... Decrease,	$945,444—	18 9 10

Gross expenses, including renewal fund, rents of lateral roads, taxes, &c., in the year 1871 were 60 1-10 per cent. of gross receipts.

Year 1872, were 66 5-10 per cent. of gross receipts.

The receipts and expenses, per passenger and per ton, including renewal fund, rents of laterals, taxes, interest, &c., and based upon coal tonnage of Main Line only, have been as follows:

1871.			
Per passenger. Cost,	$1 68 5-10	Rec'd,	$2 28
Merchandise, per ton.	" 65 9-10	"	1 00
Coal.....	" 1 21 4-10	"	1 80 8-10

1872.			
Per passenger. Cost,	$1 78 2-10	Rec'd,	$2 25 8-10
Merchandise, per ton.	" 68 8-10	"	93
Coal.....	" 1 86 4-10	"	1 54 4-10

Including renewal fund, rents of laterals, taxes, interest, &c., and based upon entire coal tonnage of the company, on Main Line and on the branches or laterals:

1871.			
Per passenger. Cost,	$1 68 5-10	Rec'd,	$2 28
Merchandise, per ton	" 68 9-10	"	1 00
Coal	" 92 7-10	"	1 38 1-10

1872.			
Per passenger. Cost,	$1 78 2-10	Rec'd,	$2
Merchandise, per ton	" 65 8-10	"	93
Coal	" 187 8-10	"	1 21 5-10

The result of the year's business, as condensed from transportation and income account, may be stated thus:

Receipts over cost of working the road.....		$4,061,496 43
Add balance of interest account, including interest and dividends on stocks and bonds held by the company, receipts from the Philadelphia and Reading Coal and Iron Company, profit on steam colliers, &c., first deducting drawbacks on traffic of 1871, and loss upon the business of the Schuylkill and Susquehanna Canals for 1872		846,478 47
		$4,908,974 90
Amount to credit of reserved fund, 1871.	$789,555 90	
Amount of United States tax on dividend, Jan., 1872, deducted from income in last report, but not paid	57,592 78	
		847,148 68
		$5,755,123 58
From which deduct—		
Int. on bonded debt...	$1,694,488 00	
Taxes on interest on bonded debt	82,858 44	
	$1,777,346 44	
Interest on bonds and mortgages	108,613 44	
Debit balance of renewal fund.....	90,167 79	
Sinking funds, loans, 1847-'77.....	25,000 00	
		2,001,127 67
		$3,753,995 86
Out of which has been paid, in July, 1872, five per cent. dividend on $34,209,375 28.....	$1,710,468 76	
State tax on do.....	85,523 44	
		1,795,992 20
		$1,958,008 66
There has been declared a dividend, payable in cash on the 24th of January, 1873, of five per cent. on the preferred and common stock, $34,236,175 28	$1,711,808 76	
State tax on do.....	85,590 41	
		1,797,399 17
Balance of reserve fund.....		$160,604 49

Although the amount of traffic in tons and number of passengers carried during the past year is greater than that of any previous year, yet the gross receipts derived therefrom are less than those realized from the smaller business of the preceding year, and the receipts per ton for coal transported in 1872 are less than those of any year since 1862. Had the company been able to maintain the same rates for tolls and transportation of coal as were either in force during 1871, or realized as the average charges of the past ten years, the profits for the year just closed would have been far in excess of those of any previous year. The receipts from transportation of coal, based upon the tonnage of the main line in 1872, were $1 54 4-10 cents per ton, against $1 80 8-10 cents per ton for 1871, and $1 94 cents per ton for the average of the previous ten years. The cause of these exceptionally low rates will be understood and appreciated by a reference to the very peculiar features of the coal trade during the past season. For the first time for several years the business of mining coal in the anthracite coal regions of Pennsylvania has been prosecuted continuously throughout the year without the interruption of strikes.

As the coal markets of the country had been fully supplied for several preceding years by the production of about seven months' work per annum, the result of twelve months' steady work during 1872 was to produce a quantity so largely in excess of that of the previous year that it was with great difficulty a market could be obtained for it; and notwithstanding the very prosperous condition of the iron and other manufacturing industries that are large consumers of coal, and the very high prices of fuel in all foreign markets, the price of anthracite coal in New York during the last year fell to a lower point than it had reached for many years. In consequence of these low rates and the great competition in the eastern markets, the managers were obliged to reduce the rates of freight and transportation upon coal to a sum low enough to enable the coal operators of the Schuylkill and Mahanoy regions to enter the eastern markets in competition with the large coal mining and transporting companies of New York.

The production of anthracite coal in Pennsylvania in 1872 was about 18,400,000 tons, being an increase of about 3,300,000 tons over that of the preceding year. The following table will show the annual aggregate production of anthracite coal in Pennsylvania since the beginning of the trade, and the yearly increase or decrease, and will be valuable for future reference:

Year.	Total tonnage for the year.	Increase or decrease over the previous year, in tons.	Per centage of increase or decrease over previous year.

The largely increased production of last season was all disposed of, however, the market was better during the last two months than at any other period of the year, and it is believed that the stock of coal on hand at the close of the shipping season of 1872 was no larger than that held at the close of the previous year. The consumption of 1872 may, therefore, be safely set down at more than 3,000,000 of tons over that of 1871. In making an estimate of the consumption of the season of 1873, the following facts are relied upon to warrant the belief that the increase of demand above that of 1872 will be very nearly as great as was that of last season over the previous year.

First. The average annual increase during the past ten years has been about nine-and-a half per cent. of the consumption of the previous year.

Second. The great activity of the iron trade during the last twelve months has induced the erection of a larger number of new blast furnaces than were ever before put up in a single year. Nearly all of these new furnaces, which were in process of erection during the past year, will go into blast early in the coming season. In the regions dependent upon the roads and canals of the company for a supply of fuel there were, during the last season, sixteen new stacks being built, but five of which are yet in blast. Throughout all the iron districts of the county new furnaces are being erected, and it is believed that at least three quarters of a million of tons of coal will be required during the present year to supply the demand of new iron-manufacturing establishments alone.

Third. The extension of new railroads into the interior of the country, especially to the Lake ports, which has been prosecuted with great activity during the last two or three years, has opened new markets for anthracite coal by introducing it into regions of country hitherto inaccessible, and where wood had been chiefly relied upon for fuel. The statistics of the trade show that for the ordinary purposes of domestic life it requires one ton of coal per annum for each member of the community using it as a fuel, but where the centres of manufacturing industry, or Lake shipping ports are opened by new lines of railway, the consumption per inhabitant generally exceeds that quantity.

Fourth. The very high prices of coal in England will, it is believed, induce the owners of steamships plying between Europe and the United States to draw a larger proportion of the supply of coal for their vessels from America than they have heretofore obtained.

Fifth. The exceptionally low price in America during the past year has introduced coal in competion with wood into districts where it never had been sent before, and it is well known that when the applicances for burning anthracite coal are once introduced, and the advantages of that fuel once understood, it is never displaced by any other.

If the above facts justify the belief that nearly 3,000,000 of tons more coal will be required in 1873 than were sent to market in 1872, and if by twelve months of steady work during 1872 the increased production of coal over that of seven months' work during the previous year was only about 3,300,000 tons, it is not unreasonable to suppose that it will be difficult to produce this year any quantity so greatly in excess of the demand as to depress the market to any considerable degree. Anticipating, therefore, a very large increase of trade, the Managers have thought it wise to provide in time for its transportation, and it will be seen by reference to the statement of items added to capital account, that 1,000 eight-wheeled coal cars and 472 eight-wheeled freight and passenger cars have been built at the car shops of the company and added to its rolling stock during the year; and should the demand require it, the company will be in a position to transport from 180,000 to 200,000 tons of coal per week during the coming season.

The aggregate amount of traffic transported over the railroads of the company during the year is as follows:

No. of passengers carried	6,383,991
No. of tons of coal of 2,240 pounds carried	6,185,434
No. of tons of merchandise of 2,000 pounds carried	2,891,400
No. of tons of company's materials	497,571
Total tonnage of the company (of 2,000 lbs.), including weight of passengers and company's materials	10,981,657

From the above it will be seen that the tonnage of the company has now reached so large an amount, that an additional charge of but one-twentieth part of a cent. per ton per mile on the tonnage transported would produce a sum exceeding two per cent. upon the entire capital stock of the company.

It is a very gratifying fact that the result of the efforts of the company to protect and encourage its own local trade has become so great that all the manufacturing industries along the line of its road are in a prosperous condition, and a very large proportion of all of its increased business has been derived from its local traffic. The increase in the coal trade along the line of its road between Pottsville and Philadelphia, excluding both of the places named, is thus exhibited in the following table:

SHIPMENTS BY RAILROAD DISTRIBUTED BETWEEN POTTSVILLE AND PHILADELPHIA, EXCLUDING EACH OF THE PLACES NAMED.

Year.	Tons.
1868	643,188
1869	838,178
1870	854,845
1871	1,079,463
1872	1,503,782

During the same period the shipments by railroad to the city of Philadelphia, excluding the deliveries to Port Richmond for shipment, have been as follows:

Year.	Tons.
1868	763,113
1869	816,168
1870	793,033
1871	922,748
1872	1,067,215

The immediate result of the protection and development of local manufacturing industries has been to increase very largely the revenues of the company from the passenger and merchandise traffic, from which sources alone the receipts of the company during the last year amounted to $4,474,992. The following table shows the growth of the merchandise and passenger business of the company for the last twenty years—the extraordinary increase in the passenger receipts in 1871 being due, to a very large extent, to the business of the Germantown and Norristown branch, which was not held by the company previous to that year:

Year.	Rec'pts from Travel.	Rec'pts from Mdse.
1852	$168,430	$138,964
1853	226,763	180,612
1854	272,868	231,626
1855	301,952	326,851
1856	288,427	348,699
1857	287,584	329,986
1858	272,679	335,915
1859	318,846	474,888
1860	333,359	599,620
1861	338,905	406,321
1862	403,565	523,416
1863	566,520	673,143
1864	909,882	953,776
1865	1,065,847	1,165,277
1866	1,026,217	1,421,539
1867	1,005,647	1,525,551
1868	987,606	1,415,723
1869	1,184,006	1 579 623
1870	1,205,589	1,690,444
1871	1,641,395	2,306,643
1872	1,786,932	2,688,080

The managers have cause to congratulate the stockholders that the very large number of passengers transported in 1872, viz: 6,383,991, were carried without any serious accident, that was due directly or indirectly to the negligence of the company, or the carelessness of its employes. This gratifying fact is due to the carefulness and skill of the company's employes, to the admirable signal and police system enforced for the prevention of accidents, and to the fact that the company, in the manufacture of its own railroad iron, and the erection of its own locomotives and cars of all descriptions, secures the best workmanship, and uses the best material that can be obtained for the purpose, having in all cases more regard to the quality than the cost of the manufactured article.

The Perkiomen Railroad has been opened for business to Green lane. An additional section of seven miles is now under contract, and it is the design of the company to extend the road rapidly during the coming season, so as to make the connection with the East Pennsylvania Railroad at Emaus as soon as possible.

The number of miles of single track railroad now owned, leased or controlled by the company is 1,385.3. An analysis of this mileage, and a full statement of all the permanent improvements made by the company will be found in the accompanying report of the Chief Engineer; and the report of the General Superintendent, hereto annexed, will exhibit in more detail than can here be conveniently given, the working of the several lines of railway now under the control of the company.

The production of rails at the company's rolling mill for the year reached 20,043 tons, being the largest quantity ever made by the company in a single year. The excellent character of these rails is attested by the following table, which shows the product of each year and the quantity of every year's production, removed from the track:

Product,	YEARS. 1868. Tons.	1869. Tons.	1870. Tons.	1871. Tons.	1872. Tons.	Total. Tons.
Worn out.	8971	17037	17557	19113	20043	82871
1868	5	....	....	....	....	5
1869	175	2¼	....	....	....	177¼
1870	904	164¼	1¼	....	....	1070
1871	1418	614	240	3¼	....	2275¼
1872	1067	897¼	494	97¼	3¼	2559¼
Total	3569	1678	735¼	101	3¼	6087
Per cent.	.398	.098	.042	.0052	.00017	.073

From the above it will be seen that over 60 per cent. of the iron laid on the road in 1868 is still in use, and that out of 82,871 tons of rails made since the mill commenced operations but 6,087 tons, or 7 3-10 per cent. have been removed from the track. Estimating the value of the old rails sent to the mill during the past year at an average price of $60 33 per ton, the entire cost of the new rails was $71 03 per ton, or $20 70 per ton for the cost of re-rolling, including the new iron puddled and used in the process. Taking into consideration the cost per ton of these rails, and their great durability, notwithstanding the large tonnage, amounting in four years to over 32,000,000 tons, which has been carried over some of them, the result is very satisfactory.

A liberal quantity of steel rails has been laid at points where heavy grades, sharp curves, or constant switching of trains subjects the roadway to very great wear.

The gross receipts of the six steam colliers owned by the company for the year were	$355,460 03
And the total expenses, including $24,500 carried to the credits of the Insurance Fund, were	237,818 26
Leaving a net profit of	$117,641 77

The entire fleet was thoroughly overhauled during the year and each vessel placed in perfect order, at an aggregate cost of $36,695 59, which is included in the amount of expenses shown above.

The aggregate amount of losses sustained during the year, which were payable out of the Insurance Fund, was $10,544 88, and after covering

that amount and all previous losses, the Insurance Fund of the steam colliers is now in credit $11,701 93.

As will be seen by reference to the transportation and income accounts, the losses of working the canals of the company, after taking off all expenses, interests and sinking funds, were very large. The loss upon the Schuylkill Canal was $351,265 52, and upon the Susquehanna canal $116,490 08, all of which has been charged to expenses and deducted from the net earnings of the company. The depressed condition of the coal trade not only reduced the tonnage of the canals, but necessitated a very low rate of tolls. Indeed, had the Schuylkill Canal been closed for the year, its entire rent account, $642,336 13, charged to profit and loss, and its tonnage of 838,190 10-20 tons transferred to and carried by the railroad, it is believed that the profit of carrying its tonnage by rail would have exceeded the rent account of the Canal, so that the net result of the year's business would have been at least $350,000 better than it now is. It was not thought wise, however, to sacrifice the future for the present gain. The Canal has a capacity of 1,500,000 to 2,000,000 tons per annum, and it cannot be long before the railway will be so crowded with business that the value of such an outlet will be apparent. Accordingly, no expenses have been curtailed that were necessary to keep up the canal to a proper state of efficiency, and not only the permanent improvements, but the boat stock has been much improved and enlarged.

Annexed to this report will be found a copy of the lease of the Susquehanna Canal to which reference was made in the last report. The loss upon this canal has not been much greater than was expected, and the expenses charged against it include the cost of all renewals and improvements. The coal trade of the Reading and Columbia Railroad has very much increased during the last year, and a much greater increase is expected for the coming year. The Pennsylvania Canal, it is expected, will be in condition next year to pass boats drawing five feet of water, and, in addition to the coal traffic from the Reading and Columbia Railroad, a largely increased business is expected from the connecting canals. Should this expectation be realized, and a rate of tolls obtained equal to the average of the last ten years, a much better result will be obtained from next year's business upon this canal. The accompanying report of the chief engineer of the canal shows the condition of these improvements, and exhibits in detail the amount of work done upon each during the year.

The business of the Germantown and Norristown branch for the year has been very satisfactory, the receipts being much larger than those of the year before—the number of passengers transported for the season being 3,712,316 against 3,240,680 for the previous year, an increase of 471,686, or 14 6-10 per cent.

Upon the 10th of October last a contract was entered into by which the company became the lessees for a term of 999 years, of the Catawissa Railroad, extending from its junction with the Little Schuylkill Railroad, at Tamanena to Williamsport, a distance of 92 6-10 miles. A copy of the lease and contract is annexed to this report for the information of the stockholders. The Catawissa Railroad connects the extensive lumber producing district of Williamsport with the roads of this company, and has been for many years a feeder of the company's main line. It runs through the towns of Catawissa, Danville and Milton, and its local traffic, in addition to its through lumber trade, can be very much increased. It is not expected that any profit will be derived from working the line under the lease for some years, but it is believed that the increased profit upon the main line of the company, resulting from the acquisition of all the trade of the Catawissa Railroad, some of which was at any time liable to be deflected to other lines, will, from the start, more than overbalanced any deficiency resulting from the working of the leased line itself.

The policy of merging the various connecting lines of railway controlled by the company, into the Philadelphia and Reading Railroad Company and thus becoming relieved of the cost of maintaining separate organizations has been pursued during the year.

On the 13th of May the Mount Carbon Railroad Company was merged into the Philadelphia and Reading Railroad Company by exchanging one share of the stock of the latter for one of that of former. The Philadelphia and Reading Railroad Company owned 3,202 shares, which were cancelled, and for which no new stock was issued, and the investments in this road amounting to $178,229 25 now appear in the balance sheet, under the head of railroad. 1,439 shares of Philadelphia and Reading Railroad Company stock were created and issued to the holders of that number of shares in the merged company.

Upon the 19th of June, the Schuylkill and Susquehanna Railroad Company was merged into the Philadelphia and Reading Railroad Company by the issue of one share of the stock of the latter for three shares of the stock of the former company. The Philadelphia and Reading Railroad Company owned 21,702 shares of this company, representing a cost of $404,388 34, for which no new stock was issued, and this investment now appears in the balance sheet under the following heads, viz:

Railroad	$264,770 74
Depots	21,000 00
Real estate	118,617 60
	$404,388 24

1,227 shares of stock were created and issued in exchange for 3,681 shares of the merged company held by individual stockholders.

Upon the same day the Port Kennedy Railroad Company, all the stock of which was owned by this company, was also merged. In this case, as there were no individual stockholders, no new stock was created, and the company's investment in this road, amounting to $26,893 98 has been transferred to the item railroad in the balance sheet.

On the 17th of August last 536 shares of stock of the company were created and issued in exchange for stock in other leased companies, as follows:

195 shares Philadelphia and Reading stock for 163 shares Mount Carbon and Port Carbon Railroad stock, leased at a rate paying 12 per cent. dividend.

177 shares Philadelphia and Reading stock for 354 shares Schuylkill Valley Navigation Railroad Company stock, leased at a rate paying 5 per cent. dividend.

164 shares Philadelphia and Reading stock for 328 shares Mill Creek and M. H., N. and R. R. Co. stock, leased at a rate paying 10 per cent. dividend, on a par value of $25 per share.

The basis of these exchanges, as will be perceived, if a calculation is made, was, that assuming the stock of the company to be a 10 per cent. investment, such an amount was given for the stock of the leased company as would secure to the owner of the latter the same income as he had been deriving under the lease.

During the year 50,190 shares of stock, representing a par value of $2,509,500 were created and issued in exchange for a similar amount of convertible bonds of the company, as per the following statement:

Bonds Converted.	Amt. Converted.	Tot. Amt.
Loan 1857-86.		
December 30, 1871	$500	
January 31, 1872	2,000	
February 29, 1872	1,000	
April 30, 1872	2,000	
May 31, 1872	7,000	
June 29, 1872	5,000	$17,500
Loan 1870-90.		
January 31, 1872	82,000	
February 29, 1872	592,000	
March 30, 1872	484,000	
April 30, 1872	50,000	
May 31, 1872	131,000	
June 29, 1872	1,153,000	2,492,000
		$2,509,500

Of all former issues of convertible bonds there are yet outstanding only the following:

6 per cent. mortgage loan of 1886	$96,000
7 per cent. debendture loan of 1890	28,000
Total	$124,000

The 7 per cent. sterling loan of 1872, amounting as per last report to $110,400, was retired during the year, and in its place $110,000 of the consolidated mortgage bonds of 1911 issued as provided for by the mortgage securing the latter loan. Of the new bonds thus issued, $102,000 were 7 per cent. coupon bonds, and $8,000 7 per cent. registered bonds.

Upon the first of September the company became the express carriers upon all of its own lines. Heretofore the business of carrying express matter and parcels at high speed upon the passenger trains was transacted by the Adams Express Company, in the name of the Central Express, under a contract by which a monthly sum was paid to this company, depending upon the amount of the traffic. In the transaction of this business, the railroad company furnished the roadway, cars and motive power, and in many instances not only the office room, but the clerks and agents themselves. The freight agents of this company, at its different stations, thus became the servants of the Adams Express Company, and in most cases received from the latter company, as compensation, a per centage upon the amount of express business done at their several stations. The result of this was not only to demoralize the force in consequence of the divided allegiance its members owed to two masters—but, as the freight agents received a stated salary from the railroad company and a per centage of the amount of business from the Express Company, it became to their pecuniary advantage to send as much of the traffic of their station as possible by express, from which the railroad company derived but a small proportion of the receipts—instead of by the railroad company's own freight lines, in which case the entire charges would have gone into the treasury of the company.

The contract between the railroad company and the express company was, therefore, terminated, and on the 1st of September, having previously completed its organization and secured proper officers in the cities and large towns, the company became its own express carriers. This action was at once resented by the Adams Express Company, who, during the controversy that has since resulted have not only assumed that they are entitled by prescription to the monopoly of the express business of the country and that no railroad company, has the right to become express carriers, but have applied to the courts to sustain them in this assumption. They still continued in business in our region, and wherever they reach the same point by competing lines they have reduced the charges for express carriage to very low rates, in some cases at least fifty per cent. less than they previously charged.

They have also resorted to the expedient of carrying large amounts of money, which is the most profitable freight, over our lines without payment, in carpet bags and valises, as the personal effects of their agents, whose fare they pay as passengers, and in many cases they have been detected in shipping express freight packed into trunks, as if it was the wearing apparel of the passenger who presented it, for free transportation as his baggage.

They have also absolutely refused to receive any packages from our lines at their several termini for transportation beyond, unless the freight was full paid through to destination, and as they control the express business of nearly all of the connecting lines, unreasonable discrimination against us has been a source of some annoyance. Their evident intention seems to be to

make it impossible for the company to transact an express business with any profit, in the hope that it will be induced to restore the monopoly of the traffic to them, after an unsuccessful effort to transact it itself. Notwithstanding all these difficulties, however, and notwithstanding the fact that, in the organization of a new business, the expenses include a number of charges incurred in launching the enterprise before any receipts are derived from it, the net profits of the company from the express business during the first three months, after deducting all expenses including those of maintaining officers, organization and horses, before the business was commenced, were greater than the amount received from the Adams Express Company during the corresponding three months of the previous year. The net profits of the first month, after taking off all previous expenses incurred in starting the business, and which really represent but about three weeks' receipts for six weeks' expenditures, were 86 8-10 per cent. less than the amount received by the company from the Adams Express Company during the corresponding month of the year before. The net profits for October were one-half per cent less than the amount received from the Express Company in the month of October, 1871, while the net profits of the last month of the fiscal year were 58 87-100 per cent. higher than the amount paid by the Adams Express Company in the month of November, 1871.

This result fully justifies the action taken by the company in a pecuniary point of view, which is really of trifling importance when compared with the benefits resulting from that perfect discipline among all its employes, which is secured by removing any intermediate organizations from the management of the legitimate business of the company and the control of its officials.

It is difficult to understand why a railroad company should not transport valuable goods and small parcels over its line simply because the traffic is more profitable than any other, and it is very certain that the policy of permitting the agents of a railroad company to be paid by strangers for diverting trade from their employer, must in the end result in lasting injury to the company, and the establishment of a system as corrupt and dishonest as that which has so frequently disgraced the management of some of the municipal corporations of the country.

The Philadelphia and Reading Coal and Iron Company has continued to increase its ownership of lands, and now controls over 80,000 acres of Anthracite coal lands, upon which there are 98 collieries. Most of these collieries are worked by lessees, but 27 of the largest of them are now owned and will be worked by the company.

The tonnage of these lands last year was 3,080,-883 8-20 tons, and the rents derived from this tonnage amounted to $946,774 69.

Almost the entire issue of $19,000 000 of the consolidated mortgage loan was applied to the purchase and development of these lands, in addition to which the bonds of the Coal and Iron Co., guaranteed by the P. and R. R. Co., to the extent of $11,131,000 have been used for the same purpose.

The Coal and Iron Company will mine next year between two millions and two and a half millions of tons from its own lands, and including this product it is believed that the entire production of coal upon its estates will amount to at least four million one hundred thousand tons during the year 1873. Should the anticipations formed of the coal trade for the coming season prove correct, the managers believe that the Coal and Iron Co. will during the year, which is but the second of its existence, be in the receipt of an income sufficient to pay the interest upon the entire cost of its property.

For the purpose of aiding in the development of these lands, building additional steam colliers, extending some of the branch railroads, constructing additional rolling stock, &c., &c., the managers have issued a prospectus for a new debenture loan of $10,500,000 of 7 per cent. coupon bonds, payable in 1893, and convertible into the stock of the company at par at any time after the first day of July, 1876, and before the first day of January, 1892, giving to each stockholder the right to subscribe at par, not only for his proportion of the entire loan, but for his proportion of such of the surplus as would not be taken by by other stockholders. The payments were to be made as follows:

Fifteen per cent. of the amount of the pro rata subscription upon making the subscription.
Fifteen per cent upon the 15th of January, 1873.
Ten per cent upon the 15th of April, 1873.
Ten per cent upon the 15th of July, 1873.
Ten per cent upon the 15th of January, 1874.
Ten per cent upon the 15th of April, 1874.
Ten per cent upon the 15th of July, 1874.
Ten per cent upon the 15th of January, 1875.
Ten per cent upon the 15th of April, 1875.

With the privilege to any stockholder to anticipate all or any of the instalments at the date of either.

The following statement shows the amount of subscriptions received:

Whole amount of loan	$10,500,000
Pro rata subscriptions	$8,543,000
Surplus subscriptions	4,314,400
Total subscriptions	$12,857,400

The whole loan was thus taken at par without the payment of any commissions by the company. Of the entire subscription, $2,305,630 had been paid in cash up to the end of the year.

The managers have perfected and adopted a plan for a fleet of additional steam colliers—some of 600 and some of 1,200 tons capacity—all of the machinery for which it is proposed to build at the shops of the company. It is also proposed to erect a shipyard at Port Richmond for the repairs of the fleet, at which a great number of them can be economically built; but before entering largely upon the construction of them, especially as the models for the engines are different from those heretofore used by the company, it has been thought wise to build two engines and two vessels, one of each class, and make a trial of them before any others were commenced. Accordingly a contract has been made with the Delaware River Iron Ship and Engine Company to erect the hulls and boilers and put in the machinery (to be built by the company) of these two vessels, and it is expected they will be ready early in the coming year. If they are successful, a large fleet will be at once commenced and hurried forward to completion.

By order of the Board of Managers.
FRANKLIN B. GOWEN, President.

Mr. John B. Brock offered a series of resolutions, which were unanimously adopted, approving, accepting and adopting the report, and the action of the board in relation to the several matters therein contained, and especially the lease and contract with the Catawissa Railroad Company; ratifying the action of the managers in accepting the act of the legislature relative to the merger of the leased lines, also their action in guaranteeing the first mortgage bonds of the Schuylkill Iron Company, the Emaus Iron Company and the Hamburg Iron Company, and in issuing $10,500,-000 seven per cent. convertible bonds of the company; authorizing the board of managers to guarantee the payment of the principal and interest of the bonds of the Philadelphia and Reading Coal and Iron Company and of the Mammoth Vein Coal and Iron Company; authorizing the managers to elect one or more vice presidents of the company, and rescinding the resolution adopted January 8, 1855, requiring the vice-president to be elected from the managers; authorizing the managers to carry into effect any of the measures proposed in their report; continuing the power and authorities conferred on the managers by resolutions at prior annual meetings, and thanking the president and board of managers for the able manner in which the business of the road has been conducted.

Mr, George Earle offered the following:

Resolved, That the sincere thanks of the stockholders are due and are hereby tended to the president and managers of the Philadelphia and Reading Railroad Company for having abolished the contracts with the private fast freight and express companies, and also for having made ample and satisfactory provisions for the performance of all such duties heretofore performed by such fast freight and express companies by the officers and employes of the Philadelphia and Reading Railroad Company, thereby aiding in the destruction of a pernicious system which is being fastened upon the railroads of the country, just in proportion as the directors and officers of such roads are the recipients of the enormous profits realized by such fast freight and express companies at the expense and the injury of the stockholders. Adopted.

An election of officers was then held, with the following result:—

President.—FRANKLIN B. GOWEN.

Managers.—H. Pratt McKean, A. E. Borie, R. B. Cabeen, J. B. Lippincott, John Ashhurst, Charles E. Smith.

Treasurer.—SAMUEL BRADFORD.

Secretary.—J. W. JONES.

Railroads in Illinois.

The Railroad and Warehouse Commissioners of Illinois, in their annual report to the Governor, give the following information respecting railroad interests in that State:

Since the last report of the railroad companies, 1,709.68 miles of railroads have been brought into use, giving a grand total of 6,258.80 miles in actual operation on the 1st day of July, 1872, and 1,587.30 in process of construction.

The average cost of the completed and classified railroads in the State, as exhibited by the reports of the various railroad companies, the mileage being 5,831.41 miles, is about $42,264 48 per mile, making the aggregate represented cost of those roads $225,829,271 31.

The total capital stock of the railroad companies of the State properly chargeable to, embraced and represented by their lines and property within the limits of the State:

Preferred stock	$8,155,199 68
Common stock	131,970,864 60
Bonded debt	111,456 325 97
Floating debt	3,330,173 20
Total capital represented	$254,912,563 45

The gross earnings of the completed and classified railroads are as follows:

From freight	$30,074,524 42
From passengers	10,155,164 05
From mails, express and miscellaneous	2,997,739 57
Total	$43,227,428 04

The average proportion of the expenses for maintenance and operating, to be deducted from the gross earnings, is 65.60 per cent.

The average gross earnings per mile per annum were $8,108 06.

The average net earnings per mile were $2,-789 18.

☞ The earnings of the Erie Railway for the week ending January 15th, were $345,590, and since November 1, $3,541,481, against $3,743,027 for the corresponding period of the previous year —an increase of $201,546.

☞ The Quincy Mining Company has declared a dividend of $5 per share payable Feb. 24.

RAILROAD EARNINGS—MONTHLY.

Central Pacific (in gold):	January.	February.	March.	April.	May.	June.	July.	August.	September.	October.	November.	December.	Total.

American Railroad Journal.

Saturday, January 25, 1873.

Stock Exchange and Money Market.

Money, though active, has been comparatively easy as to rates, through the week. The speculative demand has been brisk, for use at both the Stock and Gold Boards; but the wants of responsible Street borrowers have been generally met with promptness, on the basis of 6@7 per cent. on call. To the leading Government houses, temporary loans have been made quite freely at 5@6 mostly at 6 per cent. per annum. Mercantile paper of the best grades has been of more ready sale at 8@9 per cent. discount, with very good to fair names rated at 10@14 per cent. per annum. Some of the large City Banks reported toward the close that they were losing on their Country Bank balances, while the near Cities, like Boston and Philadelphia, were debtor to New York, and sending Greenbacks this way. The acceptances of a number of the prominent railroads of the country have been in the market of late, though partly made against purchases of rails, &c., rather than as mere accommodation paper; and rates thereon have ranged from 10@14 per cent. per annum.

The city banks, in their latest return, show a gain of $3,544,200 of legal tender notes, with a decrease of $1,428,300 of specie, and an increase of $5,146,700 in their deposits, an addition of $2,656,800 to their loan and discount averages, and of $80,600 in their item of circulation. The city bank exchanges, last week, averaged 117⅞ millions. The banks now hold $5,499,100 of specie and legal tender notes more than the 25 per cent. of their liabilities required by the National Banking Act.

The clearances of the banks averaged through the week 117⅞ millions a day, and amounted in the aggregate, for the whole week, to $706,763,521 as against $716,203,119 the preceding week. The U. S. Sub-Treasury at this point enlarged its currency balance, over 1¾ millions and its coin reserve over ¾ths of a million as the result of the week's business.

The U. S. Sub-Treasury office last week received $3,324,547 of currency, and $3,869,530 of gold, the latter including $2,913,000 from customs; and disbursed $5,098,299 of currency and $4,640,922 of gold, the latter embracing $1,909,124 of coin interest.

The specie reserve of the city banks according to the latest return is $21,110,800, against $27,693,300 same time last year. The city bank deposits are now $212,588,200 against $220,361,500, week ending Jan. 20, 1873. The legal tender reserve amounts to $44,120,900, against $45,419,500 same time last year. The circulation now stands at $27,542,200 against $28,371,200 same time last year. The loans are now $278,209,600 against $279,032,900 at this date last year.

The coin reserve of the city banks is now about 21½ millions as against about 25¾ millions on the 20th of last July; the legal tender reserve is about 44⅛ millions against about 55½ millions on the statement of June 15th; and the deposits are now about 212½ millions, against 247¼ millions on the 20th of July.

The cash balances in the Treasury Department at Washington on Tuesday were as follows: Coin, $68,832,060; currency, $3,740,353; Coin certificates are outstanding for $25,152,500.

Under the official programme of the Treasury Department for January, 1873, Government proposes to sell Gold, as follows: Thursday, January, 30—One Million. And to buy U. S. Five Twenties, as follows: Wednesday January 29—One Million.

Government revenues have been fair in the Customs line, though light in that of Excise. The excises yielded within the week about 1⅞ millions and thus far in the current fiscal year beginning with July 1, 1872, $66,463,355. The customs at the port of New York, for the week, were $2,915,975, and at the outports, about a million more, in coin or coin certificates.

It has been reported that at a meeting of the directors of the Toledo, Wabash and Western Railway Company, held on Monday, authorization was given for the issue of a mortgage for $5,000,000 for the purpose of laying steel rails.

Gold has advanced sharply on a more active and spirited speculative movement, with also an increased call for coin to pay Customs but a reduced export drain. The range of the price during the week has been from 112¼@113⅞, and the closing quotation on Wednesday was 113⅝ against 112¼ of the preceding week. The specie outflow last week, was only $328,155. The Gold Exchange Bank clearances have averaged about 45¾ millions per day during the week.

The customs demand for Gold last week, averaged $486 000 a day. The arrivals of specie from Europe, Havana and other foreign ports during the week were $38,018 and thus far in 1873, $53,609 against $45,702 in 1872. The total customs revenue of the Government, in coin, at this port, since July 1, has been $74,825,017 against $86,196,043 during the same time in 1871-2.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1872, $52,238,642, against $54,278,185 during the same time in 1871-2.

The export drain of specie was $328,155 last week, against $372,165 same week preceding year. The shipments since July 1, 1872, have been $38,649,417 against $23,602,401 during the same portion of 1871.

Business in foreign exchange has been moderately active, but less firm as to price toward the close. Bankers' sixty day bills on London closed at 109¼@109⅜; sight bills on London, at 110¼@110⅜. The weeks exports of Domestic Produce have been to the currency value of $4,586,338.

Government securities have been more freely dealt in, chiefly on investment account, and prices have shown decidedly more firmness and buoyancy. Government bought in on Wednesday $516,400 Five Twenties (out of an aggregate offerings of $666,400) at 113 20@113 37 net.

U. S. sixes of 1881 closed on Wednesday of this week at 117⅝@117¾ U. S. Five-Twenties of 1862, 114½@114¾; U. S. Five-Twenties of 1864 at 114¾@115; U. S. Five-Twenties of 1865, 116@116½; U. S. Five-Twenties of 1865 consolidated, 114⅝@114¾; U. S. Five-Twenties of 1867, 115¼@115⅝; U. S. Five-Twenties of 1868, 115@115⅜; U. S. Ten-forties at 113¼@113½; U. S. Fives of 1881 (Funding Loan) 113½@114; Six per cent. currency Sixes from 113⅞@114.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 8.	Jan. 15.	Jan. 22.
Consols	92⅜	92¼	92⅜
U. S. 5-20s, 1865	93¼	93¼	93¼
" 1867	93¼	93⅜	92⅞
" 10-40s	89¾	89⅞	91
New Fives of 1881	90½	90⅜	89¾
Erie	50⅝	50	50¼

State bonds have been in moderate request and held with more firmness.

Railroad bonds of the more substantial class have been in much more active demand, mainly on investment account, and the actual dealings of the week, in the older issues, make an unusually large aggregate. Central Pacific Sixes closed strong at from 99¾@99⅞, ex the January three per cent. (coin) coupon. Chesapeake and Ohio Sixes have been of ready sale at the established price. And the Northern Pacific 7-30 Loan has met with increased favor from investment buyers.

Railway and Miscellaneous share property has been quite brisk and generally buoyant as to price, the speculative movement having been much more confident.

In the Metal line, the movements have been quite active in Iron and Tin Plates, but otherwise slow. Copper shows less animation, but is steady; sales, 150,000 lbs. Ingot at 34½c.@35c. for prompt and forward delivery. The feature

business in Iron has been an active movement, at firmer prices, in American Pig, of which sales have been reported on contracts to the amount of 5,000 tons, at $45 for No. 1 and $44 for No. 2; 400 tons Crane, on the spot, at $48@$49 for Nos. 2. and 1; and 250 tons No. 1 Allentown at $49, also on the spot. Of American Rails 6,000 tons deliverable at the West, were disposed of on private terms; quoted at $82@$85 at the works. Old Rails quoted at $55 per ton; English Rails at $72@$74, gold; Scotch Pig-iron has been inactive, with Eglinton quoted at $50 50@$51; Coltness at $55, and Gartsherrie at $53@$54, per ton. Nothing really new in Lead, Spelter or Zinc, prices of which remain as last noticed. Pig tin has been less sought after, yet quoted about steady at 31½c. for Straits, 31¾c. for English, and 36½c. for Banca, all gold. Tin Plates have been quite active, with sales reported of 2,500 boxes Charcoal, for for forward delivery, at $11; 1,550 boxes Charcoal Terne at $9 50@$10 25, the inside price for inferior; and 2,000 boxes Coke at $9 87½@$10 gold, per box.

There has been increased activity in Breadstuffs at generally firmer prices, with free purchases of Flour, Wheat and Corn, for export, and of Barley and Oats, on the home trade and speculative account. Provisions in fair demand but variable as to values. Middling upland cotton, left off on Wednesday at 20⅝ cts. per lb. The receipts at all the ports, since Sept. 1, have been 2,060,623 bales, against 1,765,676 bales same time in the preceding year; exports 1,104,974 bales against 900,689 bales in the previous year; stock at the ports at latest dates, 528,500 bales against 519,600 bales same date 1871. Naval Stores closed weak; Petroleum, more steadily; Wool, brisker and stronger.

Foreign goods in more demand and firm. The week's imports amounted to $11,282,162, including $3,435,699 of dry goods.

Ocean freights have been moderately active, but at irregular rates, berth figures showing less firmness, while vessels on charter, particularly for the Petroleum trade, were held higher.

At the Live Stock Markets, Beeves have been in liberal supply and less demand at from 7@14; cts. Veals at 6@10½ cts.; Sheep active at from 5@8¼ cts.; Swine in fair request at 5@5¼ cts. per lb. all live weight. The week's receipts were 9,806 Beeves, 800 Veal Calves, 28,900 Sheep and Lambs, and 44,722 Swine.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—St. Louis and Iron Mt. R. R., 96⅞; do. 1st mort., 99; St. Louis, Kansas City and Northern pref., 66½; Am. Dock and Imp. 7s, 95; Cedar Falls and Minnesota 1st mort., 80¼; Louisville and Nashville 7s, consol., 1898, 94; Boston, Hartford and Erie 1st mort., 41½; do. guar., 60; Ohio and Mississippi 7s, consols., 92⅞; Galena and Chicago 2d mort., 98; Central of New Jersey 1st mort. new, 106½; Cleveland and Pittsburg 7s, consol., 97; Long Dock bonds, 92¼; Buffalo and Erie 7s, new, 96¼; Albany and Susq. 2d mort., 95; North Missouri 1st mort., 91; Toledo, Peoria and Warsaw 1st mort., E. Festiniog Railway.

The resources of this line have just been increased by the addition of a second Fairlie locomotive of the type of the Little Wonder, and by some new rolling stock intended to accommodate the increased passenger traffic of the summer season. The engine has been built by the Avonside at Bristol, and made her trial trip on the line on 19th inst. She does not differ from the Little Wonder in any important respect, but has been improved upon in some minor details, among which should be mentioned a regulating apparatus, the contrivance of Mr. Percy Spooner, by means of which the driver can work the two engines either separately or in combination. On the 2ft. (or rather 1ft. 11½ in.) gauge of the marvellous little railway the engine descended from Duffws to Portmadoc, a distance of 14½ miles, at an average speed of 30 miles an hour; and was pushed to a speed of 50 miles an hour on one portion of the journey. When passing at this rate over a straight line, her course was as perfectly smooth as that of a tramway car, and only in going round the sharpest curves, curves of 2 chains radius or less, was the smallest oscillation perceptible to those standing either on the driving or on one of the bogie platforms. The slightest oscillation then produced was not a to-and-fro lateral movement of the engine as a whole, like that of an ordinary locomotive, but an alternate rising and falling of the sides of the carrier frame, and was supposed to be due to the elasticity of some indiarubber packing on which this frame is supported. The engine being quite new, and hardly settled to her bearings, no attempt was made to test her traction power to the full extent; but this will certainly not be inferior to that of the Little Wonder, which, weighing 20 tons herself, is able to draw a train a quarter of a mile in length, and weighing 213 tons, at the rate of 10 miles an hour, up an uninterrupted ascent which averages 1 in 90, and reached 1 in 69 at its steepest part. So winding is the road, that with a train of this length the occupants of the last carriage only get a glimpse of the engine five times in the fourteen miles. In truth, the Festiniog follows a course, much like that of a path cut for tourists in a mountainous country, bending round cliff sides, passing through deep cuttings, and over-hung by frowning precipices. The new passenger rolling stock, like the engine, is mounted on double bogies, each bogie platform having four wheels. The carriages are 6ft. wide and 36ft. long over all; and are composite, containing first, second, and third class compartments. Each compartment holds six passengers comfortably. Before completing the superstructure, Mr. Spooner, the engineer of the line, tested the practicability of the carriage by running platforms of the same size, and he found that they made their way round the curves with perfect smoothness. Mr. Spooner entertained the visitors on the occasion at dinner, and, in response to his health, entered somewhat fully into the question of the utility of narrow gauge railways. He said that he thought a gauge of 2ft. 6in. was ample for every purpose to which a railway could be applied, and that the diminution of the dead weight of the rolling stock, by facilitating stoppage in cases of danger would render high speeds more safe on such a line than on one of the ordinary gauge of 4ft. 8½in. Referring to the controversy now in progress with regard to the future gauge of India, Mr. Spooner said that the supposed difficulty of carrying bulky goods, such as unpressed cotton, on a narrow gauge was unreasonable. His own rolling stock was constructed with a view to a heavy traffic; and would require modification for traffic of a different description. But he would undertake to carry on the Festiniog as much unpressed cotton as could be carried on the Bombay and Baroda, and that without the smallest difficulty or inconvenience. With regard to the break of gauge, it only wanted well-considered mechanical arrangements. His railways formed a sort of junction with the Cambrian at Minfford; and large quantities of coal and slate, not to speak of other merchandise, were interchanged between the two lines. He found that two men, working steadily, could transfer 100 tons of coal per day from the Cambrian to the Festiniog trucks; so that the break of gauge added not more than one penny per ton to the price of coals in the district supplied by the latter railway. The gauge of the Festiniog is about to be much extended. A similar line will shortly be opened from Portmadoc through Beddgelert to Bettws-y-Coed, and others are projected in different directions, while twelve Fairlie engines have already been ordered for the purpose of working them.—*London Times.*

Baltimore City Passenger Railroad.

At a meeting of the stockholders of this company held in Baltimore on the 8th inst., the following gentlemen were elected directors: Henry Tyson, Thomas Whitridge, Wm. Kennedy, Thomas M. Smith, Conrad S. Grove, Gabriel D. Clark and George Small. Mr. Tyson was afterwards unanimously re elected President of the Company. During the past year 12,833,705 passengers were carried over the different routes of the company, and the miles run by the cars in that time was 1,979,850. The amount of fare received from each passenger, less the Park tax, was four cents.

The number of horses owned by the company is 697; the average number of cars run each day has been 81, and the number of miles traversed daily by each car was 67. There was paid into the city treasury on account of Park tax the sum of $128,476, against $138,000 for the year 1870. The company declared no dividend this year, from the fact, as is alleged, that the expenses of the road have equalled its receipts.

☞ The New York, Boston and Northern Railroad Company, and the Harlem Extension Railroad Company have consolidated. The new corporation is to be known as the New York, Boston and Montreal Railroad Company. The officers and directors are: President, George H. Brown; Vice President, John Q. Hoyt; Directors, George H. Brown, John Q. Hoyt, Andrew McKinney, Henry H. Van Dyck, Joseph Seligmann, Grosvenor Lowrey, Wm. B. Ogden, Moses Y. Tilden, Christopher Meyer, Wm. S. Eno, John S. Schultze and A. A. Selover.

☞ A working party are is engaged in laying the third rail on the Welland Railway, building new switches, and thoroughly renovating the permanent way of the road on the part leased by the Great Western Railway, the directors of this company being determined to place every mile of line under their management in substantial condition.

☞ The stockholders of the New Mariposa Company held a meeting on the 20th inst., at which they elected the following gentlemen trustees of the organization: F. B. Wallace, Chauncey Vibbard, George W. Butts and Mark Brumagim.

☞ The Sodus Point and Southern Railroad was opened its entire length on the 15th inst., from Sodus Bay to Gorham, for business. This line forms an important connection between Philadelphia and Baltimore and the lakes.

THE INDIANA
AND
ILLINOIS CENTRAL
RAILWAY COMPANY'S
First Mortgage 7 per cent.
GOLD BONDS.

AN EAST AND WEST AIR LINE OF 162 MILES FROM INDIANAPOLIS, INDIANA, TO DECATUR, ILLINOIS, two of the largest railway centres in the West.

The WESTERN DIVISION (85 miles) of this important line, opening, for the first time, direct Western communication with the

BLOCK COAL FIELDS

of Indiana, will be completed and ready for business with an ample first-class freight and passenger equipment by FEBRUARY, 1873.

It traverses a populous and a highly cultivated district now without railway connections, and it is assured a profitable business from the start, in coal and farm products.

A large part of the cost of construction has been, and will in the end be, paid in cash by the stockholders and people on the line.

Bonds $1,000 each, payable in 30 years, principal and interest in GOLD, FREE OF GOVERNMENT TAX.

Sinking Fund 2½ per cent. of gross earnings.

Whole issue $3,500,000, of which those now selling are on COMPLETED ROAD.

For sale at 90 and accrued interest, by the Financial Agents of the Company (of whom pamphlets and information may be obtained).

Walker, Andrews & CO.,
No. 14 WALL ST., NEW YORK.

☞ At a meeting of the managers of the Schuylkill Navigation Company in Philadelphia, on the 18th inst., a dividend of thirty cents per share on the common stock, and sixty cents per share on the preferred stock was declared, payable to stockholders as registered on the 23d inst. in scrip, convertable on and after March 3, 1873, into the 6 per cent. mortgage loans of the company of 1872-1897, only in sums of $100 or any multiple thereof. Said dividends will be payable on and after February 12, 1873.

☞ At the regular annual meeting of the St. Louis, Vandalia and Terre Haute Railroad Company, held at Terre Haute, Ind., January 6th, the following gentlemen were elected directors for the ensuing year, viz: W. R. McKeen, W. K. Edwards, A. McGregor, F. C. Crawford, D. W. Minshall, Joseph Collet and J. H. Hager. At a subsequent meeting of the board W. R. McKeen was re-elected President, John E. Simpson General Superintendent, H. W. Hibbard General Freight Agent, and Charles E. Follett, General Passenger Agent.

☞ The St. Louis and Iron Mountain Railroad Company have declared a dividend of three per cent, payable at its agency, No. 120 Broadway, New York, on the 15th February, 1873, to stockholders registered at the close of business Jan. 25th.

☞ The second track on the Rensselaer and Saratoga Railroad to Green Island has been completed and the trains passed over it on the 20th inst.

Movements of Produce at New York.

Receipts of certain articles of domestic produce at the port of New York for the year 1871 and 1872:

	1871.	1872.
Ashes, bbls.	6,908	6,769
Breadstuffs—

Journal of Railroad Law.

RAILROAD COMPANIES—REPAIR OF FENCES—NEGLIGENCE OF EMPLOYEES—GENERAL PRINCIPLES APPLICABLE.

The facts in the recent case of Dewey *vs.* The Chicago and Northwestern Railroad Company, (31 Iowa, 373), are fully and clearly stated in the following opinion by—

COLE, J.—No complaint is made as to the correctness of the instructions given by the Circuit Judge to the jury who tried this cause. The only question made by the appellants' counsel, which it is necessary for us to pass upon, is as to the sufficiency of the evidence to sustain the verdict. There is no conflict in the testimony upon any material fact. The substance of the evidence is as follows: The deceased, Edwin S. Dewey, was killed by an accident occurring on the defendant's railroad, at about 8¼ o'clock on the evening of the 16th day of May, 1868, about two and half miles east of State Center, in Marshall County. He was about twenty-two years old at the time of his death, and was the conductor of the train on which he was killed. The train was composed of an engine, nineteen freight cars and one way car, the deceased was conductor and superior officer of the train, and was at the time of the accident riding on the engine with the engineer, where he might according to the rules of the company, properly ride, and the two brakemen were at their proper positions on the train. The right of way was fenced, but several horses which had been accustomed to run at large on the north side of the railroad had been turned, on the day previous to the accident, out on the south side; and these horses had in some manner gotten on the right of way, and were standing near the north fence, about fifty rods east of a trestle about six feet high, where the accident happened; the place where the horses were standing was on a curve of the road, and could be seen at full daylight from the engine at a point about forty-five rods east; three of the bars in the south fence, nearly opposite where the horses were standing, were down, and some of the top boards of the fence between these and the trestle were off, and three-quarters of a mile west of the trestle, several panels were down; where the horses entered the right of way is not shown, nor does it appear that the defendant had any knowledge that the bars or fence boards were down. As the train with ordinary speed approached the horses, they started west and soon crossed the track; the deceased saw the horses before and after they crossed the track; when the engineer first saw them, he sounded the alarm, and said to the deceased, "there are some horses" and the deceased said to the engineer, "pass them." The engineer testifies that when deceased said this, he did his best to pass them, and had already put on steam and was getting up as much speed as possible; that the train could not have been stopped before the trestle was reached, and their object was to catch the horses before they reached the trestle and throw them from the track; that if a train has to strike an animal, it is best to do so with as much force or momentum as possible, as then the engine will generally throw the animal off, but when slow it will pile under the engine and throw it off. One witness says the grade, going west from the bars to the trestle, is descending, and another that it is ascending, all agree that the train could not have been stopped before it reached the trestle. The engine struck the horses just at the east end of the trestle, and was with several cars thrown from the track, and the conductor, Edwin S. Dewey, was killed.

This is substantially all the evidence, and in our opinion it is not sufficient to justify a verdict for the plaintiff. The fact that the bars were down or the boards off the fence would not, under our statute, constitute any ground for the plaintiff's recovery in this action; and under the rule recognized and applied in Aylesworth *vs.* The C., R. I. & P. R. R. Co., 30 Iowa, 459, would not, without proof of knowledge, or means of it, that the fence was out of repair, constitute a ground for the recovery of the value of the horses killed by the same accident.

The only ground for plaintiff's recovery must be that of negligence on the part of defendant's employees; and here the insuperable difficulty is, that the deceased himself was the superior officer of the train, and directed the very line of conduct which resulted in his death. If this was negligence it must of necessity, have been his negligence.

It is argued by appellee's counsel, that the engineer was already making efforts to pass the horses at the time the conductor directed him to do so; admit this, and still it does not help the plaintiff's case, since it was within the power and duty of the deceased to have given his direction in the time and manner to avoid the accident if it were possible. But suppose the accident had resulted differently, so that the engineer had been killed and the conductor survived. In such a case, if the line of conduct pursued was negligent or careless, the administrator of the engineer would have had a clear cause of action, since the engineer was acting under the express direction of his superior officer; and this being so, it must follow that this action cannot be maintained.

Mr. Justice Miller, now of this bench, and who tried the cause below, unites with the other members of the court in the foregoing opinion, which reverses the judgment of the Circuit Court. He overruled the appellant's motion there to set aside the verdict because it was not sustained by sufficient evidence, and his reason, as given at the time, was not that he thought the evidence sufficient, but that a new trial would be as unavailing to the defendant as the one just had, and as neither party would be content with less than the ultimate adjudication by the Supreme Court, it might as well be settled under the trial already had, as by its repetition.

We therefore avail ourselves of this occasion to correct what we understand to be a very general misapprehension on the part of District and Circuit Judges, in respect to the rules as to new trials in the *nisi prius* courts. This court has repeatedly declared the rule for itself (and such is the rule in most appellate tribunals), that where the evidence is conflicting and the *nisi prius* court has overruled a motion for a new trial, grounded upon the insufficiency of the evidence, that we will not interfere. And this because, first, the jury have found the verdict and given credit to the witnesses on the one side of the conflict; second, the Judge, who also heard the testimony from the mouths of the witnesses, and weighed

the same in the balance of his more cultured and accurate legal judgment, has by overruling the motion, given his approval and endorsement to the verdict; and third, this court can never have the benefit of observing the conduct and deportment of the witnesses while testifying, nor even the peculiarity of their expressions, but generally only the substance of their testimony and often in the language of the attorneys interested in the cause.

The judgment of the Circuit Court is reversed.

Railroad Progress in Iowa and Wisconsin.

The following table shows the number of miles of railroad completed in the States of Iowa and Wisconsin during the years 1871 and 1872:

IOWA.	1871.	1872.

Wisconsin Valley	45	..
Total	242	533

☞ The Chesapeake and Ohio Railroad is nearly completed. The track-laying parties progressing towards each other from the east and west are now only seven miles apart, and next week they will join the rails at or near Miller's Ferry.

☞ The lease of the Oil City and Ridgeville Railroad and Venango coal mines, Pa., has been sold, and the property turned over to the new lessees, Messrs. Collins, Pool & Co. The value of the property amounts to $300,000, the unexpired lease running for nine years.

Chicago and Northwestern Railroad.

The Houghton (L. S.) *Mining Gazette* says that the Chicago and Northwestern Railroad Company "is making up for lost time, by pushing in tracks on its trunk line on Green Bay and the Peninsula Division to the Menomonee iron region," and then adds:

Now that L'Anse is in railway communication with Chicago, everybody is anxious to know the exact distance between the two places, and with a view to gratify all inquiries in this direction we publish the following table:

	Miles.
From Chicago to Fort Howard (Green Bay)	242
From Fort Howard to Menomonee	49
From Menomonee to Escanaba	65
From Escanaba to Negaunee	65
From Negaunee to L'Anse	49
Total	470

☞ A Marshall (Texas) letter of a recent date says, that six thousand men are now grading the Texas and Pacific Railroad between that point and Fort Worth, and that track-laying will begin as soon as the rise in the Red River enables the necessary supplies to be brought up.

☞ The Canada Air-Line Railway was opened for business on the 18th inst.

ERIE RAILWAY COMPANY.

VICE-PRESIDENT'S OFFICE,

(P. O. Box 839.) New York, January 9, 1873.

To Bridge Builders.

THE ERIE RAILWAY COMPANY PROPOSE, as they renew the bridges upon their Road, to substitute iron for wood. They have a large number of bridges in spans varying from 20 to 200 feet.

With a view to determining the best plan to adopt, they invite you to make a proposal, based upon plans and specifications, to be furnished by you for bridges of various spans from 20 feet upward, with your price for the same.

Let your price be predicated upon the fixed price of iron and steel, to be varied as those materials may advance or decline in price.

Yours, &c.,
A. S. DIVEN,
Vice-President.

Office of the Illinois Central Railroad Company, New York, Jan. 6, 1873.

A DIVIDEND OF FIVE PER CENT. HAS been declared by this Company, payable on the 1st day of February next, to the holders of full paid shares, registered at the close of the 16th day of January instant, after which and until the 5th day of February next, the transfer-books will be closed.

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board, without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

Manufactured and for Sale by **WILLIAM & HENRY HAND,**

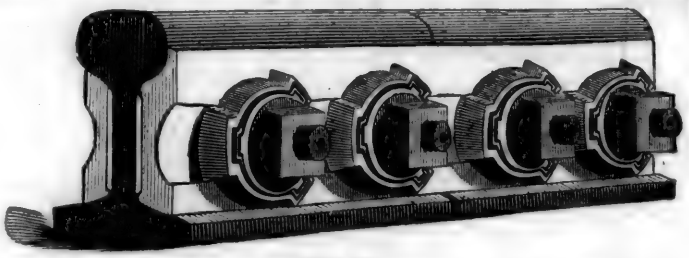
FISHER'S PATENT

Wrought Iron

RAIL JOINTS,



MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

American Railroad Journal.

New York, Saturday, February 1, 1873.

☞ The United New Jersey Railroad and Canal Company has resolved to call in all the certificates of stock of the several companies forming the combination, and to issue in lieu thereof one common certificate, representing all the companies, under the general title of "United New Jersey Railroad and Canal Company." To this end the holders of certificates of either the Delaware and Raritan Canal Company, Camden and Amboy Railroad and Transportation Company, or the New Jersey Railroad and Transportation Company are requested to leave them at the office of Gaw, Bacon & Co., Philadelphia, or 57 Broadway, New York.

☞ The Gardner and Ranson Air Brake Company, of Cleveland, has been organized with a capital stock of $500,000, in shares of $100, for the purpose of manufacturing Gardner and Ranson's air brake, and other articles. The corporators are John W. Gardner, Thomas W. Ranson, Charles A. Brayton, H. M. Claflin and Simeon Sheldon.

☞ Work on the Atlanta and Richmond Air Line from Greenville, S. C., is progressing. The track is laid for some eight miles from Greenville, and the bridge over the Saluda river is nearly completed, and as soon as trains can cross it track laying will be pushed westward.

INVESTMENT BONDS.

The Northern Pacific Railroad Company now has in full operation, with regular daily trains, 321 miles of road. A distance of nearly 200 miles more is constructed. The Minnesota section, immediately on its completion, entered upon a satisfactory business, including local traffic and the large carrying trade of the Northwestern British Settlements and the Hudson's Bay Company. The recently completed section of sixty-five miles, on the Pacific Coast, at once commands a profitable business between Puget Sound and the Columbia River, heretofore done by coastwise steamers. On the opening of Spring, with more than **500** miles of Road in regular operation, the Company will control the extensive and productive trade of the Upper Missouri, much of Montana and the Northwest. The earnings of the Road for 1873 will be large.

Arrangements for pushing construction vigorously the coming year are progressing satisfactorily.

Of the nearly Ten Million acres of land accruing to the Company in connection with the portion of Road now virtually constructed, some Two Million acres of excellent average quality are in market, and their sale and settlement progressing. The average price thus far realized is **$5 66** per acre—which is at the rate of more than **$100,000** per mile of road for the whole grant.

The Company has already begun the process of redeeming and cancelling its First Mortgage Gold Bonds, as they are now being received at **1.10** in payment and exchange for the Company's Lands.

With these accomplished results and most favorable prospects, the Company is now selling its First Mortgage 7-30 Bonds for the purpose of completing its line of road. We recommend them as a well secured and unusually profitable investment. They have the following elements of strength and safety. They are the obligation of a strong corporation; they are a First Mortgage on the Road, its Right of Way, Telegraph Line, Equipments, and Franchises, and a first lien on its Net Earnings. In addition to this usually sufficient security there is pledged for the payment of principal and interest a Land Grant of **12,800** acres per mile of road through the States and **25,600** through the Territories.

The rate of interest (seven and three-tenths per cent. gold) is equal now to about 8¼ currency. *Gold Checks for the semi-annual interest on the Registered Bonds are mailed to the post-office address of the owner.*

All marketable securities are received in exchange on the most favorable terms. For sale by Banks and Bankers generally.

JAY COOKE & CO.

New York, Philadelphia and Washington,

Burlington, Cedar Rapids and Minnesota Railroad.

The annual meeting of the stockholders and directors of this company was held at Cedar Rapids, Iowa, on the 22d ult. The meeting was called to order by Hon. George Greene, President of the Company, who in a lengthy and highly entertaining address submitted to the stockholders a detailed general statement of the business, and construction of the past year, together with the plans and future prospects of the company. At the conclusion of his eminently satisfactory exhibit of the successful operations of the road, H. M. Ochiltree, Esq., offered the following resolution, which was seconded by General Fitz Henry Warren in a short but eloquent address, and was unanimously adopted:

Resolved, That the thanks of the stockholders of the Burlington, Cedar Rapids and Minnesota Railway Company are due and are hereby tendered to the president and officers of the operating department, for their able and efficient management during the past year.

The meeting then proceeded to the election of a board of directors for the present year, resulting in the unanimous re-election of the old board, consisting of the following named gentlemen: Hon. Henry Clews, New York City; Gen. Fitz Henry Warren, Burlington, Iowa; J. W. Barnes

Esq., Burlington, Iowa; T. W. Barhydt, Esq., Burlington, Iowa; Hon. Geo. Greene, Dr. Jno. F. Ely, S. L. Dows, Esq., D. W. C. Rowley, Esq., W. W. Walker, Esq., J. L. Bever, Esq., Hon. A. S. Belt, Wm. Greene, Esq., Cedar Rapids; J. W. Traer, Esq., Vinton.

At a subsequent meeting of the directors, the following gentlemen were elected officers for the year: Hon. Geo. Greene, President; Dr. Jno. F. Ely, Vice President and Treasurer; H. B. Stibbs, Assistant Treasurer; D. W. C. Rowley, Secretary; Wm. Greene, General Superintendent; W. H. Pettibone, Ass't General Superintendent; W. W. Walker, Chief Engineer; J. C. Brocksmit, Auditor; A. S. Belt, General Solicitor; S. L. Dows, Purchasing Agent; J. W. Traer, General Agent.

This meeting as well as that of the stockholders, was entirely harmonious and pleasant in the highest degree and all interested expressed the most complete satisfaction with the management and with the present and future prospects of this prosperous corporation.

Bridge over Mobile River.

The following is a copy of an act passed by Congress authorizing the construction of railroad bridges across the Mobile river and other navigable streams tributary to Mobile bay, in accordance with the acts of the legislature of the State of Alabama, and to establish them as post roads:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the consent of Congress be, and the same is hereby, given to the Mobile and Montgomery Railroad Company to erect one or more draw-bridges over the Mobile river and other navigable streams tributary to Mobile bay, in accordance with the acts of the legislature of Alabama incorporating said company: *Provided*, That the said draw-bridges shall be so constructed as not to interfere with the free or to materially or substantially obstruct the free navigation of said streams, beyond what is necessary in order to carry into effect the rights and privileges hereby granted; and in case of any litigation arising from any obstructions, or alleged obstruction, to the free navigation of said river, the cause may be tried before the district court of the United States of the State of Alabama in which any portion of said obstruction or bridges touches: *And Provided also*, That said drawbridges shall be opened promptly, upon reasonable signal, for the passage of boats, and in no case shall unnecessary delay occur in opening the said draw during or after the passage of trains.

Section 2. That any bridge constructed under this act, and according to its limitations, shall be a lawful structure, and shall be known and recognized as a post route, upon which, also, no higher charge shall be made for the transmission over the same of the mails, the troops, and the munitions of war of the United States than the rate per mile paid for their transportation over the railroads or public highways leading to said bridges.

Section 3. That all railway companies desiring to use said bridges shall have and be entitled to equal rights and privileges in the passage of the same, and in the use of the machinery and fixtures thereof, and of all the approaches thereto, under and upon such terms and conditions as shall be prescribed by the Secretary of War, upon hearing the allegations and proofs of the parties in case they shall not agree.

Section 4. That the right to alter or amend this act so as to prevent or remove all material obstructions to the navigation of said river by the construction of bridges is hereby expressly reserved; and that any bridge or bridges constructed under this act shall be built under and subject to such regulations for the security of navigation of said river as the Secretary of War shall prescribe; and the said river shall be at all times, so kept and managed as to offer reasonable and proper means for the passage of vessels through and under them; and the said bridges shall be changed, at the cost and expense of the owners thereof, from time to time, as Congress may direct so as to preserve the free and convenient navigation of said river; and the authority to erect and continue said bridges shall be subject to revocation by law whenever the public good shall, in the judgment of Congress, so require.

Approved, December 24, 1872.

Fitchburg Railroad.

The receipts and expenditures of this road for the years ending September 30, 1871 and 1872, have been as follows:

Receipts:	1871.	1872.
From passengers ...	$510,126 41	$524,420 28
" freight.....	755,836 80	769,936 20

	$1,010,603 23	$1,026,854 48
Net earnings....	$316,737 93	$323,934 87

The company have 38 locomotives, 46 passenger, 12 mail and baggage, 531 eight-wheel and 316 four-wheel merchandize, and 32 gravel cars. Number of miles run by passenger trains, 374,719; by freight trains, 335,046; by other trains, 6,481 —total, 716,246. Number of passengers carried, 1,869,427; do. carried one mile, 24,341,123. Tons of merchandize carried, 740,123; do. carried one mile, 19,678,511. Length of main line, (double track) 50.68 miles; length of Watertown Branch Railroad, 6.60 miles; length of Lancaster and Sterling Branch Railroad, 12.42 miles; length of Peterboro' and Shirly Railroad, 23.62 miles; length of side and other tracks 34 miles—total length of road belonging to the company, 93.32 miles; total length of tracks belonging to the company, 178 miles. The report says:

During the past year, on the 6th day of October, 1871, our extensive buildings at Charlestown, which were used for Cheshire, and Vermont and Massachusetts Railroad freight business, together with a large quantity of valuable merchandise, were totally destroyed by fire; the amount already paid in settlement for this merchandise is $35,442 38, and this sum, we believe, includes nearly all claims on this account for which the corporation is liable. Our insurance on the buildings amounted to $25,050; on property therein, to $18,000, none of which has been paid, as our demand was disputed by the insurers, and is now in litigation. We feel confident we shall prove and make good our whole claim; but as all the offices in which we were insured are more or less crippled by the destructive conflagrations of Chicago and Boston we shall lose a considerable portion of this sum.

In the latter part of 1871, reductions were made in our local passenger and freight tariffs, and a material abatement was also made in the rates charged connecting roads on both passengers and freight. These reductions estimated on the traffic of the past year amount to over $40,000,; but comparing the gross receipts with those of the year previous, we find an increased business has reduced the deficiency on connecting road business to $3,032 71, and increased the receipts on our local business, $31,425 98.

Our receipts during the year show an increase from passengers, of $14,293 87; from freight, of $14,099 40; from expresses and United States mails, $2,679 18, and a decrease from rents and interest, of $8,124 26; making our total increase of income, $22,948 19. Our expenditures have also increased $15,751 25, leaving net earnings, $7,196 94 in excess of the same earnings last year.

In 1842, statistics of the number of passengers and tons of freight, from towns in Massachusetts, New Hampshire, and Vermont, which it was supposed would be affected by the construction of the Fitchburg Railroad, were collected by a committee interested to secure its construction, who found that the annual number of passengers, to and from Boston, was 56,080; the tonnage, 38,578, and amount paid for transporting same $335,020.

Our present report shows the number of passengers transported to and from Boston to be 1,521,114; the tonnage 595,649, and the receipts for the same about $1,000,000.

Our equipment has all been kept in good condition, and we have added to our stock two first-class locomotives, three passenger cars, one mail and baggage car, and ninety-six eight-wheel merchandise cars.

Large quantities of new iron rails have been laid down with the most approved joints, or chairs, and our road-bed and tracks have improved in a corresponding manner, and are in excellent condition.

For the better accommodation of our freight business, a new avenue about fifteen hundred feet in length, and fifty feet wide, has been opened and paved with block stone. This gives us a direct entrance from Boston to our freight grounds, without passing over Warren bridge, saving some of the delays occasioned by the crowded condition of that bridge, and the frequent opening of the drawbridge. It also diminishes the distance travelled to receive or deliver freight, from one-sixth to two thirds of a mile. The avenue is so laid out that it can be extended in length at least one thousand feet, and have very convenient freight stations of about two thousand feet in length upon each side thereof.

We have constructed a substantial new freight house of one thousand feet in length, upon the south side of this avenue, and at the junction of the avenue with Warren bridge, have erected a convenient building for freight offices, etc., and at Charlestown have rebuilt the Vermont and Massachusetts freight house, destroyed by fire.

We have added to the extent of our property both in Charlestown and Boston, by building new wharves, and bridges over tide water. The remainder of the old spruce pile wharves in Charlestown have been thoroughly rebuilt, and several new passenger stations and other buildings have been erected upon the road.

Our passenger station at Fitchburg is entirely inadequate for the business of that city. Plans to enlarge and remodel the same were made several years since, but we have been unable to proceed with the work, in consequence of a law passed by the legislature of 1869, providing for the appointment of commissioners, with authority to design and order the erection of a suitable Union Depot. We did not proceed under this law, as some of its provisions granted privileges and removed restrictions, which we considered necessary for the convenience and safety of our

passengers. A board of commissioners has however been recently appointed by the Supreme Judicial Court, but as yet have had no meeting to consider the subject.

The only serious accidents since our last report, have been to persons walking upon or crossing our tracks, and to passengers who in two instances have fallen from the platform of cars when in motion. We intend to use every improved appliance which will afford increased safety to our passengers and trains, and have adopted both Miller's Platform and the Westinghouse Brake; but by constant attention to the improvement of our train regulations and their strict enforcement, we hope seldom to have any occasion to test their efficiency.

Our road commenced running passenger trains on the 20th of December, 1843, and although our record of accidents for these twenty-nine years, proves that a number of passengers have been killed by falling from and between the platforms, it also shows that no passenger wholly inside our passenger cars has ever been seriously injured.

At a special meeting of the stockholders, held November 8d, 1871, the directors were authorized to unite with the Worcester and Nashua Railroad Company in taking a lease of the proposed Lancaster Railroad; and in pursuance therewith, we have united with the said company, and have leased the Lancaster road for a term of fifty years, paying six per cent and taxes upon the cost of the same, and the road is now nearly completed.

TRIAL BALANCE, SEPTEMBER 30, 1872.

Construction account	$4,000,000 00

Treasurer.—M. D. BENSON.

Superintendent.—C. L. HEYWOOD.

Oroya (Peru) Railroad.

A sketch of the Oroya Railroad, in Peru, was recently given by a correspondent of the Boston *Globe*, from which we extract the following:

San Bartolome, forty-six miles from Lima, is another station. Its only importance is, that here the great retrograde to gain elevation is made; for the road, after running back a short distance, returns only some eight hundred feet above. As there is not room to make a sweeping curve, the road forms a V, at the apex of which is a turntable. Shortly before reaching this, the engine is uncoupled, and running on the table, is reversed. It then runs along on a side track to a switch, and by this, backs down to what was the rear of the train, which now becomes the front.

Between San Bartolome and Lurco, a distance of ten miles, the great labor of the enterprise has to be performed, there being fifteen hundred feet of bridging and twelve hundred feet of tunnelling between these places. To give you some idea of the magnitude of this enterprise I will describe the bridge that spans the Agua de Verrugas, a wild torrent running through a picturesque glen situated some 12,000 feet above the level of the sea.

This extraordinary bridge was constructed by the Baltimore Bridge Company, and its dimensions have attracted general notice. It is remarkable for being the highest of its kind in the world, and for surpassing all others of the same class in its perfect system of bracings and connections. It is a viaduct structure, consisting of four deck spans, of the Fink truss type, three of which are 110 feet long, and the fourth and central span being 125 feet long. These spans rest on piers formed of wrought iron columns, and these piers are fifty feet long by fifteen feet wide on top. These piers are the principal features of interest, and are respectively 145 feet, 252 feet, and 187 feet high. They each consist of twelve legs, forming a rectangle.

Transversely, the pier has the appearance of an inverted W; two legs batter in and two out. The outer legs have a batter of one foot in twelve, and the inner are inclined so as to make the abovementioned shape. There are three of these W's in the pier, each containing four legs, making twelve in all. One of the most interesting features of this gigantic structure is the raising. The piers are raised within themselves, tier upon tier, the only power used in drawing up the material being a common windlass. The entire viaduct is five hundred and seventy-five feet long, and is not only the mode of crossing best adapted to the situation, but it is also the cheapest that could there be used.

Peninsular Railway.

At the annual meeting of the stockholders of this company, held at Battle Creek, Mich., on the 15th ult., the report of the president was submitted, from which we make the following exiracts:

The Peninsular Railway Company, as it now exists, was formed by the consolidation of the Peninsular Railway Company, organized between Battle Creek and Lansing, the Peninsular Railway Extension Company, organized between Battle Creek and the State line, the Peninsular Railway Company, organized through Indiana, and the Peninsular Railway Company, chartered from the State line of Indiana to Chicago—making a line of about 210 miles in length.

Ground was broken for the construction of the road at Battle Creek, on the day — day of November, 1866, and the work of grading, bridging and tieing was prosecuted as rapidly as subscriptions could be collected, or municipal bonds could be sold to pay the estimates made to the contractors. While this work was being carried on between Battle Creek and Lansing, the same was being done between Battle Creek and the Indiana State line, and also between the State line and South Bend in Indiana.

In the spring of 1869, our work was progressing so well, and our prospects of an early completion of the road were so flattering, that it was deemed advisable to negotiate a loan for the purpose of ironing and equipping the road. The Board of Directors accordingly authorized me to make such negotiations. A mortgage was made upon the Michigan division of the road to secure the payment of bonds to the amount of $1,800,000, bearing interest at 7 per centum per annum, payable semi-annually, on the first days of May and November, in each year, and the principal was made payable in thirty years.

Municipalities voted to aid the road, on the east division, $131,500, and on the west division, in Michigan, $154,000, making a total of $285,500, of which sum, in consequence of an extraordinary decision of the Supreme Court of this State, $129,300 was lost to the company. The loss of that aid was a great calamity to the company, and for a time bid fair to ruin the enterprise.

After the consolidation of all the companies into one, in the year 1870, a mortgage was made upon the Indiana and Illinois division of the road, similar in its provisions to that upon the Michigan division, to secure the payment of bonds to the amount $2,000,000.

The first rail was laid upon the road on the 14th day of September, 1869, and on the 1st of December the same year, we commenced running regular trains to Bellevue, a distance of 13 miles. On the 14th day of February, 1870, regular trains were run to Charlotte, a distance of 26 miles. On the 13th day of June, 1870, regular trains were run to Lansing, a distance of 45 miles; on the 15th day of October, 1870, regular trains were first run between Lansing and Climax, a distance of 55 miles. On the 26th day of June, 1871, we commenced running regular trains to Cassopolis, a distance of 98 miles from Lansing, and on the 11th day of September, 1871, to South Bend, a distance of 120 miles. The track is now laid a distance of about 25 miles west of South Bend, leaving but about 20 miles to be laid to complete the road to Valparaiso, for which all of the material, except ties, is purchased, and is arriving as fast as it can be laid. We have also put up 120 miles of telegraph line, under a contract with the Western Union Telegraph Company, under the efficient management of E. J. Wood, Esq., Supt. of Telegraph. Twelve telegraph offices have been opened, and others will be as fast as needed, which greatly facilitate our business.

The report of the secretary shows that, previous to the 1st of Nov. 1871, secretary's orders had been issued to the amount of.... $545,966 24
Since Nov. 1, 1871, to Dec. 31, 1872.. 34,738 10

Total to Dec. 31, 1872..... $580,704 34
The Treasurers reports the total amount of Secretary's Orders paid to Dec. 31, 1872, to be..... 438,441 42

Total outstanding Dec. 31, 1872. $142,262 92

The Treasurer's report also shows that he has received during the year 1872, from the sale of first and second mortgage bonds, subscriptions, etc., the sum of..... $1,922,582 07
That he has paid out..... 1,922,529 81

Leaving in his hands $2 26

His report further shows that there was received, in the General Superintendent's department, from all sources, for the same year, and reported to him, the sum of $178.042 91.

The General Superintendent's report shows that the earnings of the road from Dec. 1, 1869, to Dec. 31, 1872, were as follows:

December, 1869, and the year 1870	$41,364 24
Year 1871	88,856 44
Year 1872	109,913 52
Total	$240,134 20

It also shows the following statement of expenses of operating the road, construction and other accounts connected with his department, as follows, viz:

Month of December, 1869, and year 1870	$37,374 45
Year 1871	145,889 19
Year 1872	168,252 52
Total	$351,466 16

The books in his office show an indebtedness in that department of $111,331 96, a large portion of which is chargeable to construction and not to operating account.

The report of the General Freight and Passenger Agent shows that the number of passengers transported, is as follows, viz:

December, 1869, and year 1870	49,048
Year 1871	66,059
Year 1872	83,491

That the total weight of freight transported over the road during the year 1872 was 92,667,353 pounds, or 46,333 tons.

At the conclusion of the reading of the report, on motion, it was accepted. The meeting then proceeded to the election of directors, which resulted in the choice of the following gentlemen: Joseph M. Ward, Edwin C. Nichols, Leonidas D. Dibble, Battle Creek; Elisha Shepard, Charlotte; Sylvador T. Read, Cassopolis; William Miller, South Bend; Samuel I. Anthony, Valparaiso; William E. Henry, Joliet, Ill.; Martin S. Brackett, Bellevue, Mich.

American Railroad Journal.

Saturday, February 1, 1873.

Stock Exchange and Money Market.

Money has been more active during the week. The speculative demand has been more urgent, chiefly for use at the Stock and Gold Boards, and call loans have been quoted at from 7 per cent. currency to the same rate, gold, with, on one or two days, some negotiations reported at a fractional commission added to the legal rate, and also some exceptional advances at figures under the latter quotation. The Government houses though reporting a livelier need of money have had their wants quite promptly met through the week, within a range of 5@7, generally on the basis of 6 per cent. The discount market has been somewhat brisker, with strictly choice to very good grades of business paper in more favor with buyers at from 8@10 per cent. per annum as the ruling rates. The City Banks reported a further important gain in their legal tender reserve, with an addition of over four millions to their deposit line, and an augmentation of their loan and discount averages, of nearly four millions. They lost about ¾ths of a million of specie, and slightly reduced their circulation.

The U. S. Sub-Treasury office last week received $4,252,034 of currency, and $3,279,665 of gold, the latter including $2,374,429 from customs; and disbursed $2,372,337 of currency and $3,234,962 of gold, the latter embracing $1,398,609 of coin interest.

The specie reserve of the city banks according to the latest return is $20,371,700, against $25,228,200 same time last year. The city bank deposits are now $216,670,800 against $221,074,200, week ending Jan. 27, 1873. The legal tender reserve amounts to $45,974,000, against $46,338,300 same time last year. The circulation now stands at $27,529,200 against $28,288,900 same time last year. The loans are now $282,159,100 against $280,881,000 at this date last year.

The coin reserve of the city banks is now about 20⅜ millions as against about 25¾ millions on the 20th of last July; the legal tender reserve is about 46 millions against about 55½ millions on the statement of June 15th; and the deposits are now about 216⅝ millions, against 247¼ millions on the 20th of July.

The cash balances in the Treasury Department at Washington on Tuesday were as follows: Coin, $64,347,242; currency, $4,743,608; Coin certificates are outstanding for $24,801,000.

The city banks, in their latest return, show a gain of $1,553,100 of legal tender notes, with a decrease of $739,100 of specie, and an increase of $4,082,600 in their deposits, an addition of $3,949,500 to their loan and discount averages, and a contraction of $13,600 in their item of circulation. The city bank exchanges, last week, averaged 109¼ millions. The banks now hold $5,295,700 of specie and legal tender notes more than the 25 per cent. of their liabilities required by the National Banking Act.

The clearances of the banks averaged through the week 109¼ millions a day, and amounted in the aggregate, for the whole week, to $655,561,098 as against $706,763,521 the preceding week. The U. S. Sub-Treasury at this point enlarged its currency balance, over 1⅞ millions and its coin reserve moderately as the result of the week's business.

Government revenues have been on a moderate scale, since our last. The excises yielded within the week about two millions and thus far in the current fiscal year beginning with July 1, 1872, $68,448,582. The customs at theport of New York, for the week, were $2,374,429, and at the outports, about a $800,000 more, in coin or coin certificates.

There has been a much more confident movement in Gold, chiefly on speculative account, with a further rise in the price, though the fluctuations have been frequent, and toward the close, there was less buoyancy apparent, influenced by sales to realize, stimulated by the failure of the market on Saturday to respond to the forced shipment of $2,000,000 Gold Coin. The customs call was moderate, considerably under half a million a day. The range of the price during the week has been from 113¼@114¼, and the closing quotation on Wednesday was 113⅞@114 against 113⅝ of the preceding week. The specie outflow last week, was $2,995,845. The Gold Exchange Bank clearances have averaged about 75 millions per day during the week.

The customs demand for Gold last week, averaged $895,738 a day. The arrivals of specie from Europe, Havana and other foreign ports during the week were $32,440 and thus far in 1873, $86,049 against $94,052 in 1872. The total customs revenue of the Government, in coin, at this port, since July 1, has been $77,262,127 against $80,414,005 during the same time in 1871-2.

Government has disbursed through the U. S. Sub-Treasury here, on account of the coin interest on the public debt, since July 1, 1872, $53,637,251, against $55,359,423 during the same time in 1871-2.

The export drain of specie was $2,955,846 last week, against $550,068 same week preceding year. The shipments since July 1, 1872, have been $41,655,268 against $23,805,860 during the same portion of 1871.

Foreign Exchange has been fairly active, but variable as to price, on more liberal offerings of bills. Bankers' sixty day bills on London closed at 109¼@109½; sight bills on London, at 110¼@110⅜. The weeks exports of Domestic Produce have been to the currency value of $4,856,819.

Government securities have been in unusually active demand, mainly on investment account, and prices have advanced sharply all through the list of national interest bearing obligations, stimulated by the announcement that arrangements has been made for the revival of the Syndicate process of refunding the outstanding six per cent. coin bearing bonds, to the further amount of $300,000,000 into new Five per cent. bonds, of the same general nature and character as the Five per cent. funding issues, already marketed. Of the proceeds of the New Loan, it has been estimated that about five-sixths will go to the holders of coupon 5 20s, held principally in Germany, and now to be called in for redemption. And of the remaining $50,000,000 to be applied to registered 5-20s of 1862 and 1864, held in this country, more than one-half will go to the National Banks, and they will simply purchase and substitute the New Loan in the banking department for the stocks called in for redemption. Nor is the operation of the Syndicate itself deemed so likely to assist the Exchange and Gold markets, as its indirect influence upon American Bonds in Europe. If, as it is hoped, this should lead to larger employment in the next few months of our first-class Railroad and City Bonds in England and on the Continent, the effect would be eminently favorable in the adjustment of current trade balances, which for less than seven months of the Fiscal Year have absorbed over fifty millions Gold and Silver—the shipments from this port alone since July being $41,655,000. Of our Coupon Public Funds, amounting, exclusive of the New Syndicate, to $1,023,724,600, very few now remain on this side available for remittance abroad, at any price.

Government bought in on Wednesday $169,350 Five Twenties, from 113 70@113 74 net out of an aggregate offering of only $208,900 at 113 70 @113 99.

U. S. sixes of 1881 closed on Wednesday of this week at 119⅛@119¼ U. S. Five-Twenties of 1862, 115¼@116½; U. S. Five-Twenties of 1864 at 115¼@115½; U. S. Five-Twenties of 1865, 116¼@116½; U. S. Five-Twenties of 1865 consolidated, 115@115¼; U. S. Five-Twenties of 1867, 116⅝@116¾; U. S. Five-Twenties of 1868, 116@116⅞; U. S. Ten-forties at 115⅜@115⅝; U. S. Fives of

1881 (Funding Loan) 114⅝@115¼; Six per cent. currency Sixes from 115¼@115½.

The latest quotations at the London Stock Exchange compare as follows with former returns:

	Jan. 15.	Jan. 22.	Jan. 29.
Consols	92¼	92⅜	92⅛
U. S. 5-20s, 1865	93¼	93¼	92⅞
" 1867	93⅜	92⅞	93
" 10-40s	89⅞	91	92½
New Fives of 1881	90⅜	89¾	91
Erie	50	50	51¾

State bonds have been in more general request and quoted stronger in price.

There has been a more satisfactory inquiry noted for the better class of Railway Mortgages, and prices have been quoted stronger. Central Pacific Sixes closed firmly at from 101½@101¾, ex the January three per cent. (coin) coupon. Chesapeake and Ohio Sixes have been in good request, at the established price. The Northern Pacific 7-30 Loan has met with a readier sale at par and interest.

Railway and Miscellaneous share property has been decidedly active, on a generally advancing market, though the later dealings showed less firmness, influenced, in part, by speculative manipulations, with a view to the depression of values.

There has been less activity in the Metal line. Copper was rather weaker in price and not as urgently sought after. Iron was firm, but quiet. Lead, Spelter, and Zinc, dull. Tin rather inactive, but held with confidence.

General business has been on a moderate scale, checked to a considerable extent, by the stormy weather and the difficulty of transporting produce and merchandise. There has been a lighter movement in Breadstuffs, Provisions, Wool, Hides, Leather, Petroleum, Hops, and Tobacco. Prices of Breadstuffs and Provisions closed irregularly, Petroleum, and Naval Stores were in more demand mostly for shipment, at firmer rates. Middling upland cotton, left off on Wednesday at 21⅛@21⅞cts. per lb. The receipts at all the ports, since Sept. 1, have been 2,191,475 bales, against 1,872,215 bales same time in the preceding year; exports 1,176,866 bales against 979,960 bales in the previous year; stock at the ports at latest dates, bales 558,000 against 544,724 bales same date 1871.

Foreign merchandise has been in rather more request, yet not freely dealt in, values remaining essentially as before. The week's imports amounted to $10,106,401, including $4,368,596 of dry goods.

Ocean freights have been less active, and berth rates have been quoted weaker. Vessels wanted on charter, chiefly for the Grain, Petroleum, and and Cotton trades.

At the auction sale of Scranton Coal, on Wednesday, prices advanced 20@35cts. per ton, and the entire offering was promptly placed at from $3 87½@5 10, as against $3 58@4 90, in December. At private trade, the market has been active and excited, and prices have been advanced 30@50cs. per ton influenced in part by reports of combinations to control supplies.

At the Live Stock Markets, Beeves have been in reduced supply and fair demand at from 8@14½; cts. Veals at 6@10½ cts.; Sheep active at from 5@8¼ cts.; Swine at 5@5¼ cts. per lb., all live weight. The week's receipts were 7,449 Beeves, 693 Veal Calves, 25,415 Sheep and Lambs, and 24,663 Swine.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Completion of the Chesapeake and Ohio Railroad.

The Richmond journals announce the laying of the last rail on the Chesapeake and Ohio; and henceforward there is a free course for the locomotive from the tidal waters of the James River to the Ohio River at a point close to the north eastern boundary of Kentucky.

The significance of this event can hardly be appreciated without reverting to a leaf of past history. It is not generally known that the route of this road was one of the first highways ever constructed from the seaboard States to the Ohio Valley; nor that General Washington himself was one of its first surveyors: and at a later period, after a highway had been carried over the mountains, into what was then the western wilderness, that he became President of the company which designed to connect the navigation of the coast with that of the western streams. Long before the era of steamboats, or steam road engines, the fertile lands of the Ohio and Upper Mississippi Valleys had attracted the attention of the more adventurous spirits to the regions which now form the great States of Kentucky and Ohio. It had not, however, occurred to the inhabitants of that day that the inhabitants of the Eastern States should be fed and clothed from those west of the mountains. Cattle might indeed be driven from the mountains in summer, but the idea of bringing flour and wheat from the banks of the Mississippi to New York or Philadelphia would have seemed absurd. Washington expressed the conviction in one of his Reports that the produce of the west might by means of improvements in the Kanawha, be brought to the foot of the mountains, and then by means of canal and slackwater navigation be carried over the mountains, so as to reach the sea going vessels on the deep waters of the James River.

That project, after the lapse of nearly a century, is now asking the aid of the Government, on the ground that the surplus of products of the Western States is far beyond the capacity of existing roads and canals to carry off. Farmers who are compelled to raise corn, oats and wheat at low rates, find the cost of transportation very oppressive and are petitioning the Government to relieve them in any practicable way.

The Chesapeake and Ohio Railroad now just opened, traverses the very route laid down so many years ago by General Washington; but instead of the slow and unwieldy canal boats, which were then just introduced on this continent, the transit is now made by the locomotive which was not heard of until some years after Washington's death. The very attributes and excellencies which he pointed out for the canal, served the purposes of the railroad as well or better, and the result is, we now have a railroad crossing the main chain of the Alleghanies by exceedingly low grades, so light and uniform that a locomotive with a hundred cars might pass from the Ohio River, (and when the line is completed that far, from Cincinnati) and travel to the summit of the Alleghenies without encountering a grade in either direction of more than 80 feet to the mile, or less than those in common use on our best roads.

The new line stretches from the capacious ever open Chesapeake navigation, to the centre of the Ohio Valley, and connects the two great systems of internal and seaboard navigation by the shortest portage. After traversing the rich alluvial lands of eastern Virginia, it crosses the rich Piedmont and Valley Region of Central Virginia, where are to be found remarkable deposits of iron ores. Further west the line passes through the limestone valley of the Greenbrier, and following the course of the New and Kanawha rivers, cuts through the great Allegheny coal field, leaving the coal strata high and dry above the track and above the level of the streams. Three varieties of coal are found in abundance and very accessible, suited to the uses of fuel, smelting and gas respectively. An exchange of freights between the ore beds of East Virginia and coal beds of West Virginia will thus be kept up, the iron furnaces clustering along 300 miles of the railway.

The Chesapeake and Ohio Road will have a special advantage in the carriage of through freights to the seaboard in the facts that it taps the cheap navigation of the Mississippi at its easternmost and most reliable point, in the proximity of cheap fuel, and in the fact that it will rarely or never be obstructed by the inclemency of the season.

When we recall the struggles of the Pennsylvania, the Erie, and the Baltimore and Ohio roads in getting to the open country beyond the Alleghenies, the burdens of debt which they successfully carried; and the colossal proportions to which their operations and revenues have attained, it is an encouraging reflection for the future of the road just opened, which begins its through operation with a comparatively light debt, and a solid and easily maintained track and road bed. There is reason to believe that it will rapidly take rank with the most prosperous trunk lines on the continent.

☞ Hon. John H. Clifford, of New Bedford, has been elected President of the Providence, Warren and Bristol Railroad Company.

BANKING-OFFICE OF

FISK & HATCH,

NEW YORK, Jan. 29, 1873.

The Chesapeake and Ohio, the Central and Western Pacific Bonds, all of which have been negotiated by us, we believe to be among the best and most desirable Investment Securities in the market, which in time must become very scarce; especially as the Government will probably, during the coming year, pay off, in gold, another large lot of Five-Twenties, and issue in their place Five Per Cent Bonds.

The Chesapeake and Ohio Six Per Cent Gold Bonds, the total amount of which is only $15,000,000, are secured upon a property worth $35,000,000 to $40,000,000, and are fully equal in intrinsic value to the Central Pacific Bonds. They are issued in denominations of $100, $500, and $1,000, coupon or registered, and at their present market price, 86 and accrued interest, are very desirable.

The Central Pacific Six Per Cent Gold Bonds are too well known to require description or commendation. Their total amount is $25,885,000; they have for a long time ranged in market price near or above par.

The Western Pacific Six Per Cent Gold Bonds amount to $2,735,000. This road is now consolidated with the Central Pacific, and the payment of its bonds, principal and interest, is assumed by the latter. Coupon Bonds, $1,000 each. Their market price to-day is 91@91¼. As they have recently been introduced on the Stock Exchange, we expect to see them rapidly rise to the price of Central Pacifics, being substantially the same in character and value.

We buy and sell, as usual, Government Bonds, receive deposits, on which we allow interest, make collections, and conduct a general banking business in all its branches.

FISK & HATCH.

☞ Mr. A. B. Stockwell, president of the Pacific Mail Steamship Company and the Samana Bay Company, recently organized, has been elected president of the Atlantic and Pacific Railroad Company, which company some time since leased the Pacific Railroad Company of Missouri, guarantying the following dividends on the share capital of the latter: 5 per cent. per annum for first three years, 6 per cent. for two succeeding years, and 7 per cent. forever thereafter, or during the remainder of the lease, which was made for 999 years. Mr. Andrew Pierce, formerly president of the company, was elected vice-president and general manager.

☞ The following gentlemen have been elected directors of the Lawrence Railroad Company: G. W. Cass, J. N. McCullough, Thos. D. Messler, and John B. Jackson, of Pittsburg, A. L. Crawford and A. W. Cunningham, of New Castle, and Caleb B. Wick, of Youngstown. At a meeting of the board held subsequently, an organization was effected by the election of Thos. D. Messler President, and F. M. Hutchinson Secretary and Treasurer.

☞ The Monongahela Navigation Company have declared a dividend of one dollar and a half a share upon the capital stock, payable on and after the 25th of January, 1873.

Movements of Produce at Milwaukee.

The following statement shows the aggregate receipts of the leading articles of produce by lake and rail at Milwaukee for the year 1872, as compared with those of 1871:

	1872.	1871.
Flour, barrels	816,184	767,654
Wheat, bushels	13,275,726	14,898,791
Oats, bushels	1,608,048	1,121,950
Corn, bushels	2,041,196	1,151,002
Rye, bushels	410,188	465,547
Barley, bushels	1,447,569	873,754
Beans, bushels	12,532	15,588
Peas, bushels	30,776	42,399
T. Seeds, lbs	620,756	563,079
C. Seeds, lbs	1,066,390	961,798
Eggs, barrels	30,501	15,410
Lard, lbs	193,555	64,283
Tallow, lbs	340,717	330,091
Butter, lbs	4,197,703	4,217,074
Hops, bales	13,034	21,861
Hides, No	186,721	151,979
Wool, lbs	1,680,492	1,889,160
Dressed Hogs, No	163,327	147,847
Live Hogs, No	131,647	126,160
Cattle, No	13,863	9,132
Pork, barrels	4,105	3,685
Lumber, ft	89,639,000	85,391,000
Shingles, M	3,022,400	31,218,000
Lath, ft	4,295,000	6,621,000
Salt, barrels	155,595	217,787
Sugar, barrels	104,070	88,199
Sugar, hhds	1,001	4,470
Coffee, sacks	32,168	34,669
Potatoes, bushels	93,080	63,820
Cranberries, barrels	41,089	19,084
Pig Iron, tons	12,198	11,011
Iron Ore, tons	107,834	101,917
Coal, tons	19,237	167,342
Wood, cords	158,139	30,795

The annexed statement shows the shipments of the undermentioned articles from Milwaukee by lake and rail during the year 1872, as compared with those of 1871:

	1872.	1871.
Flour, barrels	1,233,109	1,211,427
Wheat, bushels	11,468,276	13,419,467
Oats, bushels	1,337,229	772,929
Corn, bushels	1,557,953	418,286
Rye, bushels	209,210	208,811
Barley, bushels	931,047	577,732
Beans, bushels	19,140	12,714
Peas, barrels	20,657	20,201
Potatoes, bushels	29,713	34,351
Hops, bales	8,567	21,520
Eggs, barrels	14,111	8,719
Pork, barrels	85,573	85,233
Pork, tierces	21,046	20,292
Lard, barrels	6,554	4,230
Lard, tierces	26,083	19,071
Beef, barrels	4,794	3,912
Beef, tierces	1,619	1,906
Cut Meats, lbs	4,542,030	4,742,341
Bacon, boxes	39,701	14,638
Butter, lbs	2,679,321	2,900,488
Dressed Hogs, No	5,983	2,518
Live Hogs, No	10,956	4,239
Cattle, No	9,444	6,412
Hides, No	46,524	23,441
Wool, lbs	2,119,170	2,643,459
Feed, lbs	7,391,970	15,697,000
Feed, sacks	.....	23,401
Pig Iron, tons	7,755	8,571
Iron Ore, tons	29,394	28,660

☞ The southern extension of the Wellington, Grey and Bruce Railway was formally opened to the public on the 19th December from Palmerston to Listowell, by the President, Col. McGiverin, and the Directors. It is understood that this company has agreed to build the Clifford and Durham Railway on receipt of a bonus of $80,000 from the municipalities through which it passes. This line will form a link of the chain which will connect with some port on the Georgian Bay and thereby develop this branch into a main link of an important chain.

Journal of Railroad Law.

RAILROAD COMPANIES—RELATION OF CONSIGNOR AND CONSIGNEE WITH COMMON CARRIER.

The facts in the recent case of Nelson *vs.* The Hudson River Railroad Company, (48 N. Y., 498,) are fully and clearly stated in the following opinion by—

HUNT, J.—It is admitted that the defendant was a common carrier at the time of receiving the looking glass for transportation. It is conceded also as a matter of law that a common carrier may limit his liability by express contract. This has been held many times within a few years past. (Redfield on, Carriers § 11, Bissell *vs.* N. Y. C. R. R. Co., 25 N. Y., 442).

An agreement, special and limited in its character was actually made in this instance, and under which the defendant claims exemption from liability. The plaintiff insists that he gave no authority for the making of that contract and that he is not bound by it. This presents the first question in the case. The facts lie in a nutshell. Having purchased of Kimball & Whittemore a gilt mirror and frame for the sum of $195, the plaintiff "directed that the same be well packed in a box by the said Kimball & Whittemore, and delivered in good order to the Hudson River Railroad Company for transportation by them, by railroad to Fulton, New York, but gave the said Kimball & Whittemore no other authority to contract with the carrier or to execute the release of which Schedule A. is a copy," the railroad company refused to receive or transport the mirror, except upon the terms of the special contract. Had Kimball & Whittemore authority as the agent of the plaintiff to enter into the same?

The authority to the agent was verbal and therefore entitled to a more liberal construction than would be given to a formal written instrument. (Story on Agency, §§ 82, 87, 100, 103.)

The object to be attained was, the transportation of the property to Fulton, and no restrictions or limitations were placed upon the means of doing it except that it should be by the railroad of the Hudson River Company.

The authority thus to be construed was to deliver the mirror to the railroad company for transportation. A delivery to a carrier for transportation imports an acceptance by the carrier for that purpose. (Redfield on Carriers, § 95, &c.) The consent of the carrier to receive is as necessary to the completion of a delivery as is the consent of a grantee in a deed tothe delivery of the deed. In neither case can the obligation or the advantage be thrust upon a person without his assent. An authority to deliver for transportation could only be executed by obtaining the consent of the carrier to receive the same. A carrier is not liable for the value of property, until he has received the same for transportation, either in fact or in construction of law. If he arbitrarily and illegally refuses to accept the property, he may be liable in damages for a breach of his duty, but not as a carrier for the value (39 N. Y., 34).

Kimball & Co. were authorized then to carry this mirror to the starting point of the Hudson River Road and to procure its acceptance by that road for the purpose of being transported to Fulton. This authority must be construed to include all the necessary and usual means of carrying it into effect. In Redfield on the law of Railway's it is said: "As a general rule the agent to whom the owner intrusts the goods for delivery must be regarded as having authority to stipulate for the terms of transportation." (Redfield Railways, 22.) This is in accordance with the general principle. Numerous instances of this character are collected in Story on Agency. Thus a general authority to collect, receive and pay debts, will authorize settling accounts, adjusting disputed claims, resisting unjust claims, answering or defending suits, as incident to and included in the primary power. (§ 58.) An authority to collect a debt will authorize the arrest of the debtor. An authority to a broker to effect a policy will authorize him to adjust a loss, and to adopt all necessary means to procure an adjustment. An authority to settle losses on a policy will include a power to refer the matter to arbitration. An authority to sell and convey lands for cash, includes an authority to receive the purchase money, (Id.) An agent who is employed to procure a note to be discounted may, unless expressly restricted, indorse it in the name of his employer or he may indorse it in his own name and claim indemnity of his principal. A servant or agent employed to sell without express restriction to mode, may sell by sample or with warranty (§ 59). Such an authority also includes not only the means necessary and proper, but all the various means which are justified by the usage of trade, thus authorizing a sale upon credit when that mode of sale is justified by the usage of trade (§ 60.) In other words the agent is clothed with full authority to use all the usual and appropriate means to accomplish the end, unless a more restricted authority is established §§ 73, 102, 103).

These principles amply justify the authority to make the contract in question by Kimball & Whittemore on behalf of the plaintiff. They were directed to deliver the mirror to the carrier. This required them to procure an acceptance of the article by the company. They were directed in effect to procure "its transportation to Fulton by the railroad company." This could only be accomplished by entering into a contract that it should be transported on an open carriage, where it was exposed to unusual hazard of injury, and upon specified terms of liability. The mirror must remain uncarried by the Hudson River Company, or this arrangement must be made. The plaintiff's authority was general and was unrestricted. In my judgment the contract made, to wit: that it might be shipped upon an open carriage, and that the carrier should not be responsible for any breakage thereof, was within the agent's authority and is obligatory upon the plaintiff. It is said in further objection to the right of recovery that the agreement was without consideration and for that reason is void. This argument is based upon that section of the statute (§ 36 Laws of 1850, Ch. 140) which makes it the duty of a railroad company to receive and transport property, "on the due payment of the freight or fare legally authorized therefor." They were bound it is said to carry it, and there is nothing to show that the defendant would or could have charged a higher price if the property had been transported

in a covered carriage. This argument is based upon the assumption that the defendant was bound to carry at a rate or price fixed by law, and that the law fixed their liability founded upon that rate or price. I do not understand that either of these assumptions are well founded. The statute fixes no rate of fare either for mirror or non-perishable property; for goods carried in covered cars or in open cars. The whole thing is a matter of contract. The company can fix any reasonable rates they think proper at pleasure. They received the mirror in question for transportation over their road; they were bound so to transport it; if they failed to deliver it uninjured they were liable or not, according as the injury was or was not the result of causes for which they agreed to be liable. The undertaking to carry was the consideration for the agreement of the shipper, as the liability of the shipper to pay the freight, was the consideration for the agreement of the carrier to transport. There was a mutual and sufficient consideration, the same that exists in the ordinary case of shipment of goods with or without a special contract.

Without intending to weaken any other ground of defence by not alluding to it I am content to place my judgment upon the ground stated. The plaintiff recovered the full value of his mirror, notwithstanding the injury to it accrued from a cause for which it was expressly stipulated that the defendant should not be liable. This was error.

There should be a new trial with costs to abide the event.

Judgment reversed.

Northern Pacific Railroad.

By reference to the statement of this company on the first page of this week's issue, it will be seen that regular daily trains are now running over 321 miles of road, and that a distance of nearly 200 miles more is constructed; that the recently completed 65 miles on the Pacific Coast at once commands a profitable business between Puget Sound and the Columbia River; and that, on the opening of Spring, with more than 500 miles of road in regular operation, the company will control the extensive and productive trade of the Upper Missouri, much of Montana and the Northwest.

For the purpose of completing its line of road, the company is now selling its First Mortgage Bonds, bearing interest at the rate of 7-30 per cent, gold, secured by a first mortgage on the road, its right of way, telegraph line, equipments and franchises, and a first lien on its net earnings. There is also pledged for the payment of the principal and interest a land grant of 12,800 acres per mile of road through the States, and 25,600 through the territories. Nearly 10,000,000 of acres have already accrued to the company in connection with the completed portion of the road. About 2,000,000 acres are now in the market. The average price thus far obtained from the sale of these lands is $5.66 per acre. The bonds are received at 1.10 in payment and exchange for the lands.

It is stated that arrangements for pushing construction vigorously the coming year are progressing satisfactorily.

☞ George F. Gage has been appointed Superintendent of the Huntingdon and Broad Top Mountain Railroad, vice John McKillips resigned.

☞ The Vera Cruz and Mexico Railroad has been finished. The festivities attending the inauguration, which commenced on the 1st ult., lasted a week, and were participated in by the president, members of the cabinet, congressmen, and the principal citizens.

☞ Attention is invited to the thirty-ninth semi-annual statement of the Home Insurance Company, showing assets amounting to $4,446,859. The company has a cash capital of $2,500,000.

☞ At a late meeting of the directors of the Mobile and Ohio Railroad, the board considered the question of increasing the capital stock of the road from $4,000,000 to $8,000,000, by making a call or assessment on present stockholders of twenty-five per cent. on the amount of stock they now hold.

☞ A bill has passed both houses of the Virginia Legislature authorizing the Virginia and North Carolina Railroad Company to resume the name of the Washington City, Alexandria, Lynchburg and North Carolina Railroad.

☞ Mr. F. N. Finney has been appointed Superintendent of the Canada Southern Railway, J. H. Sheldon Assistant Superintendent, and C. E. Benton, Master Mechanic.

ERIE RAILWAY COMPANY.
VICE-PRESIDENT'S OFFICE,
(P. O. Box 839.) New York, January 9, 1873.

To Bridge Builders.
THE ERIE RAILWAY COMPANY PROPOSE, as they renew the bridges upon their Road, to substitute iron for wood. They have a large number of bridges in spans varying from 20 to 200 feet.
With a view to determining the best plan to adopt, they invite you to make a proposal, based upon plans and specifications, to be furnished by you for bridges of various spans from 20 feet upward, with your price for the same.
Let your price be predicated upon the fixed price of iron and steel, to be varied as those materials may advance or decline in price.
Yours, &c.,
A. S. DIVEN,
Vice-President.

OFFICE OF THE ILLINOIS CENTRAL RAILROAD COMPANY, NEW YORK, Jan. 6, 1873.
A DIVIDEND OF FIVE PER CENT. HAS been declared by this Company, payable on the 1st day of February next, to the holders of full paid shares, registered at the close of the 16th day of January instant, after which and until the 5th day of February next, the transfer-books will be closed.

HAND'S IMPROVED DUMPING CART.

PATENTED APRIL 4th, 1871.

THE MOST PERFECT YET INVENTED.

Can be dumped by a single motion of one hand while you hold the horse with the other.

The tail-board being attached to the shafts, lifts of its own accord when the cart is dumped, as seen on the right of the engraving. As soon as the load is dumped all you have to do is to start the horse, and the cart will resume its proper position, as seen in the left of the engraving, hook itself and replace the tail-board, without any assistance of the driver whatever. The shafts are attached to the outside of the body, near the hubs, which gives the horse great control over the cart, and prevents the body from playing from side to side as they do when the shafts are pivoted underneath.

Manufactured and for Sale by **WILLIAM & HENRY HAND,**

THE WHARTON

Safety Railroad Switch.

BOTH RAILS of the main track absolutely immovable, continuous and unmutilated.

This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.

They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

FISHER'S PATENT

Wrought Iron

RAIL JOINTS,

MADE BY

FISHER & NORRIS,

TRENTON, N. J.

The Superiority of these Joints has been proved by eight years' use on different Roads.

PRATT'S PATENT COMPENSATING FISH-JOINT,

MADE BY

VERREE & MITCHELL,

IRON AND STEEL MANUFACTURERS,

No. 939 North Delaware Avenue, Philadelphia, Penn.

COMBINES MORE ADVANTAGES THAN ANY FISH-JOINT HERETOFORE INTRODUCED.

This Joint is made of two heavy bars of wrought iron, or cast steel, sixteen inches in length, or any other desired length, fitted to the side of the rail and secured by four three-quarter inch bolts, with four malleable cast-iron cups and washers, and a gum ring two inches in diameter and half an inch thick, in each cup.

The value of gum to absorb jarring motion is well known; but when the pressure is as great as that required to secure the ends of railroad rails, some device, or method by which to prevent the gum from being forced out from under the washer, when subjected to increased pressure, is indispensable. The PATENT COMPENSATING FISH-JOINT secures that effect and enables Railroad Managers to apply all the force and pressure desired.

Where this Joint is securely fastened by screwing the nut upon the washer and gum in the cups with a lever three feet in length, it makes a perfectly tight joint, and thus secures what Railroad Managers have long desired—*a continuous rail*, with sufficient elasticity in the gum to relieve from and compensate for the sudden jar and at the same time allow for expansion and contraction by heat or cold.

We confidently claim for the PATENT COMPENSATING FISH-JOINT:

That it makes the best and cheapest form of fastening, requiring no plate or chair underneath the foot of the rail.

That it is safe and secure, and prevents the numerous accidents resulting from loose or broken rails.

That this Joint absorbs the vibratory shock given by the wheels in passing over the ends of rails, and thereby preventing fracture; and we have yet to hear of the first rail having been broken with our Joint on it.

That it can be applied in repairing and relaying with the least trouble and delay.

That the materials are indestructible, and make A PERFECT AND CONTINUOUS RAIL, thus securing what has long been desired, and what all previous experiments have failed to attain.

The Manufacturers can supply these Joints, complete in all their parts, ready to be fastened to the rails with dispatch.

Refer to all the Leading Railroads in the Country.

American Railroad Journal.

New York, Saturday, February 8, 1873.

Boston, Barre and Gardner Railroad.

This road at present extends only from Worcester to Gardner, about twenty five miles. From the annual report of the company just issued we learn that the earnings for the year 1872 were $74,990, of which $46,818 was from passengers, and $28,049 from freight; total expenses, $69,671; leaving a net income for the year of $5,319. The total cost of the road and equipment, etc., to January 1, 1873 has been $902,237, the road having been in operation about a year and a half, the last year running four trains each way daily. The extension of the road from Gardner to Winchendon, about ten miles, was authorized by the Legislature of last year, and a contract to construct it was made last November with B. N. Farren of Greenfield, who began operations at once, and has gone on with the work to the present time, with such vigor, that it now looks as if it might be finished some months prior to the time of the expiration of the contract in January next. The contract price for constructing the extension is $25,000 per mile, and the engineering, land damage and other expenses, will increase this cost to something like $280,000. The directors estimate that at the end of the present year, 1873, the road, with its equipment and appliances, will have cost about $1,200,000; $900,000 of which will be represented by stock, and $300,000 in bonds. By this calculation, the thirty-six miles of road from Worcester to Winchendon will cost on an average about $40,000 per mile.

TO INVESTORS.

To those who wish to REINVEST COUPONS or DIVIDENDS, and those who wish to INCREASE THEIR INCOME from means already invested in other less profitable securities, we recommend the Seven-thirty Gold Bonds of the Northern Pacific Railroad Company as well secured and unusually productive.

The bonds are always convertible at Ten per cent. premium (1.10) into the Company's Lands at Market Prices. The rate of interest (seven and three-tenths per cent. gold) is equal now to about 8¼ currency, yielding an income more than one-third greater than U. S. 5-20s. Gold Checks for the semi-annual interest on the Registered Bonds are mailed to the postoffice address of the owner. All marketable stocks and bonds are received in exchange for Northern Pacifics ON MOST FAVORABLE TERMS.

JAY COOKE & CO.

Texas Central Railroad.

We had the pleasure of an hour's conversation yesterday with that energetic railroad man, Paul Bremond, and were glad to learn that the completion of the main line of the Central road was so nearly accomplished, and that as soon as connection is made at Red River with the Missouri, Kansas and Texas road, that all the energies of the Central will be concentrated on branch lines. The trunk road to Red River will be finished early in January, after which if proper inducements are offered, or assistance afforded, the Central will construct a branch road from some point in Navarro, through Kaufman, Hunt, and intervening counties, to a point on Red river, probably crossing opposite old Fort Townson, in the Choctaw District, thence on to Fort Smith, connecting with a branch of the Atlantic and Pacific road, opening up one of the finest countries on the globe and shortening the route between Galveston and St. Louis one hundred and twenty-five miles. The Central Railroad Company are achieving a reputation for energy and financial ability second to no other company in the State.—*Galveston News.*

Through Transportation.

At the Iowa Industrial Convention yesterday, in Des Moines, ex-Lieut.-Gov. Bross delivered an able speech on the great question of through transportation. The main points on which the gentleman dwelt was the surplus of grain already compelling Western farmers to burn corn for fuel; the certainty that this surplus would be constantly augmented by the increase of population; the disproportion between means of transportation, the increase of the surplus, and the growth of population; and the condition to which the farming population of the West will inevitably be reduced by the low prices, high rates of transportation, and lack of facilities for getting grain to the only adequate market, the seaboard.

In the States of Illinois, Iowa, Kansas, Minnesota, Nebraska, Wisconsin, the ratio of increase of population for the ten years between 1860 and 1870, is sixty-four per cent. The same ratio would give these States, in 1890, 30,500,000 people. In the year 1872, there were built in these States half as many miles of railway as during the previous ten years; but this increase has only added to the perplexities of the situation by augmenting facilities for settlement, while means of getting the product thereof to market remain the same. Despite the enormous increase in population, and the swelling of the quantity of grain seeking shipment, only one through road between the West and the seaboard has been built since 1855.

The governor sees but two expedients for relief, a war in Europe, increasing prices, and the enlargement of the Canadian canals. The cost of the Huron and Ontario Ship canal, from the Georgian Bay to Toronto, lies between $24,000,000 and $40,000,000, according to American and European estimates. He believed that six cents a bushel saved on freights for ten years would pay the bill, and the same sum saved on grain imported into great Britain would pay for it in five years.—*Chicago Post, Jan. 28.*

☞ The Portland and Ogdensburg Railroad Company have decided on a new line between Conway and the Twin Mountain House on the west side of the Notch (in the White Mountains). The distance is eight miles, and the grade will be about 116 feet to the mile. The work on the grading has begun.

☞ At the election of the Little Miami Railroad managers at Cincinnati recently, the old board was re-elected. H. J. Jewett was chosen President, C. P. Cassilly Secretary, and Joseph C. Butler Treasurer.

Boston and Albany Railroad.

The receipts and expenditures of this road for the financial years which terminated September 30, 1871 and 1872, have been as follows:

Receipts:	1871.	1872.
From passengers	$2,776,405 46	$2,880,883 85
" freight	4,747,180 21	5,846,768 11
" mails, etc	438,756 73	531,946 85
	$7,962,342 40	$9,259,598 81
Expenses:		
Repairs of roadway	$973,964 57	$1,458,315 22

Repairs of passenger and freight cars	845,656 56	995,000 00
Repairs of buildings, ferry, etc	269,929 54	237,531 28
Transportation exp	3,077,967 76	3,487,060 74
General expenses	74,165 81	117,471 84
	$5,807,359 44	$6,896,984 12
Net income	$2,154,982 96	$2,362,614 69
From this deduct—		
Interest on loans and exchanges	$115,154 61	
Ten per cent. dividends, including Government tax, May 15, 1872	1,977,469 35	
Dividends on Pittsfield and North Adams R. R., six per cent	27,000 00	
		2,119,623 96
Surplus not divided		$242,990 73
Add surplus at commencement of year		3,009,205 84
		$3,252,196 07
Less U. S. tax on insurance fund	$3,000 00	
Exchange to Baring Bros. & Co.	8,888 89	
		11,888 89
Total surplus		$3,240,307 18

The auditor reports the amount of uncollected bills for the year ending September 30, 1872, as follows: at East Boston, $86,897 95; at Boston, $43,293 39: at other stations, $29,489 78—total, $159,681 12; most of which was for freight on hand at that time in the elevators and freight houses of the company, and is all good, with the exception of bills amounting to $12,690 82, probably worthless. The president in his report says:

Having now completed the first semi-decade in our history since the consolidation of the Western and Boston and Worcester Roads, it may not be out of place to look back and call attention briefly to the rapid growth of business, and to some of the more important changes and improvements that have been going on during that period.

In 1867, the joint total receipts of the two roads were $6,017,245 55, as compared with $9,259,598 81 the past year. The amount of service given to the public in return for this money has increased in a much greater ratio. Thus, the total tonnage in 1867 was 106,510,449 tons moved a mile, while the past year we have moved 290,064,965 tons a mile, showing an increase of 172 per cent. in the work done and a decrease of 34 per cent. in the price received for said work.

The rate per ton per mile in 1867 averaged 3 62-1000 cts., while in 1872 it was 2 16-1000 cts. The passengers carried a mile in 1867 were 87,214,050, as compared with 113,047,331 the past year. For passengers the rate per mile in 1867 was 2 646-1000 cts., against 2 548-1000 cts. in 1872. The through tonnage from Albany to Boston in 1867 was 162,638, while in 1872 it had advanced to 556,202, showing an increase of 393,564 tons. The number of tons from Boston to Albany was 61,630 in 1867, against 112,071 in 1872, showing an increase of 50,441 tons, the increase in the through tonnage in both directions being 444,005, or 197 per cent.

Prior to the date of consolidation, no separate account of the grain business to Boston was kept. In comparing, however, the amount of that business in 1868, the first year after consolidation, with that of last year, we find that while in the former year we carried 794,930 bushels to Boston, in 1872 we brought 6,915,895 bushels—an increase of 6,120,965 bushels, or about 770 per cent. in four years.

This increase in the amount of work done, however, could not have been realized, had there not been a correspondingly large outlay of money in creating the means and facilities for its accomplishment.

As the growth of the through traffic to and from Boston and the West is especially noticeable, so will the labor and money expended in enlarging and developing our terminal facilities in Boston challenge comparison with those of any other line terminating on the sea-board.

Previous to the period of which we are speaking, the approach to our freight and passenger depots in Boston was a narrow, dark and insufficiently drained passage-way, in which a single track in either direction was burdened with the entire business to the sea-board.

Early in 1868 purchases of real estate were begun with a view to widening our location, and today we have an approach with double the number of tracks, well lighted and drained, and spanned by new and substantial iron bridges.

Besides widening our location, we have enlarged the territory upon which the freight business was done by extensive purchases of land, having now in the city of Boston, between Tremont and Beach streets, 3¾ acres of land more than was owned at the date of consolidation.

We have also added 37,500 square feet to our freight and storage accommodations, built a new engine house, and an elevator with a capacity of 500,000 bushels, and have laid two and a quarter miles of additional track east of the Providence crossing.

These outlays, it will be understood, are all in and about our Boston yard, and were only designed as affording relief for the immediate business.

With a view to the future, a tract of Back Bay land, consisting of 1,307,154 square feet, has been purchased, about half of which is already filled, and upon it two and one half miles of additional track are laid and in constant use. With fifty acres of the South Boston Flats, we believe that we are fortified against any contingency which the future may bring forth.

Besides the direct enlargement of our territory by these outlays within the city proper, we are experiencing great relief from our operations elsewhere. At Allston a large tract of land has been purchased, and upon it the extensive shops of the company erected, thus relieving the Boston yard of what was there in a much more limited way carried on before consolidation. For the purpose of connecting their track with their East Boston property, the Boston and Worcester Railroad had, at the time of union, located upon and taken possession of the Grand Junction Railroad, though no settlement of damages had been effected, and nothing done to make the property contribute to our business purposes. After settling with the original proprietors of that road, and clearing away the many legal questions with which it had been embarrassed, we at once relaid the tracts and established a direct connection with deep water at East Boston.

At this point we have added 127,534 square feet to our freight storage accommodations, have built a coal-pocket which holds 800 tons of coal, and a grain elevator with a capacity of 350,000 bushels, to which we are now erecting an addition which will increase its capacity to 1,000,000 bushels; 4 11-100 miles of additional tracks have also been laid within the enclosed yard, the docks have been dredged, wharves rebuilt, and warehouses thoroughly repaired. From these outlays we are now reaping an ample harvest, and our anticipations in reference to this business, expressed in last year's report, are fully realized. With our present facilities, we are now in condition to load still another weekly line of steamers to Europe.

Next in importance to the outlays at Boston, have been the additions and improvements at Albany, our western terminus. We have here enlarged our territory by the purchase of the northerly portion of what is known as Van Rensselaer Island, a tract of land containing about thirty acres, with a valuable water frontage of about 1,800 feet. Upon this territory an engine house, of the largest capacity, has been erected, and new machine shops are now in process of building and nearly completed. We are also adding largely to our freight yards, giving them more than double their former capacity, rendering our facilities for handling canal and river freights sufficient for all future time.

The new bridge over the Hudson River has, during the past year, been completed, to which we have contributed our proportion.

Although, from the necessities of the case, more extensive outlays have been made at our termini than elsewhere, we have not been unmindful of the wants of the road at other points.

At Brighton a tract of land, containing 1,118,782 square feet, has been purchased, to accommodate the wants of the increasing live stock traffic.

New and commodious passenger stations have been erected at Pittsfield and Hudson; a new engine house at Springfield; and at all these places large additions have been made to our real estate, with a view to the future needs of the road.

The work of completing the iron bridge and the enlargement of depot accommodations at Springfield, have been delayed by the failure to unite upon a plan satisfactory at once to the city authorities and the various railroads centering there. The County Commissioners of Hampden County are now considering the question of altering the grade crossing at Main Street, upon which must depend, in some measure, the nature and extent of the improvements in our passenger depot, and the grade of the bridge across the Connecticut River.

The Legislature has removed many of the embarrassments which were encountered in reference to the depot at Worcester, and a plan for a Union Station at that place is now in the hands of the Railroad Commissioners.

The rolling stock of the road has fully kept pace with its increasing business, and our tracks have had unremitting care and attention.

We have now in use and under contract steel rails sufficient to lay two hundred miles of single track, and it is the purpose of the Board to substitute steel for iron as fast as the latter rails need renewal.

After a careful retrospect of the first five years of our existence as a consolidated road from Boston to Albany, the board feel warranted in congratulating you upon the success which has followed upon that union and upon the general prosperity which still attends us.

The company have 57 passenger and 149 freight locomotives; 157 passenger, 38 baggage and postal, 3,927 merchandise, and 372 other cars. Also, 98-234ths of 51 passenger, 4 express, 5 post office, and 8 baggage cars of the New York and Boston Express Line, and 2-5ths of 2 passenger and 2 baggage cars on Steamboat Train.

The number of miles run by locomotives with passenger trains, was 1,218,412; with freight trains, 3,563,636; with gravel trains, etc., 106,023—total, 4,888,071.

The number of through passengers carried, was 70,868; way do. 5,176,708—total, 5,247,576. Number of passengers carried one mile, 113,047,331.

The total number of tons moved was 2,732,907,

of which 741,914 went west, and 1,990,993 east The through tonnage westward amounted to 112,071; do eastward, 556,202. All other tonnage westward, 629,843; do. eastward, 1,434,791. Equivalent number of tons carried one mile, 290,064,965—equal to 1,450,325 tons carried over the whole road.

An aggregate of 403,112,296 passengers or tons of freight carried one mile in 1872, against 325,815,122 passengers or tons of freight carried one mile in 1871.

The cost of transportation of each passenger and each ton of freight one mile this year has been 1.711 cents, against 1.778 cents in 1871.

BALANCE SHEET, SEPTEMBER 30, 1872.

Cost of road and equipment		$24,301,751 46
Cost of South Boston Flats		442,722 78

Ass't Sup't.—WALTER H. BARNES, Boston.

Ass't Sup't.—J. B. CHAPIN, Albany.

Treasurer.—C. E. STEVENS, Boston.

Southern Maryland Railroad.

The Southern Maryland Railroad Company, of which Colonel S. S. Smoot is the president, and the Washington City and Point Lookout Railroad Company, Mr. S. T. Suit, President, have recently entered into an arrangement by which the construction of one road from this city to Point Lookout is supposed to be assured. The agreement is that Colonel Suit will abandon all operations below Brandywine (the point at which the Pope's Creek line of the Baltimore and Potomac Railroad is crossed), and will not construct a road or aid in the construction of a road below that point. The Southern Maryland engages that Mr. Suit shall construct that portion of the road from Brandywine to this city, and on its completion the two companies shall enter into an arrangement by which the Southern Maryland shall become the purchaser or lessee of the line this side of the Brandywine. It is also stipulated that the Washington City and Point Lookout Railroad Company will drop their present corporate name and adopt a new one. The Southern Maryland has already finished grading from Brandywine down thirty miles, and as soon as the weather permits the laying of the ties and rails will be commenced. The prospect is now held out that the people of Charles and the whole of St. Mary's counties will be able to make the journey to this city by rail by taking the Baltimore and Potomac trains at Brandywine, and from thence by Bowie (Huntington) to this city. Mr. Suit has arranged to actively prosecute his part of the work on the opening of the weather with the expectation of having this part ready for the cars within eighteen months at farthest.—*Washington Evening Star.*

Bridges over the Ohio River.

The following is a copy of an act passed by Congress, authorizing the construction of bridges across the Ohio river, and to prescribe the dimensions of the same:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That any persons or corporation, having lawful authority therefor, may hereafter erect bridges across the Ohio river, for railroad or other uses, upon compliance with the provisions and requirements of this act.

Section 2. That every bridge hereafter erected across the Ohio river, above the mouth of the Big Sandy, shall have at least one span of a height of not less than ninety feet above low water, and of not less than forty feet above local highest water, measured to the bottom chord of the bridge; that every bridge hereafter erected across the Ohio river below the mouth of the Big Sandy, shall have at least one span of a height of not less than one hundred feet above low water, and of not less than forty feet above highest water measured to the bottom chord of the bridge; that this high span shall give a clear opening of at least four hundred feet between the piers, measured at right angles to the current at every stage, and that it shall be placed over the main channel of the river used by boats during ordinary stages of water: *Provided*, That any one company, lawfully authorized by the States of West Virginia and Ohio, is hereby authorized to construct a bridge across the Ohio river, from the city of Wheeling in the State of West Virginia, to the opposite side of said river in the State of Ohio, with a span over the main channel of not less than three hundred and fifty feet in length, and in all other respects conformable and subject to the provisions of this act, so far as the same are applicable to bridges about the mouth of the Big Sandy; *And Provided*, That in case this high span is not over the low-water channel, suitable arrangements be made elsewhere to permit the passage of single boats under the bridge at low water; that all bridges over the Ohio river, below the Covington and Cincinnati suspension bridge, shall have, in addition to the span prescribed above a pivot draw, giving two clear openings of one hundred and sixty feet each, measuring at right angles to the current at the average stage of water in the river, and located in a part of the bridge that can be safely and conveniently reached at that stage; and that said draw shall be opened promptly, upon reasonable signal, for the passage of boats whose construction shall not be such as to admit of their passage under the stationary spans of said bridge, except when trains are passing over the same; but in no case shall unnecessary delay occur in opening the said draw before or after the passage of trains.

Section 3. That the piers of the high span and the piers of the draw shall be built parallel with the current at that stage of the river which is most important for navigation; and that no ripraps or other outside protection for imperfect foundation will be permitted in the channel way of the high span, or of the draw openings.

Section 4. That any person, company or corporation authorized to construct a bridge across the Ohio river shall give notice, by publication for one week in newspapers having a wide circulation, in not less than two newspapers in the cities of Pittsburg, Cincinnati and Louisville, for bridges, above the mouth of the Big Sandy, and in the cities of Pittsburg, Cincinnati, Louisville, Saint Louis, Memphis, and New Orleans, for bridges below the mouth of the Big Sandy, and shall submit to the Secretary of War, for his examination, a design and drawings of the bridge and piers, and a map of the location, giving, for the space of at least one mile above and one mile below the proposed location, the topography of the banks of the river, the shore-lines at high and low water, the direction of the current at all stages, and the soundings accurately showing the bed of the stream, the location of any other bridge or bridges, and shall furnish such other information as may may be required for a full and satisfactory understanding of the subject by the Secretary of War; and if the Secretary of War is satisfied that the provisions of the law have been complied with in regard to location, the building of the piers may be at once commenced; but if it shall appear that the conditions prescribed by this act cannot be complied with at the location where it is desired to construct the bridge, the Secretary of war shall, after considering any remonstrances filed against the building of said bridge, and furnishing copies of such remonstrances to the board of engineers provided for in this act, detail a board composed of three experienced officers of the corps of engineers, to examine the case, and may, on their recommendation, authorize such modifications in the requirements of this act, as to location and piers, as will permit the construction of the bridge; not, however, diminishing the width of the spans contemplated by this act: *Provided*, That the free navigation of the river be not materially injured thereby.

Section 5. That all parties owning, occupying, or operating bridges over the Ohio river shall maintain, at their own expense, from sunset to sunrise throughout the year, such lights on their bridges as may be required by the Light House Board for the security of navigation; and all persons owning, occupying, or operating any bridge over the Ohio river shall, in any event maintain all lights on the bridge that may be necessary for the security of navigation.

Section 6. That any bridge constructed under this act, and according to its limitations, shall be a lawful structure, and shall be recognized and known as a post-route, upon which, also, no higher charge shall be made for the transmission over the same of the mails, the troops and munitions of war of the United States than the rate per mile paid for the transportation over the railroads or public highways leading to said bridge; and the United States shall have the right of way for postal-telegraph purposes across any such bridge; and in case of any litigation arising from any obstruction to the navigation of said river, created by the construction of any bridge under this act, the cause or question arising may be tried before the district court of the United States of any State in which any portion of said obstruction or bridge touches.

Section 7. That the right to alter or amend this act, so as to prevent or remove all material obstructions to the navigation of said river by the future construction of bridges, is hereby expressly reserved, without any liability of the government for damages on account of the alteration or amendment of this act, or on account of the prevention or requiring the removal of any such obstructions; and if any change be made in the plan of construction of any bridge constructed under this act, during the progress of the work thereon or before the completion of such bridge, such change shall be subject to the approval of the Secretary of War; and any change in the construction, or any alteration of any such bridge that may be directed at any time by Congress, shall be made at the cost and expense of the owners thereof.

Section 8. That joint resolution number ten, approved April seventh, eighteen hundred and sixty-nine, authorizing the construction of a bridge over the Ohio river at Paducah, be, and the same hereby is, repealed.

Section 9. That the provisions of an act entitled "An act to provide for the better security of life on vessels propelled in whole or in part by steam,"

&c., approved February twenty-eight, eighteen hundred and seventy-one, so far as they relate to the limitation of steamboats used exclusively for towing and carrying freight on the Mississippi river and its tributaries, are hereby so far modified as to substitute for such boats one hundred and fifty pounds of steam pressure in place of one hundred and ten pounds, as provided in said act for the standard pressure upon standard boilers of forty-two inches diameter, and of plates of one quarter of an inch in thickness; and such boats may, on the written permit of the supervising inspector of the district in which such boats shall carry on their business for a period of twelve months from and after the passage of this act, be permitted to carry steam above the standard pressure of one hundred and ten pounds, but not exceeding the standard pressure of one hundred and fifty pounds to the square inch.

Approved, December 17, 1872.

Commerce of New York.

We give below, from the *New York Journal of Commerce*, a statement of the Commerce of New York for 1872, in comparison with that for the five preceding years. The following is a compaartive table showing the relative totals imported at New York in each year since 1850:

Year.	Dutiable.	Free Goods.	Specie.	Total.
1851.	$119,592,264	$9,719,771	$2,049,543	$131,361,578
1852.	115,336,052	12,105,342	2,408,225	129,849,619
1853.	179,512,412	12,156,387	2,429,083	194,097,652
1854.	163,494,984	15,768,916	2,107,572	181,371,472
1855.	142,900,661	14,103,946	855,631	157,860,238
1856.	193,839,646	17,902,578	1,814,425	213,556,649
1857.	196,279,362	21,440,794	12,898,033	230,618,129
1858.	128,578,256	22,024,691	2,264,120	152,867,067
1859.	213,640,363	28,708,732	2,816,421	245,165,516
1860.	201,401,683	28,006,447	8,852,330	238,260,460
1861.	95,326,459	30,353,918	37,088,413	162,768,790
1862.	149,970,415	23,291,625	1,390,277	174,652,317
1863.	174,521,766	11,567,000	1,525,811	187,614,577
1864.	204,128,236	11,731,902	2,265,622	218,125,760
1865.	212,208,301	10,410,837	2,123,281	224,742,419
1866.	284,033,567	13,001,588	9,578,029	306,613,184
1867.	238,297,955	11,044,181	3,306,339	252,648,475
1868.	232,344,418	11,764,027	7,085,389	251,193,834
1869.	275,779,976	14,789,235	15,788,462	306,357,673
1870.	289,618,878	13,716,500	11,864,644	315,200,022
1871.	349,636,398	28,878,294	6,348,608	384,862,300
1872.	369,083,458	57,429,020	5,594,208	432,106,686

In the above table, under the head of dutiable, are included the goods entered directly for consumption which are subjected to duty, and also those entered in bond for warehousing. These, with the free goods and the specie, make the total landed at the port. The free list, which was contracted during the war, has been once more enlarged, but the greatest change, which included tea and coffee, took effect during the latter half of the last year. The foreign specie brought here was designed for reshipment, and most of it will appear again in the exports, with a much larger amount of domestic production.

The following table will show the classification of imports at New York for the years—

	1870.	1871.	1872.
Dry goods.	$109,498,528	$182,480,777	$186,831,612
Gen. mdze.	193,886,855	246,082,915	289,680,866
Specie ...	11,864,644	6,848,608	5,594,208
Total.....	$315,200,022	$384,862,300	$432,106,686

The following is a quarterly statement of the exports from New York to foreign ports, exclusive of specie, for the years named:

Quarter.	1870.	1871.	1872.
1st.....	$40,776,407	$59,716,950	$53,896,192
2d.....	47,514,407	55,344,997	58,062,291
3d.....	46,241,837	58,248,492	60,209,529
4th	61,418,082	61,360,798	70,191,285
Total....	$195,945,733	$234,666,237	$288,859,297

Foreign imports entered at New York during the years 1867, 1868, 1869, 1870, 1871 and 1872:

ENTERED FOR CONSUMPTION.

	1867.	1868.	1869.	1870.	1871.	1872.
January	$11,046,856	$7,855,830	$11,698,755	$11,970,771	$14,169,556	$17,940,512
February	13,364,912	10,386,053	14,205,473	13,739,351	16,995,041	21,033,566
March	11,373,974	11,999,520	17,890,058	14,447,775	22,639,471	20,779,299

Cumberland Coal Trade.

The following statistics of the production of coal in the Cumberland (Md.) region during 1872, are compiled from official sources by Mr. C. SLACK, of Mt. Savage, Md.:

	To B. & O. R. R. Tons.	To C. & O. Canal. Tons.	Local. Tons.	Total. Tons.
American	99,159	127,766	.....	226,925
Atl. & George's Creek	55,280	.....	.....	55,280
Borden Mining	90,689	114,644	2,947	207,280
Consolidation	214,445	238,880	32,137	485,462
Franklin	103,600	.....	.....	103,600
George's Creek C. & I.	192,128	41,232	.....	233,369
George's Creek Min'g	47,827	.....	.....	47,827
Hamp. & Balt. (Md.)	5,055	2,968	107	184,586
" (Nat'l M.)	2,985	52,066	46	
" (Va. M.)	121,364	.....	.....	
Lincoln	17,827	.....	.....	17,827
Maryland	118,155	80,180	108	198,443
Midlothian C. & I.	10,374	.....	.....	10,374
New Central	125,690	147,349	137	273,176
Piedmont C. & I.	78,375	.....	.....	78,375
Potomac	72,637	.....	.....	72,637
Spruce Hill	.....	11,023	325	11,348
Swanton	41,559	.....	.....	41,559
Virginia C. & I.	85,441	.....	.....	85,441
	1,482,540	816,108	84,807	2,383,450
Total to Pennsylvania Railroad				22,021
				2,355,471
Total for 1871				2,345,153
Increase for 1872				10,318

RECAPITULATION.

	Tons.
By Cumberland and Pennsylvania Railroad to Baltimore and Ohio Railroad	1,252,858
By Cumberland and Pennsylvania Railroad to Chesapeake and Ohio Canal	612,537
By Cumberland and Pennsylvania Railroad to Pennsylvania Railroad	22,021
By Cumberland and Pennsylvania Railroad to Local	31,098
	1,918,514
By Cumberland Branch Road to Baltimore and Ohio Railroad	22,877
By Cumberland Branch Road to Chesapeake and Ohio Canal	203,566
By Cumberland Branch Road to Local	3,709
	230,152
By Hampshire and Balt. Co. (Va. Mines) to Baltimore and Ohio Railroad	121,364
By Virginia Coal and Iron Co.	85,441
Total tons in 1872	2,355,471

1,531 tons of Gas Coal were shipped during the year by Canal.

The following table shows the aggregate production of the mines from 1842 to 1872, inclusive—thirty-one years:

	C. & P. R. R. Tons.	C. C. & I. Co.'s R. R. Tons.	G. C. R. R. Tons.	Hamp. R. R. Tons.	Aggregate. Tons.
1842	757	951	.....	.....	1,708

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."
